ZINUS Justin 14 Inch Easy to Assemble Mattress Foundation User Manual

Model: ZU-FSSSB3ZC-14F

PRODUCT OVERVIEW

The ZINUS Justin 14 Inch Easy to Assemble Mattress Foundation provides a durable, fully-steel framework with supportive slats, designed for dependable mattress support. Its robust construction includes multiple sturdy legs with plastic caps to protect flooring. This foundation offers 13 inches of under-bed clearance, providing ample storage space. It is engineered for easy assembly and long-lasting use.

FEATURES AND OPERATION

The ZINUS Justin Mattress Foundation is engineered for optimal performance and user convenience.

- **Sturdy and Durable Steel:** Constructed from heavy-duty steel, ensuring long-lasting stability and support.
- **Unbeatable Support:** Twin sizes support up to 750 lbs, while all other sizes support up to 1500 lbs, providing reliable support for various mattress types.
- **No Box Spring Needed:** Designed with optimal mattress support slats, eliminating the need for a traditional box spring. Compatible with memory foam, latex, or spring mattresses.
- **Ample Under-bed Storage:** Features 13 inches of clearance, offering significant space for storage, ideal for optimizing small living areas.
- **Recessed Legs:** Legs are strategically recessed to prevent accidental stubbing of toes, enhancing safety and convenience.

Easy 3-step Assembly

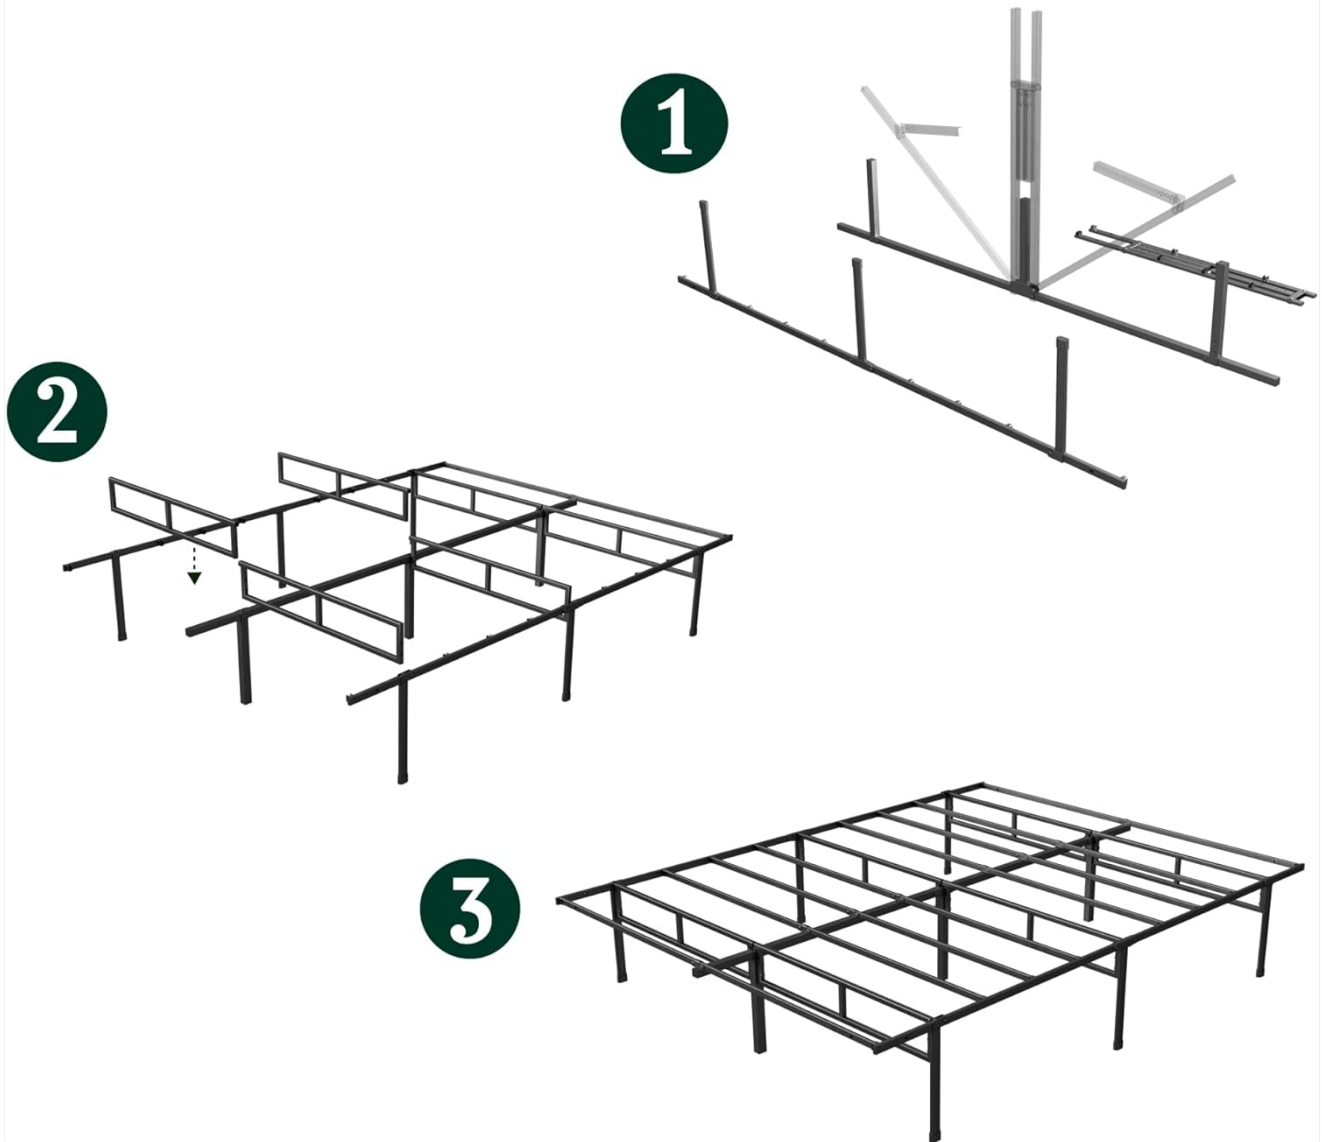

Figure 5: The 13-inch under-bed clearance offers generous storage capacity for various items.

Figure 6: Product dimensions (75"L x 54"W x 14"H for Full size) and a maximum weight capacity of 1500 lbs.

MAINTENANCE

To maintain the quality and longevity of your ZINUS Justin Mattress Foundation, simply wipe it with a damp cloth as needed. Avoid using harsh chemicals or abrasive cleaners that could damage the finish.

TROUBLESHOOTING AND IMPORTANT INFORMATION

- **Sharp Edges:** Exercise caution around the edges of the legs during assembly and use to prevent injury.
- **Weight Limit:** Do not load more than 1500 lbs onto the foundation to ensure structural integrity and safety.
- **Squeaking:** If any squeaking occurs, re-check all connections and ensure bolts are tightened securely.
- **Mattress Movement:** If the mattress slides, consider using a non-slip pad between the mattress and the foundation slats.
