5.3. Local Network Linking (Multiplayer)

For an enhanced multiplayer experience, you can link up to 4 The Fast & The Furious Deluxe Arcade Game Machines through a local network.

- Ensure all cabinets are connected to the same local area network (LAN).
- Follow the on-screen prompts within the game to initiate a linked play session.
- *Note: Cabinets will not connect over the internet for linked play.*

5.4. Wi-Fi Leaderboards and Companion App

Connect your arcade machine to Wi-Fi to access online leaderboards and compete with other players. You can also download the Companion App to join a community of gamers. Refer to the on-screen instructions for Wi-Fi setup.

6. MAINTENANCE

6.1. Cleaning the Cabinet and Screen

- Before cleaning, always unplug the machine from the power outlet.
- Use a soft, damp cloth to wipe down the cabinet surfaces. Avoid abrasive cleaners or solvents.
- For the LCD screen, use a screen-specific cleaner and a microfiber cloth to prevent scratches.

6.2. Control Care

- Keep the steering wheel, pedals, and buttons free from dust and debris.
- Avoid excessive force when operating controls to ensure longevity.

7. TROUBLESHOOTING

If you encounter any issues with your ARCADE1UP The Fast & The Furious Deluxe Arcade Game, please refer to the following common troubleshooting steps.

Problem	Possible Cause	Solution
Machine does not power on.	Power cable not connected or outlet issue.	Ensure power cable is securely plugged into the machine and a working electrical outlet. Test the outlet with another device.
No image on screen.	Loose video cable or screen issue.	Check internal video connections. Power cycle the machine.
Controls (steering wheel, pedals, shifter) are unresponsive or erratic.	Loose internal connections or calibration needed.	Ensure all control panel connections are secure. Access the system settings to recalibrate the pedals and steering wheel if available. Power cycle the machine.
No sound.	Volume too low or speaker connection issue.	Adjust the volume control. Check internal speaker connections.
Cannot connect to Wi-Fi.	Incorrect password or network interference.	Double-check Wi-Fi password. Ensure the machine is within range of your router. Try restarting your router.

If the problem persists after attempting these solutions, please contact ARCADE1UP Customer Support for further assistance.
