Nusyddy 22.5W Super Fast Charging Portable Charger (Model AC-02) Instruction Manual

Brand: Nusyddy | Model: AC-02

1. INTRODUCTION

Thank you for choosing the Nusyddy 22.5W Super Fast Charging Portable Charger, Model AC-02. This versatile power bank is designed to provide convenient and rapid charging for a wide range of electronic devices, including iPhones, Samsung phones, and tablets. With its integrated cables and AC wall plug, it offers an all-in-one solution for your portable power needs, whether you are traveling, camping, or simply on the go.

2. PRODUCT OVERVIEW

The Nusyddy Portable Charger combines multiple charging functionalities into a compact and lightweight design. It features built-in cables for various devices, an integrated AC wall plug for direct recharging, and multiple output ports for simultaneous charging.

Key Features:

- **Built-in Cables:** Includes integrated USB-C and iPhone (Lightning) cables for direct device charging.
- **AC Wall Plug:** A foldable AC wall plug allows for direct recharging of the power bank from any standard 100-240V wall socket, eliminating the need for extra adapters.
- **High Capacity:** 12000mAh battery capacity provides multiple charges for smartphones and tablets.
- **Super Fast Charging:** Features 22.5W USB-A and 20W USB-C fast charging outputs to quickly power up your devices.
- **Multiple Output Ports:** Equipped with two USB-A ports and one USB-C port, allowing up to 5 devices to charge simultaneously (including built-in cables).
- **Compact & Lightweight:** Designed for portability, measuring 5.90 x 2.66 x 0.78 inches and weighing 0.50 Lb.
- **Safety Protections:** Built-in intelligent chip protects against short circuit, overcharging, over-current, over-voltage, over-discharge, and temperature fluctuations.
- **LED Indicator:** Digital display shows the remaining battery percentage.

3. SETUP: CHARGING THE POWER BANK

Before using your Nusyddy portable charger to power other devices, ensure it is fully charged. The power bank features an LED display that shows the current battery percentage.

Recharging Methods:

1. Using the Built-in AC Wall Plug:

- Locate the foldable AC wall plug on the side of the power bank.
- Flip out the prongs and plug the power bank directly into any standard 100-240V wall socket.
- The LED display will show the charging progress. A full charge via wall plug takes approximately 5 hours.

2. Using a Type-C Charge Cord:

- Connect the provided Type-C charge cord to the power bank's USB-C port (labeled as input/output).
- Connect the other end of the Type-C cord to a compatible 20W or above fast charge wall adapter (not included).
- The LED display will show the charging progress. A full charge via a 20W fast charge cord takes approximately 3.5 hours.
