## KitchenYeah 8720977855916

# KitchenYeah Induction Hob Protector 59x51 cm Instruction Manual

Model: 8720977855916

## INTRODUCTION

The KitchenYeah Induction Hob Protector is designed to safeguard your induction cooktop from scratches, impacts, and dirt, while also providing additional workspace in your kitchen. This protector is made from durable vinyl material and features a non-slip underside to ensure it stays securely in place.

**Important Safety Notice: This protector is not designed for cooking. Do not place it on a hot cooktop or use it while cooking is in progress.**

Image: The KitchenYeah Induction Hob Protector placed on an induction cooktop, demonstrating its protective coverage.

## SETUP

Setting up your KitchenYeah Induction Hob Protector is straightforward. Follow these steps for optimal use:

1. **Unpack the Protector:** Carefully remove the induction hob protector from its packaging.
2. **Ensure Cooktop is Clean and Cool:** Before placing the protector, ensure your induction hob is completely clean, dry, and cool to the touch. Any debris or moisture could affect its stability or cause damage.
3. **Position the Protector:** Lay the protector flat on your induction hob. The non-slip underside will help it stay in position.

## OPERATING INSTRUCTIONS

The KitchenYeah Induction Hob Protector serves primarily as a protective cover and an extended workspace. Adhere to the following guidelines for safe and effective operation:

- **Protection:** Use the protector to shield your induction hob from scratches, spills, and general wear when not in use.
- **Additional Workspace:** The protector transforms your hob into a functional surface for food preparation, chopping ingredients, or temporarily placing kitchen items.
- **Removal Before Cooking:** Always remove the induction hob protector completely before activating your cooktop or beginning any cooking activities.
- **Storage:** When not in use, the protector can be rolled up for compact storage in a drawer or cabinet.

Image: A visual guide illustrating the four steps of using the protector: rolling it up before cooking, storing it, cleaning the hob after

use, and replacing the protector for extra space.

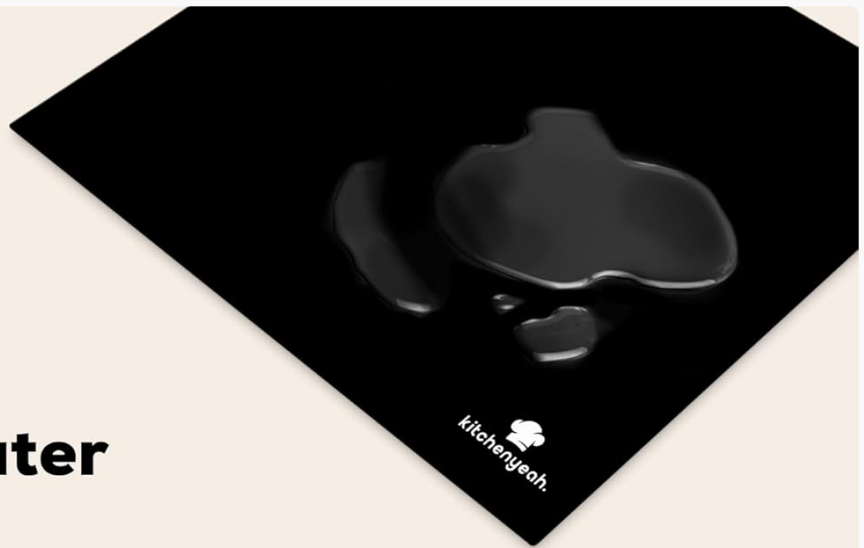

## MAINTENANCE

Maintaining your KitchenYeah Induction Hob Protector ensures its longevity and continued effectiveness:

- **Cleaning the Protector:** The vinyl surface is dirt and water repellent, making it easy to clean. Wipe the protector with a damp cloth and mild detergent. Avoid abrasive cleaners or harsh chemicals that could damage the material or print.
- **Drying:** Ensure the protector is completely dry before storing or placing it back on the hob.
- **Storage:** Store the protector rolled up or flat in a cool, dry place away from direct sunlight or extreme temperatures.

### Dirt and water repellent

### Easy to clean

Image: A hand wiping the surface of the induction hob protector with a cloth, highlighting its easy-to-clean, dirt and water repellent properties.

## TROUBLESHOOTING

If you encounter any issues with your KitchenYeah Induction Hob Protector, consider the following common solutions:

- **Protector Slides:** Ensure both the induction hob surface and the protector's underside are clean and dry. Dust or moisture can reduce the non-slip effectiveness.
- **Difficulty Cleaning Stains:** For stubborn stains, use a gentle, non-abrasive kitchen cleaner. Test on an inconspicuous area first. Avoid leaving spills on the protector for extended periods.
- **Warping or Damage:** Ensure the protector is never placed on a hot hob or exposed to excessive heat. This product is not heat-resistant for cooking temperatures.

## SPECIFICATIONS

<b>Brand</b>	KitchenYeah
<b>Model Number</b>	8720977855916
<b>Dimensions (L x W x H)</b>	59 x 51 x 0.3 cm
<b>Weight</b>	500 grams
<b>Material</b>	Vinyl
<b>Color</b>	Black - Uni
<b>Country of Origin</b>	Netherlands

## Non-slip underside

Stays securely in place and will not slide

Easy to store

Black underside

Thickness of 3mm
