Package Contents

- 4 x WiZ LED Smart Light Bulbs (A19, E26, Full Color)
- Quick Start Guide (refer to this manual for detailed instructions)

Setup Instructions

Follow these steps to set up your WiZ LED Smart Light Bulbs. A stable 2.4 GHz Wi-Fi network is required for initial pairing and full functionality.

Step 1: Install the Light Bulb

1. Ensure the power to the light fixture is turned off.
2. Carefully screw the WiZ LED Smart Light Bulb into a standard E26 light socket.
3. Turn on the power to the light fixture. The bulb should illuminate.

Step 2: Download the WiZ App

Download the official WiZ Connected app from your smartphone's app store.

Download on the App Store

Get it on Google Play

Image: WiZ app download instructions.

Step 3: Connect to Wi-Fi and Pair

1. Open the WiZ app and create an account or log in.
2. Ensure your smartphone is connected to a **2.4 GHz Wi-Fi network** during setup. WiZ bulbs do not support 5 GHz networks for initial setup.
3. Follow the in-app instructions to add your new device. The app will guide you through the pairing process.
4. Grant necessary app permissions (e.g., location services, local network access) when prompted to facilitate device discovery.

Operating Instructions

Once your WiZ bulbs are set up, you can control them using various methods.

App Control

The WiZ app provides full control over your lighting.

- **Brightness Adjustment:** Easily dim or brighten your lights.
- **Color Selection:** Choose from 16 million colors or various shades of warm to cool white light.
- **Preset Modes:** Select from a variety of pre-programmed lighting moods and dynamic effects.
- **Schedules:** Create custom schedules for your lights to turn on/off or change settings at specific times.
- **Custom Scenes:** Save your favorite light settings as custom scenes for quick access.

Voice Control

Integrate your WiZ bulbs with popular voice assistants for hands-free control.

- **Amazon Alexa:** "Alexa, turn on my WiZ lights."
- **Google Home:** "Hey Google, set the living room lights to blue."
- **Apple Siri:** Use Siri Shortcuts to control your lights.

Automation Features

- **Sunset to Sunrise Automation:** Configure your lights to automatically adjust based on local sunrise and sunset times.
- **SpaceSense™ Motion Detection:** With at least two WiZ devices in a room, SpaceSense can detect motion and automatically turn lights on or off. This feature enhances convenience and security.

Maintenance

WiZ LED Smart Light Bulbs require minimal maintenance.

- **Cleaning:** Ensure the bulb is cool and the power is off before cleaning. Wipe with a soft, dry cloth. Do not use liquid cleaners.
- **Firmware Updates:** Keep your WiZ app updated to receive the latest firmware for your bulbs, which can improve performance and add new features.
- **Environment:** These bulbs are designed for indoor use only. Avoid exposure to water or extreme temperatures.

Troubleshooting

If you encounter issues with your WiZ LED Smart Light Bulbs, refer to the following common solutions.

Problem	Possible Cause	Solution
Bulb not connecting to Wi-Fi / App	Incorrect Wi-Fi band (5 GHz), weak signal, incorrect network password, app permissions not granted.	• Ensure your phone is connected to a **2.4 GHz Wi-Fi network** during setup. • Move the bulb closer to your Wi-Fi router. • Verify the Wi-Fi password. • Check app permissions (Location, Local Network) in your phone settings. • Try resetting the bulb by turning it off and on 3 times (1-2 seconds interval) until it flashes.
Bulb flickering or disconnecting frequently	Unstable Wi-Fi connection, interference, faulty bulb.	• Ensure your Wi-Fi signal is strong and stable. • Check for other devices causing interference on the 2.4 GHz band. • Update the bulb's firmware via the WiZ app. • If the issue persists, contact WiZ support.
Voice control not working	Incorrect integration setup, voice assistant not linked to WiZ account.	• Verify that your WiZ account is correctly linked to Alexa, Google Home, or Siri. • Ensure the bulb is online and responsive in the WiZ app. • Use the exact commands specified by your voice assistant.

SPECIFICATIONS

Feature	Detail
