SnapWireless PPU

SnapWireless PowerPack Universal 5-in-1 Charger Instruction Manual

Model: PPU

1. INTRODUCTION

The SnapWireless PowerPack Universal is a versatile 5-in-1 charging solution designed for global travel and daily use. It integrates a power bank, MagSafe compatible wireless charger, and universal travel adapters with built-in charging cables. This manual provides essential information for the safe and efficient operation of your device.

2. WHAT'S INCLUDED

Verify that all items are present in the package:

- PowerPack Universal
- Travel Pouch
- AU Adapter
- EU Adapter
- UK Adapter

Note: The US Adapter is built into the PowerPack Universal.

What's Included

Universal Travel Adaptors
Includes AU, EU, UK, US & Asia adaptors

PowerPack Universal
5 in 1 travel power bank

Travel Case
Specially designed for the PowerPack Universal

4. SETUP

4.1 Initial Charging of the PowerPack

1. Unfold the built-in US adapter from the PowerPack.
2. Plug the PowerPack directly into a wall outlet.
3. The digital display will show the charging progress. Charge until 100% for optimal initial use.

4.2 Attaching International Adapters

1. Ensure the built-in US adapter is folded back into the PowerPack.
2. Select the appropriate international adapter (AU, EU, or UK) for your region.
3. Align the international adapter with the PowerPack's adapter slot and push firmly until it clicks into place.
4. To remove, press the release button (if present) or pull firmly to detach.

5. OPERATING INSTRUCTIONS

5.1 Charging Devices Using Built-in Cables

1. Pull out the integrated Lightning or USB-C cable from its storage slot.

2. Connect the appropriate cable to your device.
3. The PowerPack will automatically begin charging. The digital display will show the remaining battery percentage.

5.2 Wireless Charging (MagSafe Compatible)

1. Place your MagSafe-compatible device (e.g., iPhone 12 series or newer) onto the circular wireless charging pad on the PowerPack.
2. Ensure the device is centered for optimal magnetic alignment and charging efficiency.
3. The PowerPack will initiate wireless charging.

5.3 Charging Devices Using USB Ports

1. Connect your device's charging cable to either the USB-A output port or the USB-C input/output port on the PowerPack.
2. Connect the other end of the cable to your device.
3. Charging will commence automatically.

Built-in USB-C cable

Built-in Lightning cable

Never forget your charging cable.

5.4 Using as a Wall Charger

1. Plug the PowerPack Universal into a wall outlet using the appropriate adapter.

2. Connect your devices using the built-in cables, wireless charging pad, or USB ports.

3. The PowerPack will charge both itself and connected devices simultaneously.

6. MAINTENANCE

6.1 Cleaning

Wipe the PowerPack Universal with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.

6.2 Storage

Store the device in its travel pouch when not in use to protect it from dust and scratches. Keep it in a cool, dry place away from direct sunlight and extreme temperatures.

6.3 Battery Care

To prolong battery life, fully charge the PowerPack Universal at least once every three months, even if not in regular use.

7. TROUBLESHOOTING

7.1 Device Not Charging

- Ensure the PowerPack Universal has sufficient charge. Check the digital display.

- Verify that cables are securely connected to both the PowerPack and your device.

- Check for any damage to the cables or ports.

- For wireless charging, ensure proper alignment and that no foreign objects are between the PowerPack and your device.

7.2 Slow Charging

- Ensure your device supports PD 20W fast charging for optimal speeds.

- Charging multiple devices simultaneously may reduce individual charging speeds.

- Check if the PowerPack itself is fully charged.

7.3 PowerPack Not Charging

- Ensure the PowerPack is securely plugged into a functional wall outlet.

- Verify that the correct international adapter is firmly attached and functioning.

8. SPECIFICATIONS
