## OPERATING INSTRUCTIONS

### Power Reclining Function

Locate the power control panel on the side of the sofa. This panel typically includes buttons for reclining and adjusting the headrest.

- **Recline:** Press and hold the recline button to extend the footrest and recline the backrest. Release the button at your desired position.
- **Return to Upright:** Press and hold the upright button to return the sofa to its original seated position.
- **Adjust Headrest:** Use the dedicated headrest adjustment buttons to tilt the headrest forward or backward for optimal neck and head support.

### USB Charging Ports

The integrated USB ports allow you to charge compatible electronic devices. Simply plug your device's USB cable into the port located on the power control panel.

*Note: USB ports are for charging only and do not support data transfer.*

## MAINTENANCE AND CARE

### Fabric Care (Next-Gen Nuvella)

- **General Cleaning:** For routine cleaning, gently vacuum the fabric to remove dust and loose debris.
- **Spot Cleaning:** For spills and stains, spot clean with a damp cloth. Use a mild, water-based cleaning agent if necessary. Always test on an inconspicuous area first. The upholstery cleaning code is 'W' (Water-based cleaner).
- **Pillow Covers:** The accent pillow covers feature zippers and can be removed for machine washing. Follow the care instructions on the pillow tag.
- **UV Resistance:** While the fabric is UV resistant, prolonged direct sunlight exposure can still cause fading over time.

### Mechanism Care

- Periodically check all bolts and screws to ensure they are tight. Do not overtighten.
- Keep the reclining mechanism free from obstructions.
- Avoid placing excessive weight on the footrest when extended.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Sofa does not recline	Power cord unplugged or loose connection.	Check if the power cord is securely plugged into the wall outlet and the sofa's power input.
Reclining mechanism is noisy or stiff	Mechanism needs lubrication or has debris.	Apply silicone-based lubricant to moving parts. Ensure no objects are obstructing the mechanism.
USB ports not charging	Sofa not powered on or faulty cable/device.	Ensure sofa is powered. Try a different USB cable or device to rule out external issues.
Headrest not adjusting	Power issue or obstruction.	Verify power connection. Check for any objects preventing headrest movement.
