ULTIMEA U0340

ULTIMEA Poseidon E40 Smart Projector User Manual

Model: U0340

1. INTRODUCTION AND OVERVIEW

The ULTIMEA Poseidon E40 is a versatile and powerful smart projector designed for an immersive home cinema experience. Featuring 1000 ANSI lumens brightness and Native 1080P resolution with 4K support, it delivers clear and vibrant images. Its integrated Android TV 11.0 system provides direct access to popular streaming services like Netflix, HBO MAX, Hulu, and Prime Video, along with over 10,000 applications from the Google Play Store. The projector also boasts advanced features such as 2-second auto-focus, 6D keystone correction, intelligent obstacle avoidance, and screen alignment for effortless setup. With Dolby Audio and powerful 2x10W speakers, it transforms any room into a cinematic environment. The fully enclosed optical design ensures long-lasting clarity by preventing dust intrusion, while its portable design with a versatile carrying handle allows for flexible projection angles from 10° to 40°, making it ideal for both indoor and outdoor use.

4. SETUP GUIDE

4.1 Placement

Position the projector on a stable, flat surface. The versatile carrying handle can be used as a stand to adjust the projection angle from 10° to 40° for optimal viewing. Ensure there are no obstructions in front of the lens or around the ventilation ports.

4.2 Power Connection

1. Connect the power cable to the projector's power input port.
2. Plug the other end of the power cable into a wall outlet.
3. Press the power button on the projector or remote control to turn it on.

4.3 Initial Setup (First Use)

1. Upon first power-on, the projector will guide you through the initial setup process.
2. Follow the on-screen prompts to select your language, connect to a Wi-Fi network (supports 5.8 GHz + 2.4 GHz dual-band), and sign in with your Google account.
3. The projector will automatically perform auto-focus and keystone correction. Allow a few seconds for the image to stabilize.

4.4 Connecting External Devices

- **HDMI:** Connect gaming consoles, laptops, or other HDMI-enabled devices to the HDMI port.
- **USB:** Insert USB drives for media playback.
- **Bluetooth:** Pair Bluetooth speakers or headphones via the Bluetooth 5.3 connection for enhanced audio.
- **Audio Out:** Use the 3.5mm audio jack to connect external audio systems.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

- **Power On:** Press the power button on the projector or the remote control.
- **Power Off:** Press and hold the power button on the remote control, then select 'Power Off' from the menu.

5.2 Navigation and Apps

- Use the directional pad and 'OK' button on the remote control to navigate the Android TV interface.
- Access pre-installed streaming apps like Netflix, Prime Video, and Hulu directly from the home screen.
- Download additional apps from the Google Play Store.
- Use the Google Assistant button on the remote for voice commands.

5.3 Image and Sound Settings

- **Auto-Correction:** The projector automatically adjusts focus and keystone. If manual adjustment is needed, disable auto-focus in settings.
- **Picture Modes:** Adjust brightness, contrast, and color settings in the picture menu to suit your viewing environment.
- **Sound Modes:** Select from various audio modes or adjust equalizer settings for optimal sound.

6. MAINTENANCE

6.1 Cleaning the Lens

Gently wipe the projector lens with a soft, lint-free cloth specifically designed for optical surfaces. Do not use abrasive cleaners or excessive force.

6.2 Dust Prevention

The ULTIMEA Poseidon E40 features a fully enclosed optical engine designed to prevent dust from entering. However, it

is recommended to keep the projector in a clean environment and cover it when not in use to further minimize dust accumulation.

6.3 Software Updates

Periodically check for software updates in the projector's settings menu to ensure optimal performance and access to the latest features. Connect the projector to the internet to download and install updates.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No image projected	Power cable loose; Input source incorrect; Lens cap on.	Check power connection; Select correct HDMI/USB input; Remove lens cap.
Image blurry/out of focus	Auto-focus issue; Projector too close/far from screen.	Ensure auto-focus is enabled; Adjust projector distance; Try manual focus if available.
No sound	Volume too low; Muted; External audio device not connected properly.	Increase volume; Unmute; Check Bluetooth connection or 3.5mm cable.
Fan noise is loud	Normal operation; Ventilation obstructed.	Ensure proper ventilation around the projector; Fan noise is typical for projectors, especially at higher brightness settings.
Cannot connect to Wi-Fi	Incorrect password; Router issue; Out of range.	Double-check Wi-Fi password; Restart router; Move projector closer to router.
