MONVICT SD-830

MONVICT Cordless Hot Glue Gun Kit User Manual

Model: SD-830 | Brand: MONVICT

INTRODUCTION

This user manual provides essential information for the safe and efficient operation of your MONVICT Cordless Hot Glue Gun Kit, model SD-830. Designed for DIY crafts, quick repairs, and various artistic projects, this glue gun features a USB-C rechargeable battery, smart power-off protection, and rapid preheating for convenience and safety.

WHAT'S INCLUDED

Your MONVICT Cordless Hot Glue Gun Kit includes the following components:

- 1 x Mini Pink Cordless Hot Glue Gun
- 40 x Glue Sticks (30 clear, 10 colored; Size: 0.28 x 4 inch)
- 10 x Craft Sticks
- 1 x USB-C Charging Cable
- 1 x Strong Magnetic Suction Base
- 1 x User Manual (this document)
- 1 x Carrying Case

Figure 1: All components included in the MONVICT Cordless Hot Glue Gun Kit.

SETUP

1. Charging the Glue Gun

Before first use, fully charge the glue gun. Connect the provided USB-C charging cable to the glue gun's USB-C port and a compatible power source. The 2200mAh lithium-ion battery takes approximately 1.25 hours to fully charge, providing up to 100 minutes of working time.

Long-Lasting Battery

Figure 2: Illustration of the glue gun's long-lasting battery and fast heating system.

2. Attaching the Magnetic Suction Base

The glue gun comes with a strong magnetic suction base for stable upright positioning. Simply place the glue gun onto the base. The magnetic connection allows for 360-degree rotation while securely holding the gun.

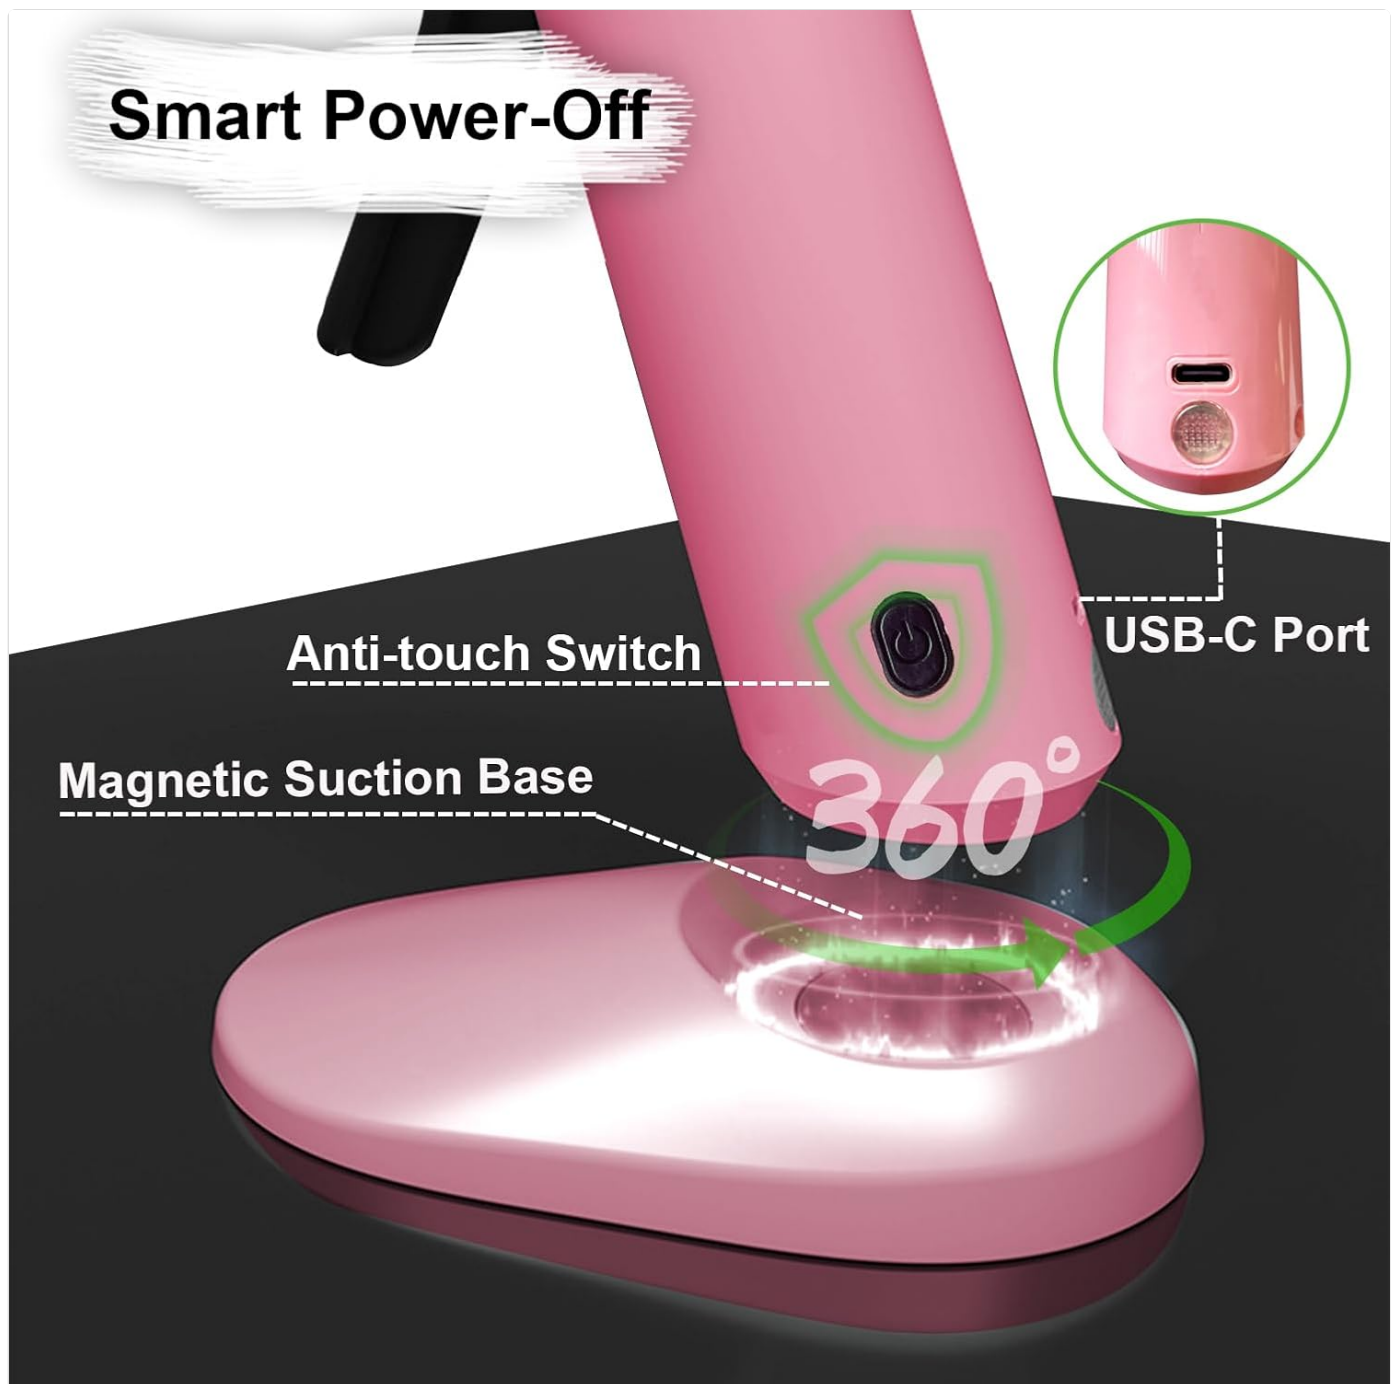

Figure 3: Detail of the magnetic suction base and USB-C charging port.

3. Inserting a Glue Stick

Insert a 0.28 x 4 inch glue stick into the circular opening at the back of the glue gun until it stops. Do not force the glue stick.

OPERATING INSTRUCTIONS

1. Powering On and Preheating

Press the power button (anti-touch switch) located on the handle to turn on the glue gun. The LED indicator on the top of the gun will illuminate. The advanced PTC heating system allows for rapid preheating within 90 seconds. The LED indicator will change color to confirm when preheating is complete and the gun is ready for use.

Figure 4: Key features including the LED indicator and ergonomic design.

2. Applying Glue

Once preheated, gently squeeze the trigger to dispense melted glue. The anti-drip design and heat-resistant silicone nozzle help prevent leakage, ensuring precise application. Apply glue to the desired surface and press the pieces together firmly within a few seconds.

Figure 5: Using the glue gun for delicate craft work.

3. Smart Power-Off Protection

For safety and energy conservation, the glue gun is equipped with a smart sensor that automatically powers off the device if it remains inactive for more than 5 minutes. To resume operation, simply press the power button again.

MAINTENANCE

- Always ensure the glue gun is powered off and cooled down before cleaning or storing.
- Wipe the exterior of the glue gun with a clean, damp cloth. Do not use abrasive cleaners or solvents.
- To prolong battery life, if the glue gun is not used frequently, recharge it every 3-6 months.
- Store the glue gun and its accessories in the provided carrying case in a dry, cool place, away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Glue gun does not heat up.	Battery is low or depleted. Power button not pressed correctly.	Charge the glue gun fully using the USB-C cable. Ensure the power button is pressed firmly until the LED indicator lights up.
Glue is not dispensing.	Glue gun not fully preheated. Glue stick not inserted correctly or jammed.	Wait for the LED indicator to signal readiness (approx. 90 seconds). Ensure the glue stick is fully inserted. If jammed, allow to cool, then gently remove and reinsert.
Glue gun automatically turns off.	Smart power-off activated due to inactivity.	This is a safety feature. Press the power button to turn the glue gun back on.

SPECIFICATIONS

- Model:** SD-830
- Color:** Mc-830pro Pink
- Power Source:** Battery Powered (2200mAh Lithium Polymer)
- Voltage:** 240 Volts
- Preheating Time:** Approximately 90 seconds
- Working Time (Full Charge):** Up to 100 minutes
- Charging Time:** Approximately 1.25 hours (via USB-C)
- Compatible Glue Stick Size:** 0.28 x 4 inches
- Item Weight:** 1.17 pounds
- Package Dimensions:** 8.7 x 6.42 x 2.17 inches
- Compatible Materials:** Fabric, Metal, Paper, Plastic
