## 5. ASSEMBLY INSTRUCTIONS

Follow these general steps for assembly. For detailed, step-by-step instructions, please refer to the separate assembly manual included in your package.

1. **Prepare the Wall:** Before assembly, mark the fixed positioning holes on the wall using a No.4 wood strip or template.
2. **Drill Holes:** Use a  $\phi 6\text{mm}$  or smaller drill bit to create holes at the marked positioning points.
3. **Insert Anchors:** Insert the provided plastic anchors (labeled "N" in the detailed manual) into the drilled holes.
4. **Mount the Cabinet:** After assembling the cabinet, align it with the wall anchors. Use the self-tapping screws (labeled "O" in the detailed manual) to secure the cabinet to the wall. **Note: This step requires two people for safe completion.**

## 7. MAINTENANCE

To ensure the longevity and appearance of your Smuxee cabinet, follow these maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Spills:** Promptly wipe up any spills, especially water, to prevent moisture damage to the engineered wood.
- **Hardware:** Periodically check all screws and fittings to ensure they remain tight. Retighten if necessary.
- **Weight Capacity:** Do not overload shelves. Distribute weight evenly to maintain stability.

## 8. TROUBLESHOOTING

- **Doors Not Aligning:** If doors appear uneven after assembly, check the hinge adjustments. Most hinges allow for minor adjustments to align the doors.
- **Cabinet Feels Unstable:** Ensure the cabinet is securely mounted to wall studs or appropriate heavy-duty anchors. If only using drywall anchors, verify they are rated for the weight of the cabinet plus its contents.
- **Missing Parts:** If any parts are missing or damaged upon arrival, please contact Smuxee customer support for assistance.
