HOLDLAMP parlights

HOLDLAMP IP67 Waterproof LED Stage Par Light

USER MANUAL (MODEL: PARLIGHTS)

1. Introduction and Overview

Thank you for choosing the HOLDLAMP IP67 Waterproof LED Stage Par Light. This manual provides essential information for the safe and effective operation, maintenance, and troubleshooting of your new stage light. Designed for versatility, this light is suitable for various indoor and outdoor events, offering vibrant RGBW lighting effects.

2. Product Features

- **IP67 Waterproof Rating:** Constructed with high-quality metal material and a professional IP67 waterproof rating, ensuring exceptional sealing for extended product lifespan and suitability for outdoor use in various weather conditions.
- **RGBW 4-in-1 LED:** Features six LEDs with Red, Green, Blue, and White colors, supporting gradient, flashing, and jumping effects for dynamic lighting.
- **Multiple Control Modes:** Offers Sound-activated, Self-programmed, DMX512 (4/8 CH), and Master-Slave connection modes. Note: Remote control is not included and must be purchased separately for remote operation.
- **Intelligent Design:** Low energy consumption, long lifespan, compact size, and equipped with an adjustable bracket for easy installation on flat surfaces or wall mounting.

Figure 2: The IP67 waterproof design allows for reliable outdoor use, even in rainy conditions.

3. What's in the Box

Your HOLDLAMP LED Stage Par Light package includes:

- 1 x HOLDLAMP IP67 Waterproof LED Stage Par Light
- 1 x User Manual
- Mounting Bracket (pre-attached)

4. Setup Instructions

1. **Unpack:** Carefully remove the LED Stage Par Light and all accessories from the packaging.
2. **Placement:** Position the light on a stable, flat surface or mount it securely using the integrated bracket. Ensure proper ventilation around the unit.
3. **Adjust Angle:** Loosen the screws on the side of the mounting bracket to adjust the light's projection angle as desired. Tighten the screws firmly once the angle is set.
4. **Power Connection:** Connect the waterproof power cord to a suitable power outlet (AC80-240V, 50-60Hz).

5. Operating Instructions

The HOLDLAMP LED Stage Par Light offers versatile control options. While a remote control is not included, the unit can be operated via its onboard display and buttons, or through DMX512 for advanced control.

5.1 Onboard Control (Manual)

Use the 'MENU', 'UP', 'DOWN', and 'ENTER' buttons on the rear display to navigate through settings and select desired modes. Refer to the display for current mode and parameter adjustments.

5.2 Control Modes Overview

- **Sound-Activated Mode:** The light synchronizes its effects with ambient music or sound, reacting to changes in rhythm and volume.
- **Self-Programmed Mode:** Cycles through pre-set lighting programs, including gradient, flashing, and jumping effects, without external input.
- **DMX512 Mode:** For professional control, connect the light to a DMX controller. Supports 4-channel or 8-channel DMX configurations for precise control over color, brightness, and effects.
- **Master-Slave Connection:** Link multiple lights together using DMX cables. Set one unit as 'Master' and others as 'Slave' to synchronize their operation.

6. Maintenance

- **Cleaning:** Regularly wipe the light's exterior with a soft, dry cloth. For stubborn dirt, use a slightly damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Inspection:** Periodically check the power cord and DMX cables for any signs of damage. Ensure all connections are secure.
- **Storage:** When not in use, store the light in a cool, dry place away from direct sunlight and extreme temperatures.

7. Troubleshooting

Problem	Possible Cause	Solution
Light does not turn on.	No power supply or loose connection.	Check power cord connection to outlet and light. Ensure outlet is functional.
Remote control not responding.	Remote battery low or infrared sensor blocked.	Replace remote battery. Ensure no obstructions between remote and light's IR sensor.
Colors are not changing or effects are static.	Incorrect mode selected or DMX signal issue.	Verify the selected control mode (e.g., Self-Programmed, Sound-Activated). If using DMX, check DMX cable connections and controller settings.
Light is overheating.	Poor ventilation or prolonged use in high temperatures.	Ensure adequate airflow around the light's heat sinks. Allow the unit to cool down if used for extended periods.

8. Specifications

Feature	Detail
Model Number	parlights
Brand	HOLDLAMP
Color	Black
Material	Aluminum
Light Source Type	Light Emitting Diode (LED)
Number of Light Sources	6
