5. Setup & Assembly

The Huuger L Shaped Desk is designed for straightforward assembly. All necessary tools and labeled components are included. For optimal stability and ease of assembly, follow these steps carefully:

- 1. Unpack and Identify Parts:** Lay out all components on a clean, soft surface. Refer to the parts list in your manual to identify each piece.
- 2. Assemble the Main Frame:** Attach the metal legs and support bars according to the diagrams. *Important: Do not fully tighten screws until the entire section is assembled to allow for minor adjustments.*
- 3. Install Reversible Shelves:** Decide whether you want the two-tier storage shelves on the left or right side of the L-shape. Attach the shelf frame and panels accordingly. The design allows for flexible customization to suit your space.
- 4. Attach Desktop Panels:** Secure the main desktop and the L-extension panels to the assembled frame. Ensure all

holes align before tightening.

5. **Secure X-Bars:** Install the reinforced X-bars on the back of the desk frame. These provide additional structural integrity and stability.
6. **Adjust Feet:** Screw in the adjustable feet to the bottom of each leg. Once the desk is in its final position, adjust the feet to level the desk and prevent wobbling, protecting your floor from scratches.
