**Razer RC30-474C0100-R3U1**

# Razer Wireless Control Pod RC30-474C0100-R3U1 User Manual

Model: RC30-474C0100-R3U1

## INTRODUCTION

---

The Razer Wireless Control Pod is designed to provide seamless wireless control over your Razer peripherals and compatible audio systems. This manual provides instructions for setting up, operating, and maintaining your device.

*Image: The Razer Wireless Control Pod, a compact, black cylindrical device with a textured side and a smooth top featuring the Razer logo. A power button and a small green LED indicator are visible on the front base.*

## PACKAGE CONTENTS

---

Verify that all items are present in your package:

- Razer Wireless Control Pod
- Documentation (this manual)

Note: AAA batteries are typically included but may vary by region or retailer.

## SETUP

---

### 1. Battery Installation

1. Gently twist the bottom cover of the control pod counter-clockwise to unlock and remove it.
2. Insert two AAA batteries into the designated slots, ensuring correct polarity.
3. Replace the bottom cover and twist clockwise to secure it.

# UP TO 8 MONTHS BATTERY LIFE\*

## For long-lasting performance

\*Based on approx. 10 min continuous usage per day, measured with supplied AAA batteries

*Image: The Razer Wireless Control Pod with its bottom cover removed, revealing the battery compartment designed for two AAA batteries. A small green LED is visible on the front.*

## 2. Bluetooth Connectivity

1. Ensure the control pod is powered on (green LED indicates power).
2. On your device (PC, Mac, etc.), navigate to Bluetooth settings.
3. Select "Razer Wireless Control Pod" from the list of available devices to pair.
4. The control pod will indicate successful pairing.

# BLUETOOTH CONNECTIVITY

## For wireless freedom and flexibility

*Image: A desktop setup featuring a Razer keyboard, mouse, and speakers, with the Razer Wireless Control Pod positioned on the mouse mat, illustrating its wireless Bluetooth connectivity.*

### 3. Software Installation (Razer Synapse / Razer Audio App)

For advanced customization and full functionality, install the Razer Synapse software on your PC or the Razer Audio App on your mobile device.

- Download Razer Synapse from the official Razer website.
- Download the Razer Audio App from your device's app store.

# ADVANCED AUDIO CONTROL

## For the Razer Nommo V2 and Leviathan V2 line

*Image: Three smartphone screens displaying the Razer Audio App interface, showing options for input source, 3D audio mode, equalizer settings (flat, game, movie, music), and Chroma RGB lighting customization.*

## OPERATING INSTRUCTIONS

### Dial and Source Button Functions

The Razer Wireless Control Pod features a rotatable, clickable dial and a dedicated source button for intuitive control.

- **Rotate Dial:** Adjusts volume or other assigned parameters.
- **Click Dial:** Mutes/unmutes audio or performs other assigned functions.
- **Press Source Button:** Switches between connected devices.
- **Hold Source Button:** Toggles between USB and Bluetooth connection modes (if applicable and configured).

# ROTATABLE, CLICKABLE DIAL AND SOURCE BUTTON

For easy navigation and intuitive control

*Image: A hand interacting with the Razer Wireless Control Pod, demonstrating the use of its rotatable and clickable dial for fine-tuning settings.*

## Customization

Utilize Razer Synapse or the Razer Audio App to customize the control pod's functions:

- **Chroma Effects:** Adjust RGB lighting synchronization across compatible Razer devices.
- **EQ Presets:** Cycle through or create custom equalizer settings for audio output.
- **Remap Functions:** Assign specific actions to dial rotations, clicks, and source button presses.
- **Macro Activation:** Create and assign macros for complex command sequences.

# INSTANT BATTLESTATION CUSTOMIZATION

For all peripherals supported by  
Razer Synapse

*Image: A fully customized Razer battlestation with a monitor, keyboard, mouse, and speakers, all featuring synchronized RGB lighting, demonstrating the control pod's ability to manage peripheral settings.*

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the control pod. Avoid abrasive cleaners or solvents.
- **Battery Replacement:** Replace AAA batteries when the low battery indicator appears or performance degrades.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.

# DURABLE ALUMINUM ALLOY BUILD

With a textured grip

*Image: A close-up side view of the Razer Wireless Control Pod, highlighting its durable aluminum alloy construction and textured grip.*

## TROUBLESHOOTING

- **Device Not Powering On:**

- Ensure batteries are correctly installed and not depleted.
- Try new AAA batteries.

- **Unable to Pair via Bluetooth:**

- Ensure the control pod is in pairing mode.
- Verify Bluetooth is enabled on your host device.
- Remove previous pairings from your host device and attempt to pair again.
- Ensure the control pod is within range of your host device.

- **Functions Not Responding:**

- Check if the control pod is successfully paired.
- Restart the control pod and your host device.

- Ensure Razer Synapse or the Razer Audio App is running and updated, if using custom functions.

- **Lag or Delayed Response:**

- Ensure there are no obstructions between the control pod and your host device.
- Minimize interference from other wireless devices.
- Update Razer Synapse or the Razer Audio App to the latest version.

## SPECIFICATIONS

---

Feature	Detail
Brand	Razer
Model Number	RC30-474C0100-R3U1
Connectivity	Bluetooth
Power Source	Battery Powered (2x AAA)
Battery Life	Up to 8 months (approx. 10 min continuous usage per day)
Material	Durable Aluminum Alloy
Dimensions (LxWxH)	2.76 x 2.76 x 1.18 inches
Weight	6.2 ounces
