# Yaheetech 3-Panel Freestanding Wooden Dog Gate Instruction Manual

Model: YT-00129538

Brand: Yaheetech

## PRODUCT OVERVIEW

The Yaheetech 3-Panel Freestanding Wooden Dog Gate is designed to provide a secure and flexible barrier for your pets within your home. Its freestanding design allows for easy placement in various locations such as doorways, hallways, stairs, and open spaces without the need for permanent installation. The gate features a durable wooden construction and a folding design for convenient storage.

## KEY FEATURES

- **3-Panel Design:** Constructed from 0.7-inch thickened MDF boards, forming a durable wooden frame. Stands 36 inches tall and expands to a maximum of 60 inches in length, adapting to various shapes.
- **Adjustable & Flexible:** Portable design suitable for indoor and outdoor use. Customize the gate width to fit different entryways.
- **Stylish Look:** Spray-painted MDF and clean lines create a timeless white wood fence that complements home decor.
- **Flexible Folding:** Features 360-degree rotate hinges that allow panels to bend in both directions, enabling configuration for various spaces (hallways, doorways) and easy storage when not in use.
- **Versatile Placement:** Sturdy enough with two support feet and EVA foam padding to be placed anywhere to barricade pets, including doorways, entryways, halls, bedrooms, and staircases, without damaging floors.

# FREESTANDING WOODEN FENCE

A perfect addition to the home style

The hinges can be adjusted in any direction

Double support feet for increased stability

## PACKAGE CONTENTS

Please ensure all components are present and undamaged before assembly.

- 1 x 3-Panel Wooden Pet Gate
- 2 x Support Feet with EVA foam padding
- Instruction Manual

## SETUP AND INSTALLATION

The Yaheetech Freestanding Pet Gate requires minimal assembly. Follow these steps for quick setup:

1. **Unfold the Gate:** Carefully unfold the 3-panel gate to your desired configuration (e.g., straight, Z-shape, U-shape, square). The 360-degree hinges allow for versatile positioning.
2. **Attach Support Feet:** For enhanced stability, especially when the gate is extended or used on smooth surfaces,

attach the two support feet. Simply slide each foot onto the bottom rail of the outer panels until it clicks securely into place. Ensure the EVA foam padding faces downwards to protect your floors.

3. **Position the Gate:** Place the gate in the desired location, such as a doorway, hallway, or around a specific area to restrict pet access. Adjust the panels to create the necessary barrier.

## 360 Degree Adjustment

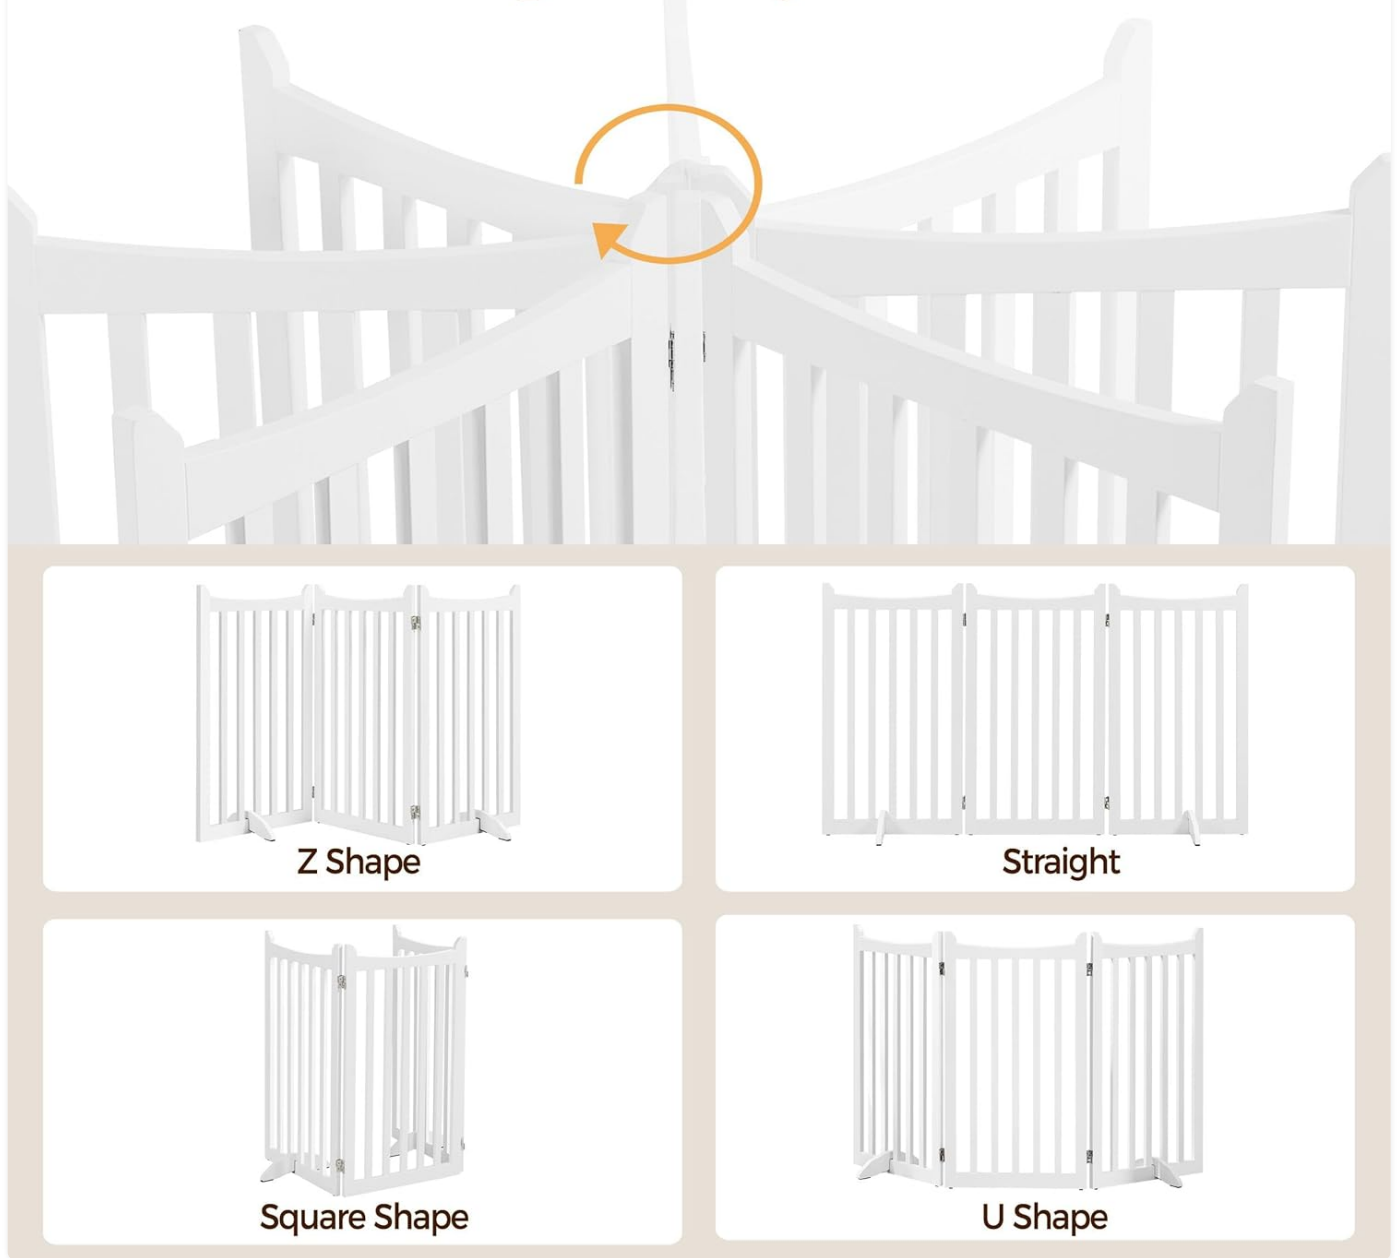

Image: The gate's 360-degree adjustment allows for various shapes to fit different spaces.

## OPERATING INSTRUCTIONS

Using your Yaheetech Dog Gate is straightforward:

- **Adjusting Position:** Gently push or pull the panels to change the gate's shape and width. The 360-degree hinges allow for smooth adjustments to fit your specific needs.
- **Moving the Gate:** To relocate the gate, simply lift it and move it to the new desired area. Ensure the support feet

are properly positioned for stability after moving.

- **Folding for Storage:** When not in use, fold the panels completely flat for compact storage. This design makes it easy to store in closets or against walls.

Image: The gate's foldable design allows for easy storage when not in use.

## MAINTENANCE

To ensure the longevity and appearance of your Yaheetech Dog Gate, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the wooden surfaces with a soft, damp cloth. Avoid using abrasive cleaners or harsh chemicals, as they may damage the finish.
- **Inspection:** Periodically check the hinges and support feet for any signs of wear or looseness. Tighten screws if necessary to maintain stability.
- **Storage:** When storing the gate for extended periods, ensure it is clean and dry. Store it in a cool, dry place away from direct sunlight or extreme temperatures to prevent warping or damage to the wood.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Gate is unstable or tips easily.	Support feet not properly attached or positioned. Uneven surface.	Ensure support feet are fully inserted and flat on the floor. Adjust gate configuration to create a more stable angle (e.g., slight U-shape). Place on a flat, even surface.
Panels are stiff or difficult to fold/unfold.	Dust or debris in hinges. Lack of lubrication.	Clean hinges with a soft cloth. Apply a small amount of silicone-based lubricant to the hinges if needed.
Pet is able to push or move the gate.	Insufficient weight or friction. Gate not properly secured.	Ensure support feet are correctly installed and the EVA foam padding is intact. Consider placing the gate on a carpeted surface or against furniture for added friction. For larger or more determined pets, consider a different gate type or securing it with additional means (not included).

## SPECIFICATIONS

Attribute	Detail
Brand	Yaheetech
Model Name	pet door
Model Number	YT-00129538
Color	White
Material	Wood, Iron
Product Dimensions (L x W x H)	60" x 1" x 36" (fully extended)
Item Weight	19.55 pounds
Number of Panels	3
Target Species	Dog, Puppy
Closure Type	Foldable
