Bajaj 740309

Bajaj Splendid 120TS Induction Cooktop User Manual

Model: 740309 | Brand: Bajaj

1. Introduction

This manual provides essential information for the safe and efficient operation of your Bajaj Splendid 120TS Induction Cooktop. Please read all instructions carefully before use and retain this manual for future reference. This induction cooktop is designed to simplify your cooking experience with advanced technology and safety features.

2. Product Overview

The Bajaj Splendid 120TS Induction Cooktop features a sleek design and powerful 1200 Watts heating capacity, utilizing induction technology for quick and efficient cooking. It includes a digital LED display and tact switch controls for ease of use.

Figure 2.1: Bajaj Splendid 120TS Induction Cooktop, showcasing its sleek black design and control panel.

Key Features:

- **1200 Watts Power:** Ensures rapid heating and efficient cooking.
- **Tempered Glass Surface:** Durable and easy to clean.
- **Tact Switch Controls:** For precise and responsive operation.
- **7 Pre-Set Menus:** Optimized settings for various dishes like Deep Fry, Sauté, Curry, Pressure Cook, Idli, Heat Milk, and Chapati/Dosa.
- **Digital LED Display:** Provides clear feedback on settings and cooking status.
- **Voltage Pro Feature:** Manages voltage fluctuations (130V - 270V) for enhanced durability.
- **Pan Sensor:** Detects suitable cookware, preventing heating without a vessel.
- **Insect Protection:** Designed to prevent insect entry, ensuring longevity.
- **Cool Touch Surface:** The cooking surface remains cool to the touch, enhancing safety.

3. Setup

3.1 Unpacking

Carefully remove the induction cooktop from its packaging. Inspect the unit for any damage. Ensure all components listed in the "What's in the Box" section are present.

- Induction Stove: 1N
- Instruction Manual: 1N
- Warranty Card: 1N

3.2 Placement

Place the induction cooktop on a flat, stable, and heat-resistant surface. Ensure there is adequate ventilation around the unit. Do not place it near water sources or flammable materials. Plug the power cord into a suitable electrical outlet (230V~50 Hz).

4. Operating Instructions

4.1 Compatible Cookware

The Bajaj Splendid 120TS Induction Cooktop requires cookware made of ferromagnetic materials. Look for pots and pans with a flat bottom and a magnetic base. To test, place a magnet on the bottom of your cookware; if it sticks, it is compatible.

Figure 4.1: Demonstrating the use of compatible cookware on the induction cooktop.

4.2 Basic Operation

1. Place compatible cookware with food on the center of the cooking zone.
2. Plug in the cooktop. The digital LED display will light up.
3. Press the **On/Off** button to activate the unit.
4. Select a desired cooking mode using the tact switch controls or choose from the 7 pre-set menus.
5. Adjust power or temperature settings as needed using the **+** and **-** buttons.
6. To stop cooking, press the **On/Off** button.

4.3 Using Pre-Set Menus

The cooktop offers 7 pre-set menus for convenient cooking:

Figure 4.2: Visual representation of the 7 pre-set menus available on the cooktop.

- **Deep Fry:** For frying various items.
- **Sauté:** Ideal for quick stir-frying.
- **Curry:** Optimized for preparing curries.
- **Pressure Cook:** For use with pressure cookers.
- **Idli:** Specific setting for steaming idlis.
- **Heat Milk:** Gentle heating for milk.
- **Chapati/Dosa:** Perfect for making flatbreads and dosas.

To use a pre-set menu, simply press the corresponding button on the control panel. The cooktop will automatically adjust the power and time settings for that specific dish.

5. Safety Features

Your Bajaj Splendid 120TS Induction Cooktop is equipped with several safety features to ensure a secure cooking

environment.

- **Voltage Pro Feature:** This technology protects the cooktop from damage due to wide voltage fluctuations, operating safely within 130V to 270V.
- **Pan Sensor:** The cooktop will only generate heat when a compatible cooking vessel is placed on the cooking zone. If no vessel is detected or an incompatible one is used, it will not heat up.
- **Cool Touch Surface:** Unlike traditional cooktops, the induction surface itself does not generate heat directly. Heat is transferred to the cookware, keeping the surrounding surface relatively cool and reducing the risk of accidental burns.
- **Insect Protection:** The design incorporates features to minimize the entry of insects, which can prevent internal damage and short circuits.
- **Hot Surface Indicator:** An indicator light will alert you if the cooking surface is still hot from residual heat after cooking, even though the induction process has stopped.

6. Maintenance and Care

6.1 Cleaning

- Always unplug the cooktop and allow it to cool completely before cleaning.
- Wipe the tempered glass surface with a soft, damp cloth and mild detergent.
- For stubborn stains, use a non-abrasive cleaner specifically designed for glass cooktops.
- Do not use abrasive pads, harsh chemicals, or steam cleaners.
- Clean the control panel with a soft, dry cloth.

6.2 Storage

When not in use, store the cooktop in a dry, cool place, away from direct sunlight and moisture. Ensure the power cord is neatly coiled and not kinked.

7. Troubleshooting

If you encounter any issues with your induction cooktop, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Cooktop does not turn on.	Not plugged in, power outage, faulty outlet.	Check power connection, test outlet with another appliance, ensure power supply is stable.
No heating, but unit is on.	Incompatible cookware, no cookware detected.	Use compatible magnetic cookware, ensure vessel is centered on the cooking zone.
Display shows an error code.	Internal malfunction, overheating.	Refer to the specific error code in the full manual (if available) or contact customer support. Unplug and allow to cool.
Unusual noise during operation.	Normal fan operation, resonance from cookware.	A low humming sound is normal. If loud or unusual, ensure cookware is flat and stable.

If the problem persists after attempting these solutions, please contact Bajaj customer support.

8. Specifications

Feature	Detail
