SP CONNECT 52671

SP CONNECT Phone Case | SPC+ User Manual

Model: 52671 | Brand: SP CONNECT

Product Overview

The SP CONNECT Phone Case for iPhone 15 Pro Max is engineered to provide robust protection for your smartphone while offering seamless integration with the SPC+ mounting system. Its slim and lightweight design ensures your device remains protected from bumps and scratches, featuring a 40% thinner profile compared to previous models due to the new SPC+ standard. This case also supports magnetic installation and is fully compatible with MagSafe accessories and wireless charging.

Key Features:

- **SPC+ Adapter Compatibility:** Designed for secure, one-touch attachment to conventional SP CONNECT mounts.
- **Advanced Protection:** Features a 3-layer case construction for enhanced safety and strength, ensuring all buttons and ports remain accessible.
- **Slim and Functional Design:** Offers advanced protection without adding significant bulk, maintaining the phone's sleek profile.
- **Magnetic Attachment:** Incorporates magnetic force for secure and convenient attachment.
- **Wireless Charging Compatible:** Supports wireless charging without needing to remove the case.

Package Contents

Upon opening your SP CONNECT Phone Case package, you should find the following items:

- 1 x SP CONNECT Phone Case for iPhone 15 Pro Max
- 1 x SPC+ Adapter (for compatibility with conventional mounts)
- 1 x Small Tool (for potential adjustments or unlocking mechanism)

Setup and Installation

Installing Your Phone into the Case:

1. **Prepare Your Phone:** Ensure your iPhone 15 Pro Max is clean and free of debris.
2. **Insert Phone:** Gently slide your iPhone into the case, starting with the top edge (camera side) or bottom edge, ensuring it seats properly within the case's protective frame. Apply gentle pressure until the phone is fully enclosed and secure.

Image: Demonstrates the process of inserting the iPhone into the SP CONNECT case.

Using the SPC+ Adapter:

The included SPC+ adapter ensures compatibility with a wider range of SP CONNECT mounts. If your mount is not directly compatible with the SPC+ system, attach the adapter to your mount first, then proceed with attaching the phone case.

Operation

Attaching to an SP CONNECT Mount:

1. **Align:** Position the SPC+ interface on the back of your phone case over the corresponding receiver on your SP CONNECT mount.
2. **Twist and Lock:** Gently push the phone case onto the mount and rotate it 90 degrees clockwise until you feel and hear a distinct click. This indicates the case is securely locked into place.

Detaching from an SP CONNECT Mount:

To detach, simply rotate the phone case 90 degrees counter-clockwise. The locking mechanism will release, allowing you to lift the phone case off the mount.

Wireless Charging and MagSafe Compatibility:

The SP CONNECT Phone Case is designed to be fully compatible with wireless charging pads and MagSafe accessories. Simply place your phone (in the case) onto a compatible wireless charger or attach a MagSafe accessory as you normally would. The integrated magnetic ring ensures proper alignment and charging efficiency.

Care and Maintenance

- **Cleaning:** To clean your phone case, wipe it gently with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the case material.
- **Storage:** When not in use, store the case in a cool, dry place away from direct sunlight and extreme temperatures.

- **Inspection:** Periodically inspect the case for any signs of wear, cracks, or damage, especially around the SPC+ mounting interface. If significant damage is observed, consider replacing the case to ensure continued protection and secure mounting.

Troubleshooting

Problem	Possible Cause	Solution
Case feels loose on phone.	Phone not fully seated; debris inside case.	Remove phone, clean case and phone, re-insert firmly. Ensure it's the correct model case for your phone.
Difficulty attaching/detaching from mount.	Incorrect alignment; locking mechanism stuck.	Ensure the case is perfectly aligned with the mount before twisting. If the locking mechanism is stiff, apply a small amount of silicone lubricant. If it's stuck, use the provided small tool (or a similar small, flat object like a house key) to gently manipulate the locking pin on the SPC+ interface until it moves freely.
Wireless charging not working.	Misalignment on charger; charger not compatible; phone issue.	Ensure the phone is centered on the wireless charging pad. Verify your charger supports wireless charging and is functioning correctly. Try charging without the case to rule out phone issues.

Product Specifications

Product Name:	SP CONNECT Phone Case | SPC+
Model Number:	52671
Compatible Phone Models:	iPhone 15 Pro Max
Material:	Plastic
Color:	Black
Item Weight:	3.2 ounces (approx. 90.7 grams)
Product Dimensions:	7.87 x 7.87 x 7.87 inches (approx. 20 x 20 x 20 cm)
Manufacturer:	SP CONNECT
Date First Available:	October 30, 2023
