## Coolife 28-inch Expandable Hard Shell Luggage

# Coolife 28-inch Expandable Hard Shell Luggage Instruction Manual

## INTRODUCTION

Thank you for choosing Coolife luggage. This manual provides essential information for the proper setup, operation, and maintenance of your 28-inch expandable hard shell suitcase. Please read these instructions carefully to ensure optimal performance and longevity of your product.

## PRODUCT FEATURES

Your Coolife 28-inch luggage is designed with several features to enhance your travel experience:

- **Durable ABS+PC Shell:** Constructed from a lightweight yet robust blend of Acrylonitrile Butadiene Styrene (ABS) and Polycarbonate (PC) materials, offering scratch resistance and enhanced resilience.
- **Smooth Handling:** Equipped with quiet 360-degree dual spinner wheels for effortless multi-directional gliding and a 3-level adjustable pure aluminum telescopic handle for comfortable maneuverability.
- **TSA-Approved Combination Lock:** An integrated lock allows security officials to inspect your bag without damage, providing peace of mind for both international and domestic travel.
- **Expandable Capacity:** The 28-inch model features an expandable design, increasing storage volume by approximately 15% for additional packing space.
- **Spacious and Organized Interior:** A fully lined interior includes strong cross straps to secure belongings and a zippered mesh pocket for efficient organization and to prevent items from shifting.

# Durable ABS+PC Shell

Anti-Scratch

6.38lbs

The luggage features a durable ABS+PC shell, designed for anti-scratch performance and lightweight travel.

# Spacious Interior

Cross straps

Convenient mesh pockets

The interior is fully lined with cross straps and a zippered mesh pocket for organized packing.

## SETTING UP YOUR LUGGAGE

### Setting the TSA Combination Lock

Your luggage comes with a pre-set combination lock set to 0-0-0. To set your personal combination:

1. Ensure the lock is set to the default combination (0-0-0).
2. Locate the small reset button (usually a small hole) on the side of the lock. Use a pen tip or a similar pointed object to press and hold this button.
3. While holding the reset button, rotate the dials to your desired three-digit combination.
4. Release the reset button. Your new combination is now set. Remember your combination, as there is no master key to reset it if forgotten.

Visual guide for setting the TSA combination lock.

## **OPERATING YOUR LUGGAGE**

### **Using the Telescopic Handle**

The telescopic handle can be adjusted to three different height levels. Press the button on top of the handle and pull up or push down to extend or retract it. Ensure the handle is fully extended or retracted before moving the luggage to prevent damage.

### **Maneuvering with Spinner Wheels**

Your luggage is equipped with 360-degree spinner wheels for smooth movement in any direction. For optimal performance, push the luggage upright on all four wheels. For rougher surfaces, tilt the luggage and pull it on two wheels.

# Travel With Ease

Pure Aluminum

360° Spinner Wheels

The pure aluminum telescopic handle and 360-degree spinner wheels ensure smooth handling.

## Expanding the Luggage

To expand the luggage, locate the secondary zipper running along the perimeter of the suitcase. Unzip this section to increase the internal capacity by approximately 15%. This feature is particularly useful for accommodating extra items or souvenirs.

# Expand Capacity Room by 15%

Only on the 28" luggage

The 28-inch luggage can expand its capacity by 15% for additional storage.

## Using Zippers and Interior Straps

The luggage features smooth-gliding zippers for easy access to your belongings. The interior cross straps are designed to compress and secure your clothing, preventing movement during transit. Adjust the straps to fit your packed items snugly. The zippered mesh pocket provides a separate compartment for smaller items or documents.

## CARE AND MAINTENANCE

### Cleaning the Hard Shell

To clean the ABS+PC hard shell, wipe it with a soft cloth dampened with mild soap and water. Avoid using abrasive cleaners or solvents, as these can damage the surface. Dry thoroughly after cleaning.

### Wheel Maintenance

Periodically check the spinner wheels for any debris (hair, lint, etc.) that may hinder their smooth operation. Clean the wheel axles with a small brush if necessary. Avoid exposing wheels to excessive dirt or sand for prolonged periods.

### Interior Care

The interior lining can be spot cleaned with a damp cloth and mild detergent. Allow it to air dry completely before closing the luggage to prevent mildew.

## TROUBLESHOOTING

- **Lock not opening:** Ensure the correct combination is entered. If you forgot your combination, there is no master key; you may need to contact customer support for assistance or consider a professional locksmith.
- **Telescopic handle sticking:** Check for any obstructions in the handle mechanism. Ensure the release button is fully pressed when extending or retracting. Avoid forcing the handle.
- **Wheels not spinning smoothly:** Inspect the wheels for trapped debris (hair, dirt). Clean as described in the maintenance section. If a wheel is damaged, contact customer support.
- **Zippers catching:** Ensure the zipper teeth are aligned. Apply a small amount of zipper lubricant (e.g., beeswax or a silicone-based spray) if they are stiff. Avoid overpacking, which can strain zippers.
