ASSEMBLY INSTRUCTIONS (SETUP)

Follow these steps to assemble your Moon Knight minifigure:

1. **Step 1: Attach Legs to Torso.** Carefully align the two studs on the top of the leg piece with the two holes on the bottom of the torso piece. Press firmly until they click into place.
2. **Step 2: Attach Head to Torso.** Place the neck stud of the head piece into the hole on top of the torso. Ensure it is securely attached.
3. **Step 3: Attach Cowl.** Position the cowl piece over the head, aligning the small stud inside the cowl with the top of the head. Press down gently.
4. **Step 4: Attach Cape.** Insert the two small studs on the cape into the corresponding holes on the back of the torso, just below the neck.
5. **Step 5: Add Accessories.** Place the crescent blade into one of the minifigure's hands. The golden ankh can be held in the other hand or placed on the display plate.

- Step 6: Place on Display Plate.** Attach the assembled minifigure to the display plate by aligning the studs on the plate with the holes on the bottom of the minifigure's feet.

OPERATING AND DISPLAY

Once assembled, your Moon Knight minifigure is ready for display or imaginative play. The figure's arms, legs, and head are poseable, allowing for various dynamic stances. The display plate provides a stable base for showcasing your minifigure.

- Poseability:** Gently rotate the head, arms, and legs at their joints to achieve desired poses. Avoid excessive force to prevent damage.
- Accessory Use:** Accessories can be interchanged between hands or stored separately when not in use.
- Display:** For optimal display, place the minifigure on a flat, stable surface away from direct sunlight or extreme temperatures.

MAINTENANCE AND CARE

To keep your LEGO Moon Knight minifigure in excellent condition, follow these care guidelines:

- Cleaning:** Use a soft, dry cloth to gently wipe away dust. For more stubborn dirt, a slightly damp cloth with mild soap can be used, followed by immediate drying. Do not use harsh chemicals or abrasive materials.
- Storage:** Store the minifigure in a cool, dry place, away from direct sunlight, which can cause discoloration over time. Keep small parts in a secure container to prevent loss.
- Handling:** Handle the minifigure by its main body parts. Avoid pulling on small accessories or limbs with excessive force.

TROUBLESHOOTING

Most issues with LEGO minifigures are related to assembly or lost parts. Here are some common scenarios:

- Parts Not Fitting:** Ensure you are using the correct parts as indicated in the assembly steps. Apply firm, even pressure. If a part is bent or damaged, it may not fit correctly.
- Minifigure Falls Apart:** Re-check all connections to ensure they are fully pressed together. Loose connections can cause the figure to disassemble easily.
- Missing Parts:** Carefully check the packaging and surrounding area. If a part is genuinely missing from a new set, contact LEGO customer service.
