Yaheetech Metal Bed Frame 140 x 200 cm Instruction Manual

Model: YA-00129490

INTRODUCTION

Thank you for choosing the Yaheetech Metal Bed Frame. This manual provides essential information for the safe assembly, operation, and maintenance of your new bed frame. Please read these instructions carefully before beginning assembly and retain them for future reference.

This metal bed frame features a vintage design with a high headboard and footboard, suitable for a 140 x 200 cm mattress. It is constructed from durable metal with a powder-coated finish, offering stability and a modern minimalist aesthetic.

SAFETY INFORMATION

- Always follow the assembly instructions carefully.
- Ensure all components are securely fastened before use.
- Do not exceed the maximum weight capacity of 340 kg.
- Keep small parts away from children during assembly to prevent choking hazards.
- Use on a level surface to ensure stability.

PACKAGE CONTENTS

Before assembly, please verify that all parts listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Headboard
- Footboard
- Side Rails
- Slats
- Support Legs (10 total)

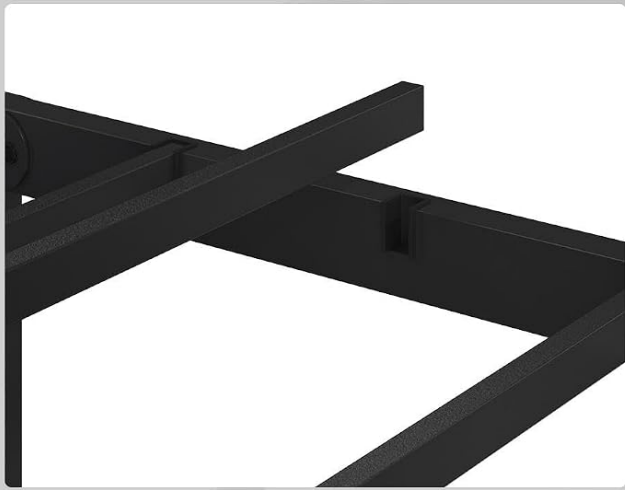

- Assembly Hardware (screws, bolts, wrench, etc.)
- Assembly Instructions (in English)

SETUP AND ASSEMBLY

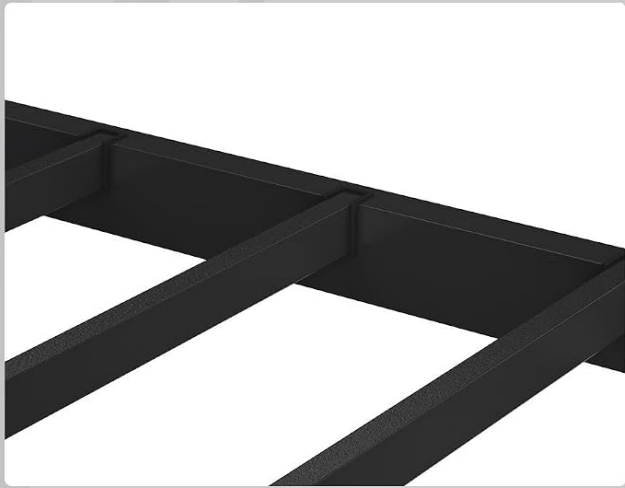

Assembly is required for this bed frame. We recommend two people for assembly to ensure ease and safety. Illustrated instructions and all necessary accessories are included in the package.

Assembly Steps

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Attach Side Rails:** Connect the side rails to the headboard and footboard using the provided hardware. Ensure all connections are firm but do not overtighten initially.
3. **Install Support Legs:** Securely attach the 10 support legs to the bed frame as indicated in the diagram. These legs provide crucial stability.
4. **Insert Slats:** Align each slat with its corresponding slot on the side rails. Press firmly to secure them in place. The design ensures the mattress remains stable and does not slide easily.
5. **Final Tightening:** Once all components are in place, go back and tighten all screws and bolts securely.

Align the slat with the slot

Press to secure

OPERATION AND USE

This bed frame is designed for comfortable and stable use with a 140 x 200 cm mattress. Its features enhance your sleeping experience and provide practical storage solutions.

Mattress Compatibility

The high head and foot sections are ideal for mattresses of various thicknesses, allowing you to choose your preferred level of comfort. The frame is suitable for memory foam, latex, or spring mattresses measuring 200 cm L x 140 cm W. A suitable insertion depth between the slatted base and the metal frame's side parts ensures the mattress remains stable and does not slide easily.

Under-Bed Storage

The bed frame offers 32 cm of ground clearance, providing ample space for under-bed storage. This feature helps

maximize your bedroom storage capacity.

32 CM OF GROUND CLEARANCE

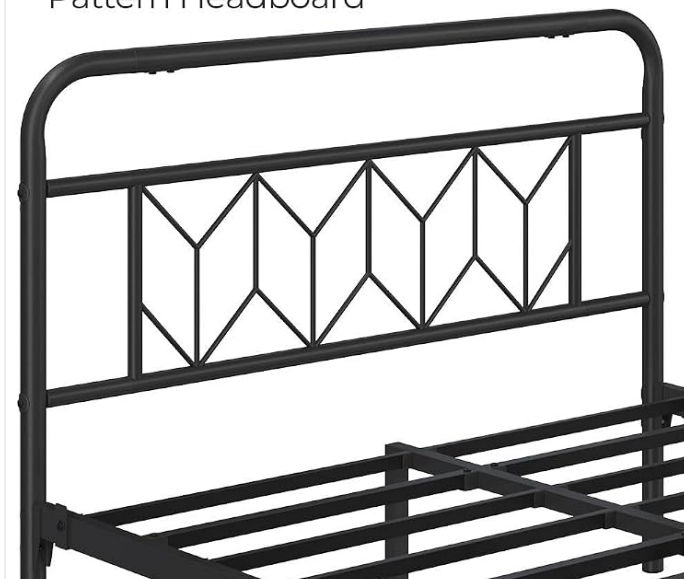

Make full use of the space under the bed for storage.

Anti-Slip Features

The bed frame incorporates anti-slip baffles to reduce mattress movement, ensuring a stable sleeping surface. Additionally, bottom rubber caps are included to protect your floor from damage.

Vintage Design with Diamond Pattern Headboard

4 Anti-slip Baffles Reduce Mattress Movement.

Ampler under-bed room maximizes your storage space.

Bottom rubber caps keep your floor away from damage.

MAINTENANCE

To ensure the longevity and appearance of your Yaheetech Metal Bed Frame, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the metal frame with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the powder-coated finish.
- **Regular Checks:** Periodically check all bolts and screws to ensure they remain tight. Retighten if necessary to maintain stability and prevent squeaking.
- **Protection:** The bed frame is designed to be fade-resistant and includes features for squeak protection. However, avoid prolonged exposure to direct sunlight or extreme humidity to preserve its condition.

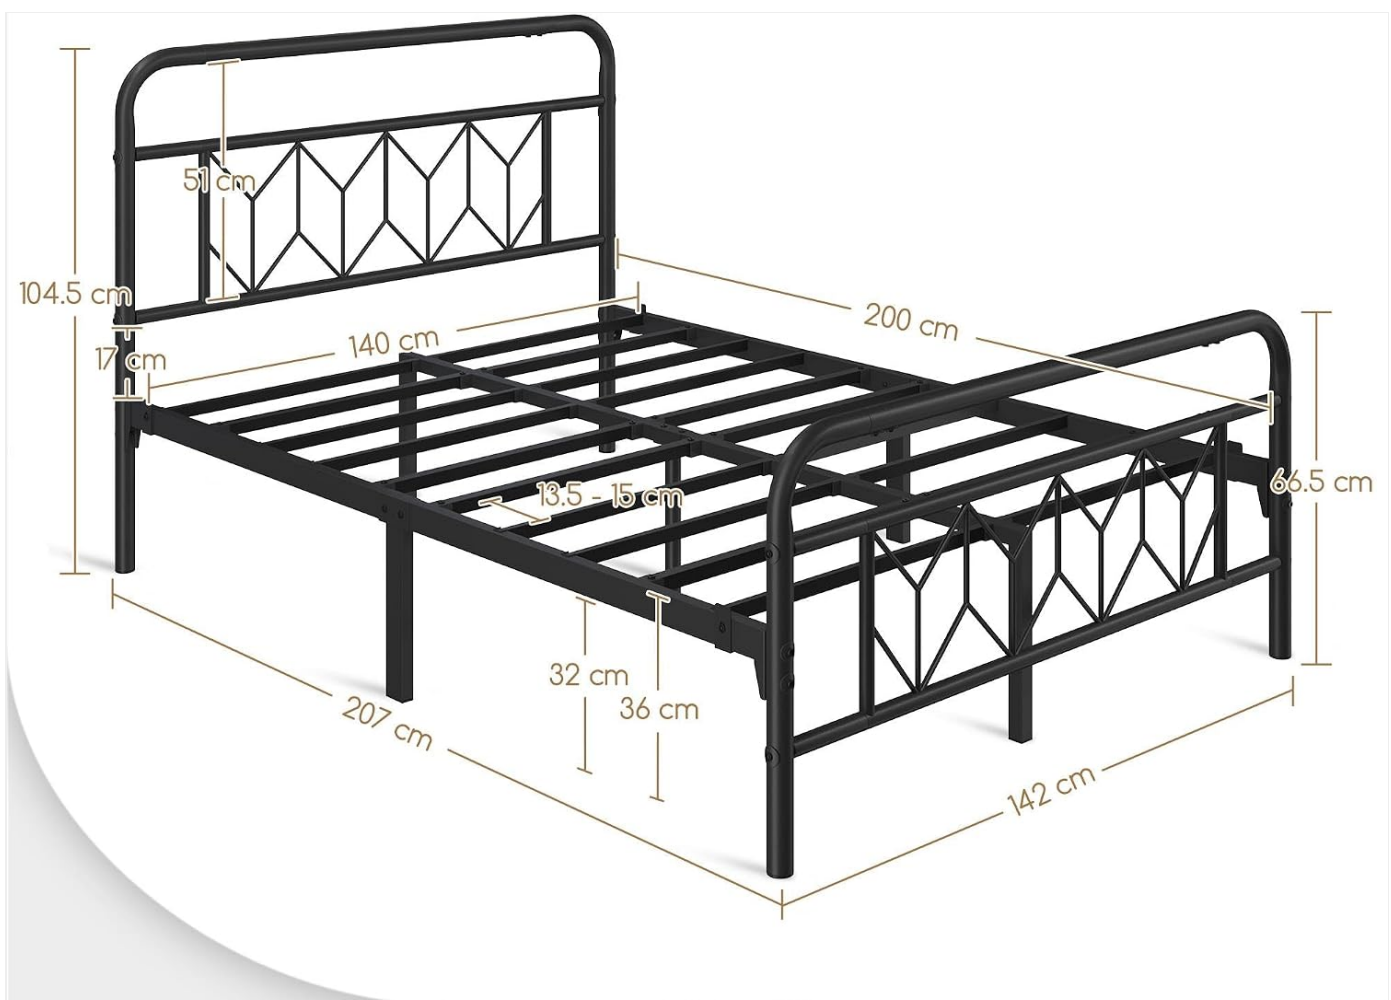

Troubleshooting

If you encounter any issues with your bed frame, please refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Bed frame is shaky or unstable.	Loose connections or uneven placement.	Ensure all bolts and screws are fully tightened. Verify the bed is on a level surface. Check that all 10 support legs are properly installed and making contact with the floor.
Mattress slides on the frame.	Anti-slip baffles not properly engaged or mattress size incompatibility.	Confirm that the mattress is the correct size (140 x 200 cm) and that the anti-slip baffles are correctly positioned and securing the mattress.
Squeaking noises.	Loose connections or friction between metal parts.	Retighten all assembly hardware. If squeaking persists, apply a small amount of lubricant (e.g., silicone spray) to connection points, ensuring it does not stain.

Specifications

Feature	Detail
Model Number	YA-00129490
Brand	Yaheetech
Material	Metal
Color	Black
Overall Dimensions (L x W x H)	207 cm x 145.5 cm x 104.5 cm (81.5" x 57.3" x 41.1")
