VRURC T01

VRURC Portable Charger User Manual

Model: T01

1. PRODUCT OVERVIEW

The VRURC Portable Charger (Model T01) is a versatile 10,000mAh power bank designed for convenient on-the-go charging. It features built-in Micro USB, Type-C, and Lightning cables, along with an integrated AC wall plug for direct charging from an outlet. This compact and lightweight device is compatible with a wide range of smartphones, tablets, and other USB-powered gadgets.

3. PRODUCT FEATURES AND COMPONENTS

The VRURC Portable Charger is designed with multiple integrated features for maximum convenience.

- **Built-in Cables:** Includes Micro USB, Type-C, and Lightning cables for direct connection to various devices.
- **Integrated AC Wall Plug:** Foldable prongs allow direct charging from a wall outlet without extra adapters.

- **USB Input Port:** For charging the power bank via a standard USB cable.
- **Type-C Input/Output Port:** Functions as both an input for charging the power bank and an output for charging devices.
- **Digital LED Display:** Shows the remaining battery percentage.

SUPPORTS PASS-THROUGH CHARGING

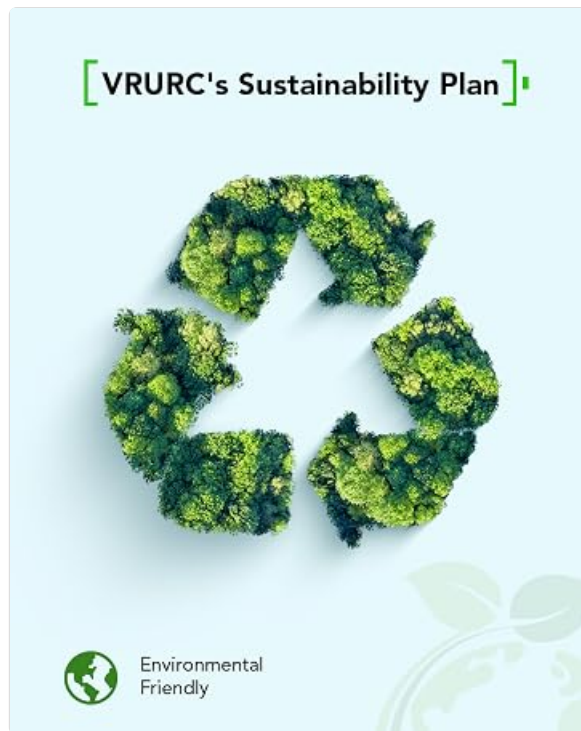

Image 3.2: Detail of the foldable AC wall plug.

4. SETUP AND CHARGING THE POWER BANK

Before using the power bank to charge your devices, ensure the power bank itself is fully charged.

4.1 Charging via AC Wall Plug

1. Fold out the integrated AC wall plug from the side of the power bank.
2. Insert the power bank directly into a standard wall outlet.
3. The LED display will show the charging progress, indicating the battery percentage. Charging typically takes approximately 6 hours for a full charge.

4.2 Charging via USB-C Input

1. Connect a USB-C cable (not included) to the Type-C input/output port on the power bank.
2. Connect the other end of the USB-C cable to a USB wall adapter or a computer's USB port.
3. The LED display will show the charging progress. Charging typically takes approximately 5 hours (with a 5V/2.6A adapter).

5. OPERATING INSTRUCTIONS: CHARGING YOUR DEVICES

The VRURC Portable Charger can charge multiple devices simultaneously using its built-in cables and additional ports.

5.1 Using Built-in Cables

1. Identify the correct built-in cable for your device (Micro USB, Type-C, or Lightning).
2. Gently pull out the desired cable from its storage slot on the power bank.
3. Connect the cable to your device's charging port.
4. The power bank will automatically begin charging your device. The LED display will show the power bank's remaining charge.

5.2 Using USB-A or USB-C Output Ports

1. Connect your device's charging cable (not included) to the USB-A output port or the Type-C input/output port on the power bank.
2. Connect the other end of your cable to your device.
3. The power bank will automatically begin charging your device.

5.3 Simultaneous Charging

The power bank supports charging multiple devices at once. You can use a combination of the built-in cables and the USB-A/Type-C ports to charge up to four devices simultaneously.

SIMULTANEOUS USE OF MULTIPLE DEVICES

Image 5.1: Charging multiple devices simultaneously.

5.4 Pass-Through Charging

The power bank supports pass-through charging, meaning you can charge your devices while the power bank itself is being charged from a wall outlet.

7. MAINTENANCE AND CARE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Do not use liquid cleaners or aerosols.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight, extreme temperatures, and humidity.
- **Battery Life:** To prolong battery life, fully charge and discharge the power bank at least once every three months if not in regular use.
- **Handling:** Avoid dropping or subjecting the power bank to strong impacts. Do not disassemble or attempt to repair the device.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging	AC plug not fully inserted; faulty outlet; damaged cable (if using USB-C input).	Ensure AC plug is fully inserted or try a different outlet. Check USB-C cable and adapter.
Device not charging from power bank	Power bank battery is low; incorrect cable used; device charging port issue.	Recharge the power bank. Ensure the correct built-in cable or external cable is securely connected. Try charging a different device.
LED display not working	Power bank is off or completely discharged.	Press the power button (if available) or connect the power bank to a power source to activate the display.

9. SPECIFICATIONS

Feature	Detail
Model Number	T01
Battery Capacity	10,000mAh (38.5 Milliamp Hours)
