## EMKE PTR9654C4B-DRVC

# EMKE Electric Towel Radiator 960x540 mm, Black - User Manual

Model: PTR9654C4B-DRVC

## 1. INTRODUCTION

---

Thank you for choosing the EMKE Electric Towel Radiator. This manual provides essential information for the safe installation, operation, and maintenance of your new electric towel radiator. Please read these instructions carefully before installation and retain them for future reference.

### Product Overview

The EMKE Electric Towel Radiator is designed to provide efficient heating for your bathroom and dry towels. It features intelligent temperature control, energy-saving functions, and a durable aluminum construction.

## Safety Information

- Ensure the product is installed by a qualified electrician in accordance with local regulations.
- Do not cover the radiator with flammable materials.
- Keep children away from the radiator during operation, especially when it is hot.
- This appliance is equipped with overheat protection, frost protection, and child safety features.
- Do not immerse the appliance in water or other liquids.
- Always disconnect from the power supply before cleaning or maintenance.

## 2. SETUP AND INSTALLATION

---

The EMKE Electric Towel Radiator comes with a complete mounting kit and an assembly manual. Please follow the instructions provided in the assembly manual for secure installation.

### Key Installation Notes:

- The product dimensions are 960 x 540 mm (height x width).
- The power cable is located on the right side of the unit.

- The distance between the wall and the outer surface of the product is 103-113 mm.
- Ensure the installation location is suitable for an electrical appliance in a humid environment.
- The radiator is equipped with a European standard plug and a 1.4 m coiled cable.

### 3. OPERATING INSTRUCTIONS

---

The EMKE Electric Towel Radiator features a convenient LED control panel for easy and flexible temperature adjustment and mode selection.

#### Control Panel Overview

The LED control panel allows you to select from four operating modes and set the desired temperature between 7°C and 30°C. It also supports 24/7 programming to optimize heating profiles to your daily habits.

Freie Kontrolle ohne Bücken

Image 4: User interacting with the touch control panel.

## Operating Modes:

- **Comfort Mode:** The standard temperature is 19°C. The adjustable range is between 7°C and 30°C.
- **Eco Mode:** The standard temperature is 15.5°C. The adjustable range is between 7°C and 30°C.
- **Anti-freeze Mode:** Automatically activates when the temperature falls below 7°C to prevent freezing.
- **Timer Mode:** Can be set to operate the heating at regular intervals according to a programmed schedule.

# LED-Panel-Schema

## Komfortmodus

Die Standardtemperatur beträgt 19 °C und der einstellbare Bereich liegt zwischen 7 und 30 °C

## Frostschutzmodus

Automatisches Einschalten, wenn die Temperatur unter 7 °C liegt

## Wirtschaftsmodell

Die Standardtemperatur beträgt 15.5 °C und der einstellbare Bereich liegt zwischen 7 und 30 °C

## Timer-Modus

Kann so eingestellt werden, dass die Heizung in regelmäßigen Abständen läuft

Image 5: LED Control Panel Schema illustrating different modes.

## Energy-Saving Features:

Equipped with precise sensors, the radiator adjusts energy consumption and heating power for efficient drying with minimal energy use. In case of a sudden temperature drop, the window open sensor activates to regulate the heater's operation accordingly, preventing energy waste.

# Multifunktionaler Handtuchtrockner

Geringer Stromverbrauch, schnelle Wärmeableitung, Reduzierung des Bakterienwachstums und Schutz der Gesundheit

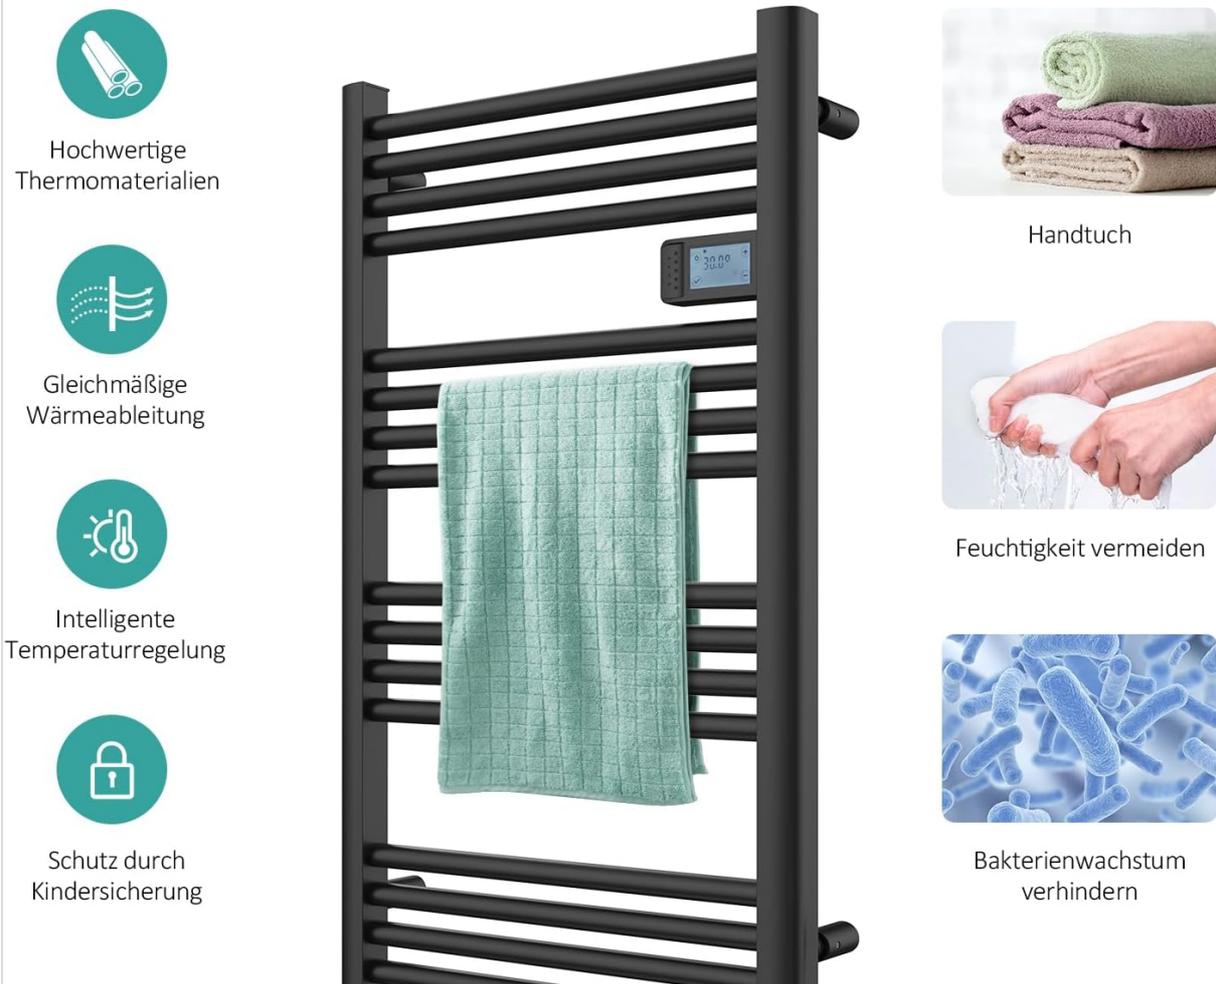

Image 6: Multifunctional features of the towel radiator.

## 4. MAINTENANCE

Regular maintenance ensures the longevity and efficient operation of your EMKE Electric Towel Radiator.

### Cleaning:

- Before cleaning, always switch off the radiator and disconnect it from the power supply. Allow it to cool down completely.
- Wipe the surface with a soft, damp cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.
- Ensure no water enters the electrical components.
- Dry the radiator thoroughly after cleaning.

### General Care:

- Periodically check the power cord for any signs of damage. If damaged, it must be replaced by a qualified professional.

- Do not hang excessively heavy items on the radiator.

## 5. TROUBLESHOOTING

---

If you encounter issues with your EMKE Electric Towel Radiator, please refer to the following common troubleshooting steps:

- **Radiator not heating:** Check if the power plug is securely inserted and if the circuit breaker is tripped. Ensure the desired temperature is set higher than the current room temperature.
- **Inconsistent heating:** Verify that no objects are blocking the radiator's heat dissipation. Check if the window open sensor has been triggered (if a window is open, the radiator may reduce heating).
- **Unusual odors:** A slight odor may occur during the first few uses as manufacturing residues burn off. This should dissipate over time. If a strong or persistent burning smell occurs, immediately disconnect the power and contact customer support.
- **Control panel unresponsive:** Ensure the unit is powered on. Try resetting the unit by unplugging it for a few minutes and then plugging it back in.
- **Loud button sounds:** The control panel buttons may produce an audible click. This is generally normal operation and cannot be disabled.

If the problem persists after attempting these steps, please contact EMKE customer support for further assistance.

## 6. SPECIFICATIONS

---

Feature	Specification
Brand	EMKE
Model Number	PTR9654C4B-DRVC
Dimensions (H x W x D)	96 x 54 x 10 cm (960 x 540 mm)
Weight	6.6 kg
Color	Black
Power	500 W
Heating Technology	Carbon fiber heating technology
Applicable Area	Up to 6 m <sup>2</sup>
Material	Aluminum (with seamless welding technology)
Temperature Control Range	7°C to 30°C
Safety Features	Overheat protection, Frost protection, Child safety, Window open sensor
Included Components	Electric bathroom radiator, Mounting kit, Assembly manual
Power Cable Length	1.4 m (coiled cable)

# Hohe Wärmeleitfähigkeit

Der Handtuchheizkörper kann Ihr Badezimmer vollständig erwärmen und gleichzeitig Handtücher trocknen
