edihome Denver Dining Table - White Finish Instruction Manual

Model: EDIH-0707-W

Brand: edihome

1. PRODUCT OVERVIEW

The edihome Denver Dining Table in White finish is designed to add a modern touch to your dining room, living room, or kitchen. This table is suitable for daily use and special occasions, accommodating up to 4 diners. Constructed from chipboard with a melamine surface, it offers durability and a contemporary aesthetic.

This manual provides essential information for the assembly, operation, maintenance, and troubleshooting of your edihome Denver Dining Table.

2. SAFETY INFORMATION

Please read all safety warnings and instructions before assembly and use. Keep this manual for future reference.

- **Weight Limits:** Do not exceed the recommended weight capacity for the table. While the table is robust, excessive weight can cause damage or instability. (Note: The specification lists a maximum weight recommendation of 15 kg, which typically refers to items placed on the table, not its structural load-bearing capacity for dining. Exercise caution with heavy objects.)
- **Stability:** Ensure all components are securely fastened during assembly to prevent wobbling or collapse. Periodically check and tighten all screws and fittings.
- **Anchoring:** If applicable for your specific model or if you have children/pets, consider anchoring the table to a wall to prevent tipping, especially if it's a taller or less stable variant.
- **Assembly:** Assembly should ideally be performed by two adults to ensure safety and proper handling of components.
- **Children:** Keep small parts and packaging materials away from children during assembly.

3. ASSEMBLY INSTRUCTIONS

Your edihome Denver Dining Table requires assembly. All necessary instructions and tools are included with your purchase. Follow the step-by-step guide provided in the packaging for a quick and easy setup.

General Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the parts list.
2. **Attach Legs:** Securely attach the table legs to the tabletop using the provided hardware. Ensure all screws are tightened.
3. **Stabilize:** Once assembled, gently test the table for stability. If any wobbling occurs, re-check all connections.

For detailed visual guidance, refer to the specific assembly manual included in your product packaging.

4. OPERATING AND USAGE

The edihome Denver Dining Table is designed for versatile use in dining areas, kitchens, or living rooms. Its modern style complements various home decors.

Standard Use:

Place the table in your desired location, ensuring it is on a flat, stable surface. It comfortably seats up to 4 people.

Extendable Feature (for specific variants):

Some edihome Denver Dining Table models feature an extendable design, allowing you to increase the table's length to accommodate more guests. If your model is extendable (e.g., "Blanco Extensible" variant), follow these steps:

1. **Unlock:** Locate and unlock any latches or mechanisms securing the tabletop sections.
2. **Pull Apart:** Gently pull the two main tabletop sections apart to reveal the extension leaf storage or mechanism.
3. **Insert Leaf:** Place the extension leaf (or leaves) into the gap, ensuring it aligns with the main tabletop.
4. **Secure:** Push the main tabletop sections back together until they are flush with the extension leaf and lock any securing mechanisms.

Refer to the video below for a demonstration of the extension process (shown with a white and wood finish variant):

5. MAINTENANCE AND CARE

To ensure the longevity and appearance of your edihome Denver Dining Table, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the table surface with a damp cloth. For stubborn marks, use a mild, non-abrasive cleaner. Avoid harsh chemicals or abrasive materials that could damage the melamine finish.

- **Spills:** Clean up spills immediately to prevent staining or damage to the surface.
- **Heat and Moisture:** Use placemats and coasters to protect the surface from hot dishes and moisture rings.
- **Sunlight:** Avoid prolonged exposure to direct sunlight, which can cause fading or discoloration over time.
- **Regular Checks:** Periodically inspect all screws and fittings and tighten them as needed to maintain stability.

6. TROUBLESHOOTING

If you encounter any issues with your edihome Denver Dining Table, refer to the following common troubleshooting tips:

- **Table Wobbles:**
 - Ensure the table is on a level surface.
 - Check all leg attachments and frame connections. Tighten any loose screws or bolts.
 - Verify that all legs are making full contact with the floor. Adjust leg levelers if present.
- **Difficulty with Extension (for extendable models):**
 - Ensure all locking mechanisms are fully disengaged before attempting to extend or retract the table.
 - Check for any obstructions in the extension mechanism.
 - Apply gentle, even pressure when pulling or pushing the table sections. Avoid forcing them.
- **Surface Scratches or Dents:**
 - Minor scratches on melamine can sometimes be minimized with furniture repair kits or markers.
 - Prevent future damage by using protective coverings like tablecloths or placemats.

If the issue persists, please contact edihome customer support for assistance.

7. SPECIFICATIONS

Feature	Detail
Brand	edihome
Model Number	EDIH-0707-W
