Auxmir BM-2059

Auxmir BM-2059 Rechargeable 8-inch LED Travel Makeup Mirror User Manual

Model: BM-2059 | Brand: Auxmir

1. PRODUCT OVERVIEW

The Auxmir BM-2059 is an 8-inch rechargeable LED travel makeup mirror designed for portability and versatile use. It features adjustable height, three color lighting modes (warm, cool, daylight), stepless dimmable brightness, and a foldable design for easy storage and transport.

Key features include:

- **Height Adjustable:** Easily switch between handheld and vanity modes for optimal viewing angles.
- **USB Rechargeable:** Equipped with a 1500mAh lithium battery, providing up to 15 hours of runtime on a 2-hour charge.
- **3 Color Lighting Modes:** Select from cool (6000K-6500K), natural (4500K-5000K), or warm (3000K-3500K) light to suit various environments.
- **Stepless Dimmable Brightness:** Adjust light intensity from 0% to 100% for precise illumination.
- **Ultra-slim & Foldable:** Lightweight (0.9 lbs) and compact design for effortless portability.

2. SETUP AND ASSEMBLY

The Auxmir BM-2059 mirror features a foldable design for easy setup and storage.

1. **Unfolding:** Gently open the mirror from its folded position. The stand will extend automatically.
2. **Adjusting Angle:** The mirror can be adjusted to various angles. Extend the stand to your desired height and tilt the mirror face for optimal viewing. It can be set at 50% extended, fully extended, or folded flat for travel.
3. **Placement:** Place the mirror on a stable, flat surface. The base is designed to provide stability.

3. OPERATING INSTRUCTIONS

The mirror features intuitive touch controls located on the mirror surface.

3.1 Power On/Off

- To turn the mirror ON, press the power touch sensor (usually indicated by a power icon).
- To turn the mirror OFF, press the power touch sensor again.

3.2 Adjusting Light Color

The mirror offers three distinct light color modes:

- **Cool Light (6000K-6500K):** Ideal for office or formal occasions.
- **Natural Light (4500K-5000K):** Suitable for art, photography, or outdoor settings.
- **Warm Light (3000K-3500K):** Best for dinner, dating, or club environments.

To change the light color, short press the light color touch sensor (usually indicated by a sun/star icon).

About Auxmir

We focus on designing and developing different types of makeup mirrors. We are committed to using sustainable materials and processes to reduce environmental impacts. Each mirror offers different magnifications (1X, 10X, 20X, 30X) to choose from.

With our makeup mirrors, we hope that every user can have a bright and clear makeup environment, create exquisite makeup, and experience a better visual experience

3.3 Adjusting Brightness

The mirror features stepless dimmable brightness:

- To adjust brightness, long press the light color touch sensor. The brightness will gradually increase or decrease. Release the sensor when the desired brightness is reached.

Image 3.2: Illustration of the stepless dimming feature, allowing users to fine-tune light intensity.

3.4 Intelligent Features

- **Memory Function:** The mirror remembers the last used brightness and light color settings.
- **Energy Saving Design:** The light automatically turns off after 30 minutes of no operation.
- **Hall Sensor:** The light will automatically turn on/off when the mirror face is opened/closed by 30

degrees.

4. CHARGING THE MIRROR

The Auxmir BM-2059 mirror is equipped with a rechargeable lithium battery.

- Locate the USB-C charging port on the back of the mirror.
- Connect the provided USB-C cable to the mirror's charging port.
- Connect the other end of the USB-C cable to a compatible power source (e.g., adapter, power bank, computer, car charger).
- A full charge takes approximately 2 hours and provides up to 15 hours of continuous work time.

5. CARE AND MAINTENANCE

- To clean the mirror surface, gently wipe with a soft, lint-free cloth. Do not use abrasive cleaners or harsh chemicals.
- Keep the mirror dry and away from excessive moisture.
- Store the mirror in its folded position when not in use to protect the mirror surface and conserve space.
- Avoid dropping the mirror or subjecting it to strong impacts.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Mirror light does not turn on.	Low battery or no power.	Charge the mirror using the provided USB-C cable. Ensure the power source is active.
Light brightness is too low/high.	Brightness setting needs adjustment.	Long press the light color touch sensor to adjust brightness to your preference.
Light color is not desired.	Incorrect color mode selected.	Short press the light color touch sensor to cycle through the three color modes.
Mirror does not fold/unfold smoothly.	Obstruction or mechanism issue.	Check for any obstructions. Do not force the mechanism. If the issue persists, contact customer support.
