METAL/METAL™

ASTON MARTIN VANTAGE GTE

Real Riders™

The Aston Martin Vantage GTE model is presented in a vibrant yellow color with the number 95. This diecast car features authentic details and real rubber tires, reflecting its racing heritage.

3. Ford Capri Gr.5 #1 White with Graphics

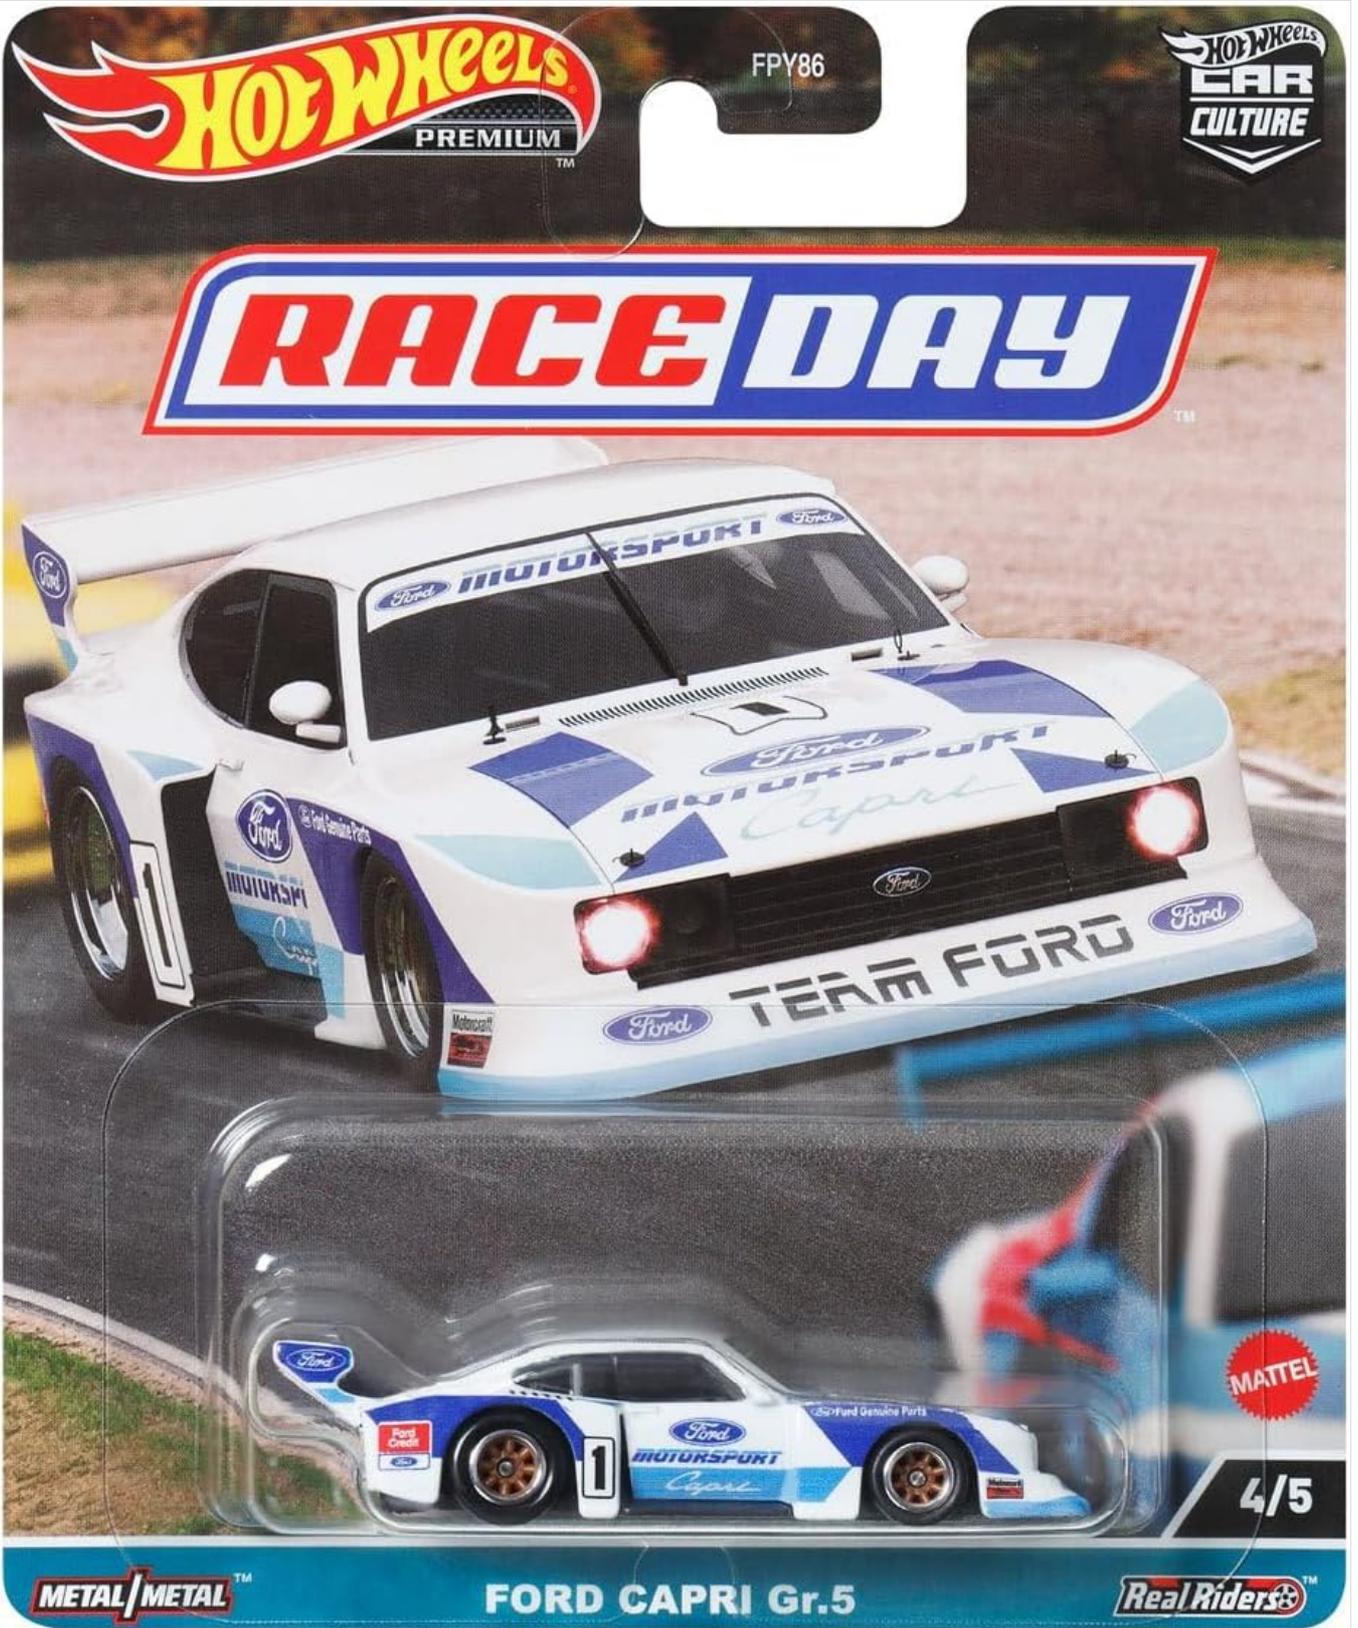

This model is a replica of the Ford Capri Gr.5, featuring a white body with racing graphics and the number 1. It includes detailed exteriors and real rubber tires, characteristic of the Car Culture Series.

4. Porsche 935 #23 Purple Metallic and White

The Porsche 935 model comes in a distinctive purple metallic and white livery with the number 23. This diecast model features a detailed exterior and real rubber tires. Note: A chase car version of the 935 in black instead of purple and white may be included, but is not guaranteed.

5. 1994 AMG C-Class DTM Touring Car #5 Yellow

This set includes the 1994 AMG C-Class DTM Touring Car, presented in yellow with the number 5. It is a detailed diecast model with real rubber tires, capturing the essence of the DTM racing series.

Each car is approximately 2.5 to 3 inches long.

HANDLING AND DISPLAY

These diecast models are primarily intended for collection and display. To maintain their condition:

- **Unboxing:** Carefully remove each model from its individual blister pack to avoid damage to the vehicle or its paint

finish.

- **Handling:** Handle models by their bodies, avoiding delicate parts like mirrors or spoilers.
- **Display:** Place models on a stable, flat surface away from direct sunlight, extreme temperatures, and high humidity to prevent material degradation and color fading.
- **Movement:** While durable, these are not designed for rough play. Gentle movement on smooth surfaces is acceptable.

CARE AND MAINTENANCE

Proper care ensures the longevity and appearance of your diecast models:

- **Cleaning:** Use a soft, dry cloth or a soft brush to gently remove dust. For stubborn dirt, a slightly damp cloth with plain water can be used, followed immediately by a dry cloth. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** If storing, keep models in their original packaging or in a protective display case to prevent dust accumulation and accidental damage.
- **Avoid Impact:** Prevent models from falling or being struck, as this can cause paint chips, dents, or breakage of small parts.
