

GAZHOME B0CJ2KJCBG

GAZHOME Queen Bed Frame with 4 Storage Drawers and Charging Station

Model: B0CJ2KJCBG

INTRODUCTION

Thank you for choosing the GAZHOME Queen Bed Frame. This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure you get the most out of your new bed frame. Designed for comfort and convenience, this bed frame features a sturdy metal construction, a stylish headboard with an integrated charging station, and four spacious storage drawers.

IMPORTANT SAFETY WARNINGS

- **Do not overload:** The maximum weight recommendation for this bed frame is 1500 pounds. Exceeding this limit may cause damage or injury.
- **Assembly caution:** Be cautious of sharp edges during assembly and use. Wear protective gloves if necessary.
- **Secure all fasteners:** Ensure all screws and bolts are tightened securely before use. Periodically check and re-tighten fasteners as needed.
- **Proper placement:** Place the bed frame on a level surface to prevent instability.
- **Electrical safety:** Only use the integrated charging station for indoor use. Do not open or attempt to repair the electrical components.

PACKAGE CONTENTS

Before beginning assembly, please verify that all components are present and undamaged. Refer to the included hardware kit and detailed parts list for identification.

Included Components: Bed frame parts, 4 storage drawers, charging station unit, assembly hardware kit (screws, Allen wrench).

ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward. It is recommended to have two people for certain steps. Please follow these steps carefully:

1. Prepare the Headboard Frame:

Assemble the main headboard frame. Pay close attention to the orientation of the side pieces. The angled edges of the wooden panels should face forward, and the metal bars/brackets for attaching the headboard to the side rails should be on the back side, facing inwards towards the bed.

2. Install the Charging Station:

Carefully place the charging station unit into the designated cutout on the headboard's top shelf. Note that the holes for securing the charging station may not be pre-drilled. Use the provided screws and a screwdriver (or a power drill with appropriate bit, being careful not to overtighten) to secure the unit. Ensure the power cord is routed correctly.

3. Assemble the Footboard:

Attach the wooden panel to the footboard frame. Similar to the headboard, ensure the wooden panel's finished side faces outwards.

4. Connect Side Rails:

Attach the side rails to the assembled headboard and footboard using the provided hardware. Ensure all connections are secure but do not fully tighten all bolts until the entire frame is loosely assembled to allow for adjustments.

5. Install Center Support Beams:

Assemble the central support structure. This typically involves connecting several metal bars and attaching support legs. Ensure the support legs are oriented correctly and securely fastened. It may resemble a puzzle, so refer to the diagrams for precise placement.

6. Install Bed Slats:

Place the heavy-duty metal slats across the bed frame. These slats are designed to provide robust support for your mattress without the need for a box spring. Ensure they are evenly spaced and securely fitted into the designated slots or attached with the provided fasteners. The rubber strips on the slats help prevent noise.

7. Assemble Storage Drawers:

The four large storage drawers are designed to fold together. Snap the black plastic connectors into place to form the basket shape. Attach the wheels to the bottom of each drawer. Then, secure the wooden front panel to the basket using the provided screws. The drawers will then slide into the designated spaces under the bed frame, with a screw on the drawer fitting into a slot on the bed frame to keep them in place when closed.

8. Final Tightening:

Once all components are in place and aligned, go back and fully tighten all screws and bolts across the entire bed frame. This ensures stability and durability.

Product Size

Twin XL : 86.6"*41"*40.5"

Twin : 81.9"*41"*40.5"

Full : 81.8"*55.5"*40.5"

Queen : 87"*61.8"*40.5"

OPERATING INSTRUCTIONS

Using the Charging Station

The headboard is equipped with a convenient charging station. To use it, simply plug the bed frame's power cord into a wall outlet. You can then use the two standard AC outlets, one USB-A port, and one USB-C port to charge your electronic devices such as phones, tablets, or lamps directly from your bed.

Utilizing Storage Drawers

The four large storage drawers are on wheels for easy access. To open, gently pull the drawer forward. To close, push the drawer back until the screw on the drawer front aligns and fits into the corresponding slot on the bed frame, securing it in place.

MAINTENANCE

- **Cleaning:** Wipe the metal frame and wooden panels with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners. For the upholstered headboard, spot clean with a mild fabric cleaner as needed.
- **Fastener Check:** Periodically inspect all bolts and screws to ensure they remain tight. Re-tighten if any looseness is detected to maintain the bed frame's stability and noise-free operation.
- **Drawer Care:** Keep the drawer wheels clean from debris to ensure smooth operation.

TROUBLESHOOTING

- **Noise from frame:** If the bed frame makes noise, check all assembly bolts and screws and tighten them securely. The rubber strips on the slats are designed to minimize noise; ensure they are properly seated.
- **Charging station not working:** Ensure the bed frame's power cord is securely plugged into a functional wall outlet. Check if the devices you are trying to charge are working correctly with other power sources.
- **Drawers not sliding smoothly:** Check for any obstructions under the bed or in the drawer tracks. Clean the wheels and tracks if necessary. Ensure the drawers are not overloaded.
- **Parts do not align during assembly:** Double-check the orientation of each part against the assembly diagrams. Sometimes, a slight adjustment or loosening of other bolts may be required to align holes.

SPECIFICATIONS

Brand	GAZHOME
Model	Queen (B0CJ2KJC BG)
Size	Queen
Material	Metal, Wood (Faux Wood Finish), Upholstered Headboard
Product Dimensions (L x W x H)	83" x 63" x 41"
Style	Country Rustic
Special Features	Space Saving, 4 Storage Drawers (Wheeled), USB Port, AC Outlets, Noise-Free Design
Included Components	Bed frame, headboard, footboard, side rails, slats, 4 storage drawers, charging station, assembly hardware
Maximum Weight Recommendation	1500 Pounds
Required Assembly	Yes
