Important Safety Instructions

To reduce the risk of fire, electric shock, injury to persons, or damage to the appliance, basic safety precautions should always be followed, including the following:

- Read all instructions before using the appliance.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plugs, or the appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.

- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off", then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- Ensure proper ventilation around the cooktop during operation.
- Only use induction-compatible cookware.

Product Features

- **Power:** 1400 Watts for efficient cooking.
- **Voltage Pro Feature:** Operates within a wide voltage fluctuation range of 130V to 270V, ensuring stable performance.
- **Digital LED Display:** Provides clear visual feedback on settings and cooking status.
- **7 Pre-Set Menus:** Convenient one-touch cooking options for various dishes.
- **Pan Sensor:** Automatically detects the presence of suitable cookware, preventing heating without a vessel.
- **Insect Protection:** Designed to prevent insects from entering the appliance, enhancing durability.
- **Tact Switch Controls:** Durable and responsive buttons for easy operation.
- **Material:** Durable plastic construction.
- **Color:** Black and Silver finish.

Setup

1. **Unpacking:** Carefully remove the induction cooktop from its packaging. Retain packaging materials for future transport or storage.
2. **Placement:** Place the cooktop on a stable, flat, and heat-resistant surface. Ensure there is adequate ventilation around the unit, keeping it away from walls or other appliances.
3. **Power Connection:** Plug the power cord into a grounded 230V~50Hz electrical outlet. Ensure the outlet is capable of handling 1400W.
4. **Initial Cleaning:** Before first use, wipe the ceramic glass surface with a soft, damp cloth.

Operating Instructions

General Operation

1. **Power On:** Place an induction-compatible cooking vessel centrally on the ceramic glass surface. Press the "ON/OFF" button to turn on the cooktop. The digital LED display will illuminate.
2. **Pan Detection:** The cooktop features a pan sensor. If an unsuitable or no vessel is detected, the cooktop will not heat and may display an error code. Ensure your cookware is induction-ready.
3. **Adjusting Power/Temperature:** Use the '+' and '-' buttons to adjust the power level or temperature settings manually. The digital display will show the current setting.
4. **Timer Function:** If available, use the timer button to set a cooking duration. The cooktop will automatically switch off once the timer expires.
5. **Power Off:** After cooking, press the "ON/OFF" button to turn off the cooktop. The surface will remain hot for a

period; allow it to cool completely before cleaning.

Using Pre-Set Menus

The Bajaj Splendid 140TS comes with 7 pre-set menus for common cooking tasks. To use a pre-set menu:

1. Place the appropriate cookware with ingredients on the cooktop.
2. Press the "ON/OFF" button.
3. Select the desired pre-set menu button (e.g., "Curry", "Deep Fry", "Heat Milk", "Pressure Cook", "Dosa/Chapati", "Saute", "Keep Warm"). The cooktop will automatically adjust power and time settings for that specific function.
4. Monitor the cooking process. You may be able to adjust power/temperature manually even during a pre-set program, depending on the specific menu.

Maintenance

- **Cleaning the Surface:** After each use, ensure the cooktop is cool and unplugged. Wipe the ceramic glass surface with a soft, damp cloth and mild detergent. Do not use abrasive cleaners or scouring pads.
- **Cleaning the Body:** Wipe the exterior body with a soft, dry or slightly damp cloth. Do not allow water to enter the internal components.
- **Ventilation:** Keep the ventilation openings on the bottom and sides of the cooktop clear of dust and debris to ensure proper airflow and prevent overheating.
- **Storage:** Store the cooktop in a dry, safe place when not in use.

Troubleshooting

Problem	Possible Cause	Solution
Cooktop does not turn on.	No power supply; Power cord not properly plugged in.	Check power outlet; Ensure power cord is securely plugged in.
Cooktop turns on but does not heat.	Incorrect cookware used; No cookware on surface; Pan sensor issue.	Use induction-compatible cookware; Place cookware centrally on the heating zone; Ensure cookware base is flat and covers the heating zone.
Display shows an error code.	Overheating; Voltage fluctuation; Internal fault.	Turn off and unplug the unit, allow to cool; Check power supply; If problem persists, contact customer service.
Unusual noise during operation.	Normal fan operation; Cookware vibration.	A slight humming sound from the cooling fan is normal. Ensure cookware is stable on the surface.

If you encounter issues not listed here or if solutions do not resolve the problem, please contact Bajaj customer support.
