ILIFE V3x

ILIFE Robot Vacuum and Mop Combo (V3x) - User Manual

Brand: ILIFE | Model: V3x

1. Introduction

The ILIFE V3x Robot Vacuum and Mop Cleaner is designed to provide efficient and convenient cleaning for your home. This 2-in-1 device combines powerful vacuuming with effective mopping, making it suitable for various floor types including hard floors, carpets, and rugs. Equipped with intelligent navigation and multiple cleaning modes, the V3x ensures thorough coverage and adapts to your specific cleaning needs. This manual provides essential information for setup, operation, maintenance, and troubleshooting to help you get the most out of your robot cleaner.

2. Setup

2.1 Unboxing and Initial Charge

Carefully remove all components from the packaging. Ensure all accessories are present: V3x Robot, 1 Mopping support, 1 Mop Cloth, 2-in-1 Dustbin and Water Tank, 1 Charging Dock, 1 Power Adapter, 2 Extra Side Brushes, 1 High Performance Filter, 1 Sponge, 1 Cleaning Tool, and this User Manual. Place the charging dock against a wall in an open area with at least 1 meter (3.3 feet) of clear space in front and 0.5 meters (1.6 feet) on either side. Connect the power adapter to the charging dock and plug it into a wall outlet. Place the robot onto the charging dock, ensuring the charging pins align. Allow the robot to fully charge before its first use (approximately 4-5 hours).

2.2 App Connection (ILIFEHOME App)

Download the ILIFEHOME App from your smartphone's app store. Follow the in-app instructions to connect your ILIFE V3x robot to your 2.4GHz Wi-Fi network. The app allows for remote control, scheduling, cleaning mode selection, and monitoring. The robot is also compatible with Alexa and Google Home for voice commands.

3. Operating Instructions

3.1 Cleaning Modes

The ILIFE V3x offers multiple cleaning modes to suit various needs:

- **Auto Mode:** Utilizes advanced Gyro navigation to clean in a back-and-forth route, ensuring thorough coverage and avoiding repeated areas.

- **Edge Mode:** Cleans along walls and corners, ideal for reaching dust and debris accumulated at room edges.
- **Spot Mode:** Focuses on areas with concentrated dirt, cleaning in a spiral direction outwards from the center of the spot.
- **Max Mode:** Automatically boosts suction up to 3000Pa when carpet is detected, providing deep cleaning for embedded dirt and debris.

Figure 3: Visual representation of Auto, Spot, and Edge cleaning modes.

3.2 Vacuuming and Mopping Simultaneously

The V3x is designed for 2-in-1 cleaning. With its integrated 300ml dustbin tank and 250ml water tank, you can vacuum and mop in one go. Simply fill the water tank and attach the mop cloth for combined cleaning. This saves time and maximizes cleaning efficiency by eliminating the need for tank replacement mid-cycle.

Figure 4: The ILIFE V3x performing simultaneous vacuuming and mopping on a hard floor.

3.3 Automatic Recharging

Powered by a 2900mAh battery, the robot can clean for up to 120 minutes. When the battery is low or cleaning is complete, the V3x will automatically return to its charging dock to recharge, ensuring it's always ready for the next cleaning session.

Figure 5: The robot automatically returning to its charging dock for recharging.

4. Maintenance

Regular maintenance ensures optimal performance and extends the lifespan of your ILIFE V3x robot vacuum.

4.1 Dustbin and Water Tank

Empty the 2-in-1 dustbin and water tank after each use. The dustbin is equipped with three layers of filtration: a coarse filter, sponge filter, and a high-efficiency filter. Clean these filters regularly to maintain suction power.

4.2 Roller Brush and Side Brushes

The 2-in-1 roller brush efficiently collects dirt. Periodically check and clean the roller brush and side brushes for tangled hair or debris to prevent performance issues. Use the provided cleaning tool for easy removal of hair.

Figure 6: Close-up view of the 2-in-1 roller brush for effective cleaning.

4.3 Sensors and Wheels

Wipe the anti-collision and anti-dropping sensors with a clean, dry cloth to ensure proper function. Check the wheels for any trapped debris that might hinder movement.

Figure 7: The robot's sensors help it navigate and avoid obstacles or drops.

5. Troubleshooting

If your ILIFE V3x encounters an issue, refer to the following common solutions. For more detailed troubleshooting, please consult the full User Manual (PDF) linked below.

- **Robot stops or beeps:** Check for tangled brushes or wheels. Ensure the dustbin is not full and filters are clean.
- **Robot not charging:** Verify the charging dock is powered on and the robot's charging pins are properly aligned with the dock.
- **Poor cleaning performance:** Clean brushes, empty dustbin, and clean filters. Ensure the water tank is filled for mopping.
- **Robot gets stuck frequently:** Clear obstacles from the cleaning path. Use virtual walls or no-go zones in the app if available.

For comprehensive troubleshooting guides and error codes, please refer to the official User Manual (PDF).

6. Specifications

Feature	Detail
Brand	ILIFE
Model Name	V3x
Special Features	Vacuum and mopping simultaneously; Intelligent Path Mode & Gyro Navigation; Smart APP Control; 3000Pa Max Suction; Customizable Schedule; 300ML Dustbin & 250ML Water Tank; Multi-Cleaning Modes; Anti-Collision & Anti-Dropping; Automatic Recharge
Color	V3x (White with Glass Panel)
Product Dimensions	12.99"L x 12.99"W x 3.11"H
Included Components	2-in-1 Dustbin and Water Tank, Mop Pad, Mop Cloth, Charging Dock, Charging Adapter, 2 Extra Side Brushes, High Performance Filter, Sponge, Cleaning Tool, User Manual
Filter Type	Sponge, High-Efficiency Filter
Battery Life	Up to 120 minutes (Normal Suction) / 45 minutes (3000Pa Strong Suction)
Power Source	Battery Powered
Compatible Devices	Amazon Echo, Google Home
Item Weight	9.48 pounds
