Connecting via 2.4GHz Wireless Dongle

1. Insert the 2.4GHz USB wireless dongle into an available USB port on your PC, PlayStation, or other compatible gaming console.
2. Power on the headset by pressing and holding the Power button until the LED indicator lights up.
3. The headset will automatically attempt to connect to the dongle. The LED indicator will show a steady light once connected.
4. Ensure the headset is selected as the default audio input/output device in your device's sound settings.

Connecting via Bluetooth

1. Power on the headset.
2. Press and hold the Power button for approximately 5 seconds until the LED indicator flashes rapidly, indicating pairing mode.
3. On your Bluetooth-enabled device (e.g., smartphone, tablet, laptop), search for Bluetooth devices and select "HAVIT Fuxi H3" from the list.
4. Once paired, the LED indicator on the headset will show a steady light.

Connecting via 3.5mm Audio Cable (Wired Mode)

1. Connect one end of the 3.5mm audio cable to the headset's 3.5mm audio jack.
2. Connect the other end to the 3.5mm audio port on your device.
3. In wired mode, the headset does not require power. The microphone functionality may vary depending on the device's 3.5mm port configuration.

Operating Instructions

Power On/Off

- **Power On:** Press and hold the Power button for 2 seconds.
- **Power Off:** Press and hold the Power button for 3 seconds.

Volume Control

- Rotate the **Volume Control Wheel** on the earcup upwards to increase volume.
- Rotate the **Volume Control Wheel** downwards to decrease volume.

Microphone Usage

- Attach the detachable microphone to the designated port on the headset.
- Adjust the microphone's position for optimal voice pickup.
- The microphone is omnidirectional, designed for clear communication.
- To mute/unmute the microphone, use the dedicated microphone mute button on the headset or your connected device's software.

Mode Switching (2.4GHz / Bluetooth)

The headset supports quad-mode connectivity. To switch between 2.4GHz wireless and Bluetooth modes, briefly press the Power button while the headset is on.

Maintenance

Cleaning

- Wipe the headset with a soft, dry cloth.
- Do not use abrasive cleaners, alcohol, or solvents.
- Avoid getting moisture into any openings.

Storage

- Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- When not in use for extended periods, charge the headset at least once every three months to preserve battery health.

Troubleshooting

No Sound / Low Volume

- Ensure the headset is powered on and fully charged.
- Check the volume control wheel on the headset and your connected device.
- Verify that the headset is selected as the default audio output device in your system settings.
- If using 2.4GHz wireless, ensure the USB dongle is securely plugged in and recognized by your device.
- If using Bluetooth, ensure the headset is properly paired and connected. Try re-pairing if necessary.
- If using wired mode, ensure the 3.5mm cable is fully inserted into both the headset and your device.

Microphone Not Working

- Ensure the microphone is securely attached to the headset.
- Check if the microphone mute function is active on the headset or your device's software.
- Verify that the headset microphone is selected as the default audio input device in your system settings.
- For wired connection, microphone functionality may depend on the device's 3.5mm port.

Connection Issues

- Ensure the headset is within the effective range of the 2.4GHz dongle or Bluetooth device.
- Avoid strong electromagnetic interference from other devices.
- Try restarting both the headset and the connected device.
- For Bluetooth, try forgetting the device on your system and re-pairing.
