

## Keyluv SHKWZC

# Keyluv King Upholstered Canopy Bed Frame

MODEL: SHKWZC

Brand: Keyluv

### IMPORTANT SAFETY INFORMATION

---

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- Always follow the assembly instructions carefully to avoid pinch points and ensure stability.
- Do not exceed the maximum weight capacity of 800 lbs.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten all connections.
- Always securely attach the removable canopy posts before use.
- Keep small parts away from children during assembly to prevent choking hazards.
- Assemble the bed on a soft, non-abrasive surface to prevent damage to the product or your floor.

### PACKAGE CONTENTS

---

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

#### Included Components:

- Headboard (Velvet, Button Tufted)
- Overall Bed Frame (Metal)
- 3 Storage Drawers (Upholstered)
- 4 Removable Canopy Posts
- Assembly Hardware (Screws, bolts, plastic silent clips, Allen wrench)

- Assembly Instructions

## SETUP (ASSEMBLY INSTRUCTIONS)

---

Two people are recommended for assembly. Clear an area for assembly and lay out all parts. Do not fully tighten screws until all components are in place.

### Drawer Assembly:

The storage drawers require assembly. This video demonstrates the process:

**Video:** Detailed instructions for assembling the bed's storage drawers, including attaching the wheels and securing the frame components.

### Bed Frame Assembly:

Follow the detailed assembly instructions provided in your package. Key steps include:

1. Attach the headboard and footboard to the side rails.
2. Insert the metal slats into the designated slots on the bed frame. Ensure the plastic silent clips are used to prevent noise.
3. Securely fasten all connections.
4. Attach the removable canopy posts to the corners of the bed frame.
5. Place the assembled storage drawers under the bed frame.

Noise-free Design

Black Ball Design

Easy to Assemble  
and Stable

**Image:** This image highlights the noise-free design of the bed frame, the decorative black ball finials, and the plastic silent clips that secure the metal slats to prevent movement and noise.

**Image:** This image illustrates the 11-inch clearance beneath the bed frame, demonstrating ample space for storage bins or robotic vacuum cleaners.

For a visual overview of the bed frame and its features, refer to this video:

**Video:** A comprehensive overview of the Keyluv Canopy Bed Frame, showcasing its headboard, storage drawers, and overall design.

## OPERATING INSTRUCTIONS

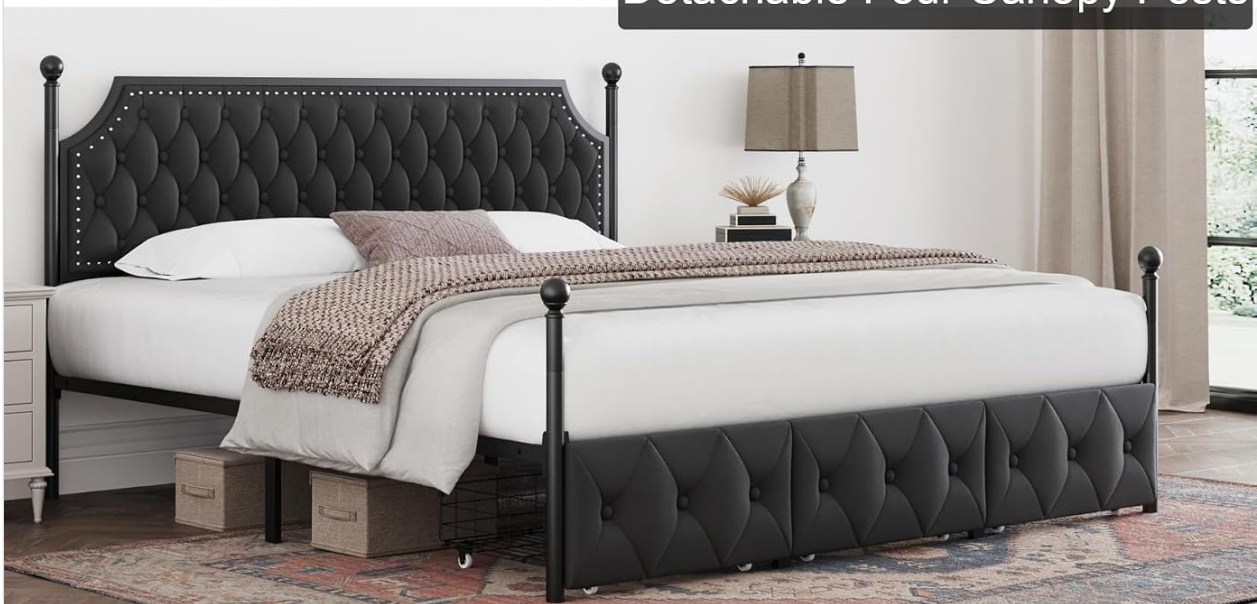

---

### Canopy Functionality:

- The four canopy posts are detachable, allowing the bed to be used as a traditional platform bed or a canopy bed.
- To attach the canopy posts, align them with the designated connectors on the bed frame and secure them firmly.
- To remove, reverse the attachment process.

Detachable Four Canopy Posts

**Image:** This image demonstrates the two-purpose design of the bed frame, showing it configured both as a canopy bed and as a standard platform bed by detaching the canopy posts.

### Storage Drawers:

- The three large storage drawers are designed to slide smoothly under the bed frame.
- To access, gently pull the drawer outwards. To close, push it back until it is fully under the bed.
- The drawers can be latched onto the bed frame to prevent them from moving unintentionally.

## MAINTENANCE

---

### Cleaning:

- **Velvet Headboard and Drawers:** Gently vacuum with an upholstery attachment to remove dust. For spills, blot immediately with a clean, dry cloth. For stubborn stains, consult a professional upholstery cleaner. Avoid harsh chemicals.

- **Metal Frame:** Wipe with a soft, damp cloth. Avoid abrasive cleaners that may damage the finish.

### General Care:

- Periodically check all bolts and screws to ensure they remain tight. Re-tighten as necessary to maintain stability and prevent noise.
- Ensure the bed is placed on a level surface to prevent uneven stress on the frame.
- The 11-inch clearance under the bed allows for easy cleaning with a robot vacuum, helping to keep the area tidy and the mattress fresh.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame is creaking or making noise.	Loose bolts or screws; metal slats not properly secured.	Check and tighten all bolts and screws. Ensure plastic silent clips are correctly installed on all metal slats.
Bed frame feels unstable or wobbly.	Incorrect assembly; loose connections.	Review assembly instructions, especially for corner poles and main frame connections. Ensure all hardware is fully tightened.
Canopy posts are not fitting correctly.	Posts are oriented incorrectly.	Ensure the corner poles are turned the correct way according to the assembly diagrams.
Storage drawers are difficult to open/close or get stuck.	Obstruction; wheels not properly installed; drawer not aligned.	Check for any items obstructing the drawer's path. Ensure wheels are securely attached and facing the correct direction. Verify the drawer is properly aligned with the bed frame.
