> WASJOYE Fireproof Waterproof Safe Box - 0.5 Cubic Feet with Key Lock Instruction Manual

## WASJOYE PortableSafe-6.8L

# WASJOYE Fireproof Waterproof Safe Box

Model: PortableSafe-6.8L

## 1. PRODUCT OVERVIEW

---

The WASJOYE Fireproof Waterproof Safe Box is designed to protect your valuable documents and belongings from fire and water damage. This portable safe features a robust construction and a secure key lock mechanism, making it ideal for home, office, car, or outdoor use.

# FIREPROOF TRAVEL SAFE BOX

True fireproof safe with LFS30 fireproof level of ETL certificate(30 minutes at 1550°F)

Image 1: The WASJOYE Fireproof Waterproof Safe Box in its closed state, showcasing its compact and portable design.

## Key Features:

- **Fireproof Protection:** LFS30 fireproof level of ETL certificate, protecting contents for 30 minutes at 1550°F.
- **Waterproof Design:** IPX6 certified with a strict sealing strip technology to prevent water intrusion.
- **Durable Construction:** Made with a premium sturdy ABS shell, offering durability and impact resistance.
- **Secure Key Lock:** Equipped with a reliable key lock to prevent unauthorized access. Two keys are included.
- **Portable & Spacious:** External dimensions (H) 6.6 x (W) 15.35 x (D) 12.75 inches, internal dimensions (H) 3.54 x (W) 13 x (D) 9 inches, providing ample space for various valuables.

## 2. SETUP AND INITIAL USE

Follow these steps to set up and open your WASJOYE safe box for the first time:

1. **Insert the Key:** Insert one of the provided keys into the keyhole.
2. **Unlock:** Turn the key counter-clockwise to unlock the mechanism.

3. **Lift the Handle:** Gently pull up the carry handle.
4. **Release the Clasp:** Hold the box with one hand and unlock the clasp with the other hand, as shown in the diagram.
5. **Open the Safe:** Open the safe upwards completely.

Image 2: Step-by-step visual guide on how to open the safe box using the key and clasp mechanism.

To close and lock the safe, reverse the steps: close the lid, engage the clasp, push down the handle, and turn the key clockwise to secure.

### 3. OPERATING INSTRUCTIONS

The WASJOYE safe box is designed for straightforward operation. Always ensure the key is fully inserted and turned to the correct position for both locking and unlocking. The robust sealing mechanism ensures fire and water resistance when properly closed and locked.

Image 3: A detailed view of the waterproof sealing strip, highlighting the technology that prevents water intrusion.

For optimal protection, always verify that the safe is securely locked after placing or retrieving items. The portable design allows for easy transport, but ensure the handle is fully engaged before carrying.

### 4. MAINTENANCE

To ensure the longevity and effectiveness of your WASJOYE safe box, follow these maintenance guidelines:

- **Cleaning:** Wipe the exterior with a soft, damp cloth. Avoid abrasive cleaners that could damage the

finish or sealing components.

- **Seal Inspection:** Periodically inspect the rubber sealing strip around the lid for any signs of wear, cracks, or debris. A clean and intact seal is crucial for waterproof performance.
- **Lock Mechanism:** Keep the keyhole and lock mechanism clean and free of dust. Do not force the key if it feels stiff; apply a small amount of graphite lubricant if necessary.
- **Storage:** Store the safe in a cool, dry place when not in use. Avoid prolonged exposure to direct sunlight or extreme temperatures, which could degrade materials over time.

## 5. TROUBLESHOOTING

If you encounter any issues with your WASJOYE safe box, refer to the following common problems and solutions:

- **Difficulty Opening/Closing:** Ensure the key is fully inserted and turned. Check for any obstructions around the lid or clasp. The sealing strip may create a tight seal, requiring a firm but gentle pull to open.
- **Lost Keys:** If you lose your keys, locate the lock cylinder code found in the keyhole. Contact WASJOYE customer service with this code to request replacement keys.
- **Water Inside After Exposure:** While the safe is IPX6 certified for water resistance, it is not designed for full submersion. If water enters, ensure the sealing strip is clean and properly seated. Contact customer service if the issue persists.

## 6. SPECIFICATIONS

Feature	Detail
Brand	WASJOYE
Model Number	PortableSafe-6.8L
External Dimensions	6.61"D x 12.76"W x 15.35"H
