## 3. SETUP

### 3.1 Initial Power Bank Charging

Before first use, fully charge your VRURC portable charger. The digital LED display will show the charging

progress.

1. **Using the AC Wall Plug:** Fold out the integrated AC wall plug and insert it directly into a standard wall outlet. The power bank will begin charging. This method typically takes approximately 6 hours for a full charge.
2. **Using a USB-C Adapter (Not Included):** Alternatively, you can use a compatible 5V/2.6A USB-C power adapter and cable (not included) to charge the power bank via its USB-C input port. This method typically takes approximately 5 hours for a full charge.

#### 4. OPERATING INSTRUCTIONS

---

## 4.1 Charging Your Devices

The VRURC portable charger offers versatile charging options for a wide range of devices:

1. **Using Built-in Cables:** Extend the appropriate built-in cable (Micro-USB, USB-C, or Lightning) and connect it directly to your device.
2. **Using External Cables:** Connect your device's charging cable to either the USB-A or USB-C output port on the power bank.
3. **Simultaneous Charging:** The power bank supports charging multiple devices concurrently using a combination of built-in cables and external ports.

## 5. MAINTENANCE

---

- Keep the charger away from water, moisture, and extreme temperatures.
- Avoid dropping or subjecting the charger to strong impacts.
- Clean the charger with a dry, soft cloth. Do not use harsh chemicals or abrasive materials.
- Store the charger in a cool, dry place when not in use.

## 6. TROUBLESHOOTING

---

### 6.1 Charger Not Powering On

- Ensure the power button is pressed firmly.
- Check if the power bank has sufficient charge. Recharge if necessary.

## 6.2 Device Not Charging

- Verify that the charging cable is securely connected to both the power bank and your device.
- Ensure the power bank has enough charge.
- Try a different charging cable or port on the power bank.
- Confirm your device is compatible with the charger.

## 6.3 Slow Charging

- Ensure you are using appropriate cables for fast charging, if supported by your device.
- Charging multiple devices simultaneously may reduce individual charging speeds.
