Assembly of the SEDETA Computer Desk requires approximately 2 people and includes all necessary tools. Please follow the clear and detailed instructions provided in the separate assembly guide included with your package. Numbered parts facilitate the process.

### 4.1 General Assembly Tips

- **Read Ahead:** Review all steps in the assembly guide before starting.
- **Organize Parts:** Lay out all numbered parts and hardware in an organized manner.
- **Do Not Overtighten:** When instructed to keep screws loose, follow this direction. Overtightening prematurely can cause misalignment in later steps or damage the wood. Tighten all fasteners only after the entire section is correctly aligned.
- **Two-Person Assembly:** While some steps can be done alone, having two people will significantly ease the assembly process and prevent potential damage.
