myQ Smart Garage® Video Keypad Rechargeable Battery User Manual

Model: VKP1-MYQ-BT1 | Brand: CHAMBERLAIN

1. INTRODUCTION

This user manual provides essential information for the proper use and maintenance of your myQ Smart Garage Video Keypad Rechargeable Battery. This battery is designed to ensure continuous operation of your myQ Video Keypad, providing a reliable power source when your primary battery is depleted or needs charging.

The myQ Smart Garage Video Keypad Rechargeable Battery allows for quick swapping, minimizing downtime for your video keypad. It is specifically compatible with the myQ Smart Garage Video Keypad.

2. WHAT'S INCLUDED

Your package should contain the following items:

- 1 x myQ Smart Garage Video Keypad Rechargeable Battery
- 1 x Micro-USB Charging Cord

3. SETUP AND INSTALLATION

To install the rechargeable battery into your myQ Smart Garage Video Keypad, follow these steps:

1. Carefully unscrew your myQ Video Keypad from its mounted position.
2. Locate the back cover of the keypad and remove it to access the battery compartment.
3. If a battery is already present, gently press up on the battery tab to release and remove the depleted battery.
4. Insert the fully charged myQ Smart Garage Video Keypad Rechargeable Battery into the compartment, ensuring it is oriented correctly.
5. Replace the back cover and re-mount the keypad securely.

4. OPERATING INSTRUCTIONS

This rechargeable battery serves as a power source for your myQ Smart Garage Video Keypad. Once installed, the keypad will draw power from the battery. No direct operation of the battery itself is required beyond charging and installation.

For detailed instructions on operating your myQ Smart Garage Video Keypad, please refer to the keypad's dedicated user manual.

5. MAINTENANCE AND CHARGING

To ensure optimal performance and longevity of your rechargeable battery, follow these maintenance and charging guidelines:

Charging the Battery:

1. Connect the provided Micro-USB Charging Cord to the charging port on the battery.
2. Plug the other end of the Micro-USB Charging Cord into a compatible USB power adapter (not included) or a USB port on a computer.
3. Allow the battery to charge fully. The charging indicator (if present on the battery or keypad) will typically change color or turn off when charging is complete.
4. It is recommended to have a spare, fully charged battery on hand to quickly swap when your current one is depleted, ensuring continuous operation of your keypad.

Storage:

Store the battery in a cool, dry place away from direct sunlight and extreme temperatures. Avoid storing fully depleted batteries for extended periods to prevent deep discharge.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Battery not charging.	Charging cable not properly connected. Faulty charging cable or adapter. Battery or charging port damage.	Ensure the Micro-USB cable is securely connected to both the battery and the power source. Try a different Micro-USB cable and/or USB power adapter. Inspect the battery and charging port for visible damage. If damaged, contact customer support.
Keypad not powering on after battery swap.	Battery not fully charged. Battery not correctly installed. Keypad issue (not battery related).	Ensure the battery is fully charged before installation. Remove and re-insert the battery, ensuring it clicks into place securely. If the issue persists, refer to the myQ Smart Garage Video Keypad's user manual for troubleshooting keypad-specific problems.
