Pipishell 5-Tier Shoe Rack Instruction Manual

Model: PISRB4V-US | Brand: Pipishell

INTRODUCTION

Thank you for choosing the Pipishell 5-Tier Shoe Rack. This versatile storage organizer is designed to help you efficiently manage your footwear and other items in entryways, closets, or small spaces. Constructed with a durable wooden top and sturdy metal frames, it offers ample storage and adjustable shelving options to suit your needs. Please read this manual carefully before assembly and use to ensure proper setup and longevity of your product.

PRODUCT FEATURES

- **Plenty of Storage Space:** Features 4 metal mesh shelves and a large wooden top shelf, providing ample storage for various footwear and other items. Ideal for entryways and small spaces.
- **Versatile 2-in-1 Rack:** Can function as both a shoe organizer and a general storage shelf for books, bags, or decorative items. Its rustic wood texture complements various home decors.
- **Sturdy Construction:** Made from high-quality particle board and a robust metal frame, ensuring durability and stability. The top shelf supports up to 44 lbs, and each metal shelf supports up to 22 lbs. An anti-tip kit is included for enhanced safety.
- **Customizable Design:** Metal shelves can be configured either flat or slanted to accommodate different shoe sizes, from sneakers to tall boots.
- **Thoughtful Details:** Dense mesh design prevents high heels from falling through. Adjustable feet ensure stability on uneven surfaces. Raised shelf back edges protect walls from shoe marks.

2 Shelving Assembly Options

Tilt to fit taller shoes

SETUP AND ASSEMBLY

Assembly of the Pipishell 5-Tier Shoe Rack is required. All necessary parts and tools are included in the package. The assembly process typically takes about an hour for one person, following the detailed instructions provided in the separate assembly manual. Ensure all components are present before beginning assembly.

Key Assembly Steps (Refer to included manual for full details):

1. Unpack all components and verify against the parts list.

2. Assemble the metal frame structure using the provided screws and tools.
3. Install the metal mesh shelves. You can choose between a flat or slanted orientation for each shelf based on your preference.
4. Attach the wooden top panel securely to the frame. Note that the wooden top consists of two pieces that fit together.
5. Install the adjustable feet at the bottom of the frame.
6. Secure the shoe rack to the wall using the included anti-tip kit for safety, especially if placing in a high-traffic area or if children/pets are present.

OPERATING INSTRUCTIONS

The Pipishell 5-Tier Shoe Rack is designed for straightforward use. Once assembled, it is ready to organize your items.

Shelf Configuration:

The metal mesh shelves can be installed in two ways:

- **Flat:** For general storage of shoes, books, bags, or other household items. This provides a stable, level surface.
- **Slanted:** Ideal for displaying shoes and allowing easier access. This configuration is particularly useful for frequently used footwear.

You can mix and match the shelf orientations to best suit your storage needs. For example, use slanted shelves for everyday shoes and a flat bottom shelf for taller boots or storage boxes.

MAINTENANCE AND CARE

To ensure the longevity and appearance of your Pipishell 5-Tier Shoe Rack, follow these simple care instructions:

- **Cleaning:** Wipe surfaces with a dry, soft cloth. For stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid harsh chemicals or abrasive cleaners.
- **Dusting:** Regularly dust the wooden top and metal shelves to prevent buildup.

- **Weight Distribution:** Distribute weight evenly across the shelves. Do not exceed the maximum weight capacity of 44 lbs for the top shelf and 22 lbs for each metal shelf.
- **Stability Check:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **Placement:** Place the shoe rack on a level surface. Use the adjustable feet to compensate for minor unevenness. Avoid prolonged exposure to direct sunlight or excessive moisture.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Rack is wobbly/unstable.	Uneven floor; loose screws; improper assembly.	Adjust the leveling feet at the bottom. Check and tighten all screws. Ensure all parts are correctly assembled according to the manual.
Shoes slide off slanted shelves.	Incorrect shoe placement; very smooth shoe soles.	Ensure shoes are placed securely. Consider using the flat shelf configuration for shoes prone to sliding.
Top wooden board has a visible line.	This is a design feature; the top board consists of two pieces.	This is normal and not a defect.
Difficulty during assembly.	Misaligned parts; missing hardware.	Double-check the assembly manual for correct orientation of parts. Ensure all screws are loosely fitted before tightening them all at the end. Contact customer support if parts are missing or damaged.

SPECIFICATIONS

- **Model Name:** 5-Tier Shoe Rack
- **Model Number:** PISRB4V-US
- **Brand:** Pipishell
- **Dimensions (Overall):** 10"D x 29.5"W x 37"H

IMPORTANT SAFETY INFORMATION

WARNING:

- Ensure the shoe rack is securely fastened to the wall using the included anti-tip kit to prevent accidental tipping, especially in households with children or pets.
- Do not exceed the maximum weight capacity for each shelf (22 lbs) or the top (44 lbs) to prevent structural damage or collapse.

- Keep small parts and packaging materials away from children during assembly to avoid choking hazards.
- Do not climb on or allow children to play on the shoe rack.
