Vimmk Y208

Vimmk Portable Oral Irrigator User Manual

Brand: Vimmk | **Model:** Y208

Image: The Vimmk Portable Oral Irrigator, showcasing the main unit, eight different nozzles, and the USB-C charging cable. The device is white with a clear water tank and blue accents.

Introduction

Thank you for choosing the Vimmk Portable Oral Irrigator. This professional cordless dental flosser is designed to

provide effective and convenient oral hygiene for home and travel. With its advanced features, including multiple cleaning modes and specialized nozzles, it helps maintain fresh breath and improve gum health. Please read this manual carefully before use to ensure proper operation and safety.

Product Contents

The Vimmk Portable Oral Irrigator package includes the following items:

- 1 x Portable Oral Irrigator Unit
- 8 x Multifunctional Nozzles (including Standard Jet Tips, Periodontal Tip, Tongue Cleaner Tip, Orthodontic Tip, Dental Plaque Tip)
- 1 x USB-C Charging Cable (adapter not included)
- 1 x User Manual

Safety Information

To ensure safe operation and prevent injury or damage, please adhere to the following safety guidelines:

- Do not throw the product into fire.

- Do not charge, use, store, or clean the oral irrigator at high temperatures to avoid burns and accidents.
- Do not touch the plug or charger with wet hands.
- Keep out of reach of children. This device is not a toy.
- Ensure the silicone cover remains in the charging slot before use to maintain waterproofing.
- Do not direct the water jet towards the eyes, nose, or other sensitive areas.
- If you have any oral health concerns, consult your dentist before using this device.

Product Features

Deep Teeth Cleaning

The Vimmk oral irrigator is equipped with an ultra-fine 0.6 mm water column, a pulse frequency of 1400-1800 per minute, and water pressure ranging from 30-130 PSI. This powerful pump and advanced pressure stabilization technology effectively remove 99.9% of tartar and food debris, promoting fresh breath and improved gum health.

8 Multi-purpose Nozzles & 5 Cleaning Modes

This oral irrigator comes with 8 replacement nozzles and offers 5 cleaning modes to suit various oral care needs:

- **Strong Mode (130 PSI):** Powerful water pressure for deep cleaning and intense impact.
- **Normal Mode (106 PSI):** Standard water pressure for daily teeth cleaning and breath freshening.

- **Soft Mode (65 PSI):** Gentle water pressure, suitable for first-time users and sensitive teeth.
- **Pulse Mode (122 PSI):** Alternating strong and weak water pressure, suitable for gum protection and daily cleaning.
- **Child Mode (33 PSI):** Gentle child water pressure, specially customized for children (over 8 years old).

The 8 nozzles include:

- **4 x Standard Jet Tips:** For general cleaning and removing food debris between teeth.
- **1 x Periodontal Tip:** For deep periodontal cleaning and gentle gum care.
- **1 x Tongue Cleaner Tip:** Effectively cleans tongue bacteria and keeps mouth fresh.
- **1 x Orthodontic Tip:** For cleaning plaque and food debris from braces and hard-to-reach areas.
- **1 x Dental Plaque Tip:** For cleaning hard-to-reach areas with a plaque removal effect.

oral care needs.

Detachable Water Tank & IPX7 Waterproof

The detachable 300ml water tank is easy to clean and refill, providing sufficient capacity for a complete cleaning session. The seamless IPX7 waterproof body offers double protection, making the irrigator safe for use in the shower. The 360° rotating nozzle and innovative gravity ball water pipe design allow for easy oral cleaning from any angle.

Powerful Rechargeable Battery

The Vimmk oral irrigator features a built-in 1500 mA rechargeable lithium battery, providing up to 21 days of battery life on a full charge (based on two minutes of use, twice a day). The included USB Type-C data cable is compatible with various charging devices, such as power banks and laptops, making it convenient for travel and business trips.

Image: An illustration showing the USB-C fast charging capability, indicating 6 hours for a full charge and up to 21 days of use. Compatible charging sources like power adapters, power banks, car chargers, and laptops are shown.

Setup

Follow these steps to set up your Vimmk Portable Oral Irrigator for first use:

1. **Charge the Device:** Fully charge the device before using it for the first time. Connect the USB-C charging cable to the device and a suitable power source (adapter not included). The battery indicator will show charging status.
2. **Fill the Water Tank:** Detach the water tank from the main unit. Fill the reservoir with lukewarm water. Ensure the water temperature is comfortable for your mouth. Reattach the water tank securely.
3. **Attach a Nozzle:** Select the desired jet tip from the 8 provided nozzles. Insert the nozzle firmly into the opening at the top of the irrigator until it clicks into place.

Operating Instructions

Once set up, follow these steps for effective oral irrigation:

1. **Select Mode:** Press the 'M' button to cycle through the 5 cleaning modes (Strong, Normal, Soft, Pulse, Child). Choose the mode that best suits your sensitivity and cleaning needs.
2. **Position Yourself:** Lean over a sink to avoid splashing. Place the nozzle tip into your mouth, aiming it at the gumline at a 90-degree angle.
3. **Start Irrigation:** Press the power button to turn on the device. The water stream will begin.
4. **Clean Your Teeth:** Guide the water stream slowly along your gumline and between each tooth. Allow the water to flow into the sink. Ensure you clean all areas of your mouth, including the front, back, and chewing surfaces of your teeth.
5. **Complete Cleaning:** Continue until the water tank is empty or you have thoroughly cleaned all desired areas.
6. **Rinse:** After use, turn off the device. Rinse your mouth with water.

Maintenance

Regular cleaning and proper storage will extend the life of your Vimmk Oral Irrigator:

- **After Each Use:** Empty any remaining water from the tank. Detach the nozzle and rinse both the nozzle and the water tank under running water. Allow them to air dry.
- **Cleaning the Main Unit:** Wipe the main unit with a soft, damp cloth. Do not submerge the main unit in water, even though it is IPX7 waterproof, to avoid potential damage to internal components over time.
- **Deep Cleaning the Tank:** Periodically, you can clean the water tank with a mild soap solution or a denture cleaning tablet to prevent mineral buildup. Rinse thoroughly afterward.
- **Storage:** Store the device in a cool, dry place away from direct sunlight. Ensure the water tank is empty and dry before storing.
- **Nozzle Replacement:** It is recommended to replace the nozzles every 3-6 months, or sooner if they show signs of wear.

Troubleshooting

If you encounter any issues with your Vimmk Portable Oral Irrigator, please refer to the following table for common

problems and solutions:

Problem	Possible Cause	Solution
Device does not turn on	Low battery; Device not charged	Charge the device fully.
Weak water pressure	Water tank empty; Nozzle clogged; Incorrect mode selected	Refill water tank. Clean the nozzle. Select a stronger mode.
Water leakage	Water tank not properly attached; Silicone cover on charging port not sealed	Ensure water tank is securely attached. Verify silicone cover is firmly in place.
Nozzle falls off during use	Nozzle not inserted correctly	Ensure nozzle is firmly clicked into place.
Device makes unusual noise	Air in pump; Internal issue	Ensure water tank is full. If problem persists, contact customer support.
