3.2 Attaching and Detaching Heads

To attach a head, align the head with the main unit's motor shaft and press down firmly until it clicks into place. To detach, place your thumb on the designated release point on the head and pull upwards. Refer to the video demonstration for a visual guide.

3.3 Attaching and Adjusting Guide Combs

For the hair clipper head, select the desired guide comb (1.5mm, 3mm, 4.5mm, 6mm, 10mm, 13mm, 16mm, 19mm) and snap it onto the blade. For the precision blade, use the adjustable guide comb by sliding it onto the blade and rotating the dial to select a length from 1mm to 10mm.

4. OPERATING INSTRUCTIONS

Press the power button to turn the clipper on or off. The LCD display will illuminate when the device is active.

4.1 Hair Cutting

Attach the hair clipper head and the appropriate guide comb. Use smooth, even strokes against the direction of hair growth for best results. The adjustable lever on the side of the clipper allows for fine-tuning of cutting length from 1mm to 22mm.

For Hair Cutting

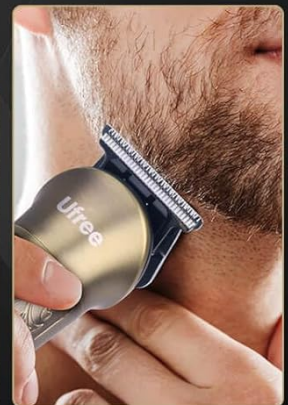

For Beard, Nose, Sideburns

4.2 Beard Trimming and Precision Lining

For beard trimming, use the T-blade trimmer head or the precision blade head with the adjustable guide comb. For sharp lines and detailed work, use the T-blade trimmer without a comb. The precision blade is ideal for intricate designs and hairline trimming.

Zero Gapped Trimmer

Can achieve zero gapped trimming, suitable for outliner and hairline trimming

Image 9: The Zero Gapped Trimmer head for precise outlining and hairline trimming.

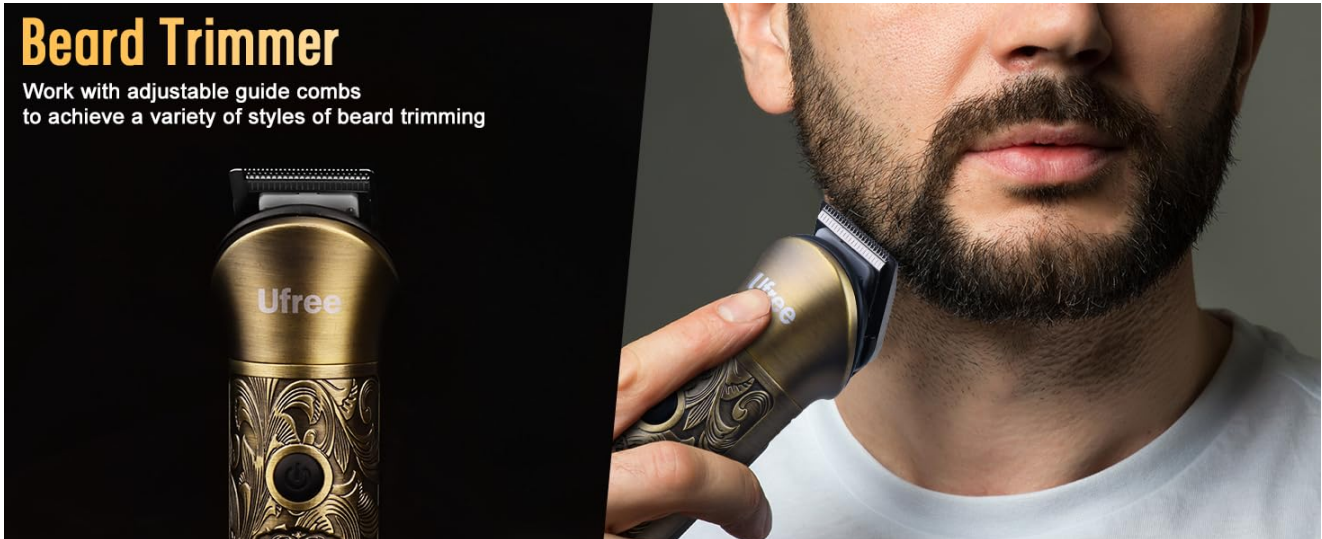

Image 10: The Beard Trimmer head with adjustable guide combs for various beard styles.

4.3 Nose and Ear Hair Trimming

Attach the nose trimmer head. Gently insert the trimmer into your nostril or ear canal and move it in a circular motion to remove unwanted hair.

4.4 Body Grooming

Use the body trimmer head for grooming body hair. The design is optimized for sensitive areas and provides a comfortable trim.

4.5 Shaving

For a close shave, attach the foil shaver head. Use gentle pressure and move the shaver against the direction of hair growth.

5. MAINTENANCE

5.1 Cleaning

After each use, turn off the clipper and detach the head. Use the provided cleaning brush to remove any hair clippings from the blades and the inside of the head. The heads can be rinsed under running water, but the main unit should **not** be immersed in water.

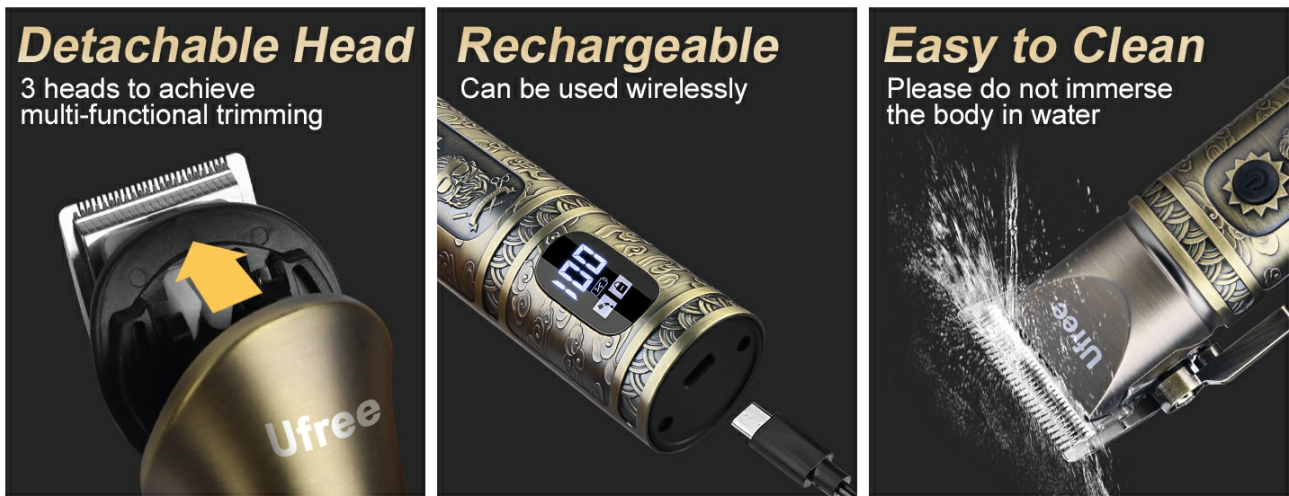

Image 12: The detachable head being cleaned, emphasizing not to immerse the main unit in water.

5.2 Lubricating Blades

Regularly apply a few drops of the provided lubricating oil to the blades to ensure smooth operation and prolong their lifespan. Do this after cleaning, especially if the blades feel stiff or noisy.

5.3 Storage

Store the clipper and its accessories in the provided storage base or travel pouch in a dry, cool place away from direct sunlight and moisture.

6. TROUBLESHOOTING

6.1 Battery Not Charging / Low Runtime

- Ensure the charging cable is securely connected to both the clipper and the power source.
- Verify the power source is active.
- Allow the device to charge for the recommended 1.5 hours for a full charge.

6.2 Blades Pulling Hair / Not Cutting Smoothly

- Clean the blades thoroughly to remove any trapped hair or debris.
- Apply lubricating oil to the blades.
- Ensure the correct guide comb is attached and properly seated.
- If using the hair clipper, check the adjustable lever setting.

6.3 Device Not Turning On

- Check the battery level on the LCD display and charge if necessary.

- Ensure the power button is pressed firmly.

7. SPECIFICATIONS
