4. SETUP AND ASSEMBLY

Assembly of the Seventable Nightstand is designed to be straightforward and typically takes 10-15 minutes. Please follow the clear and detailed instructions provided in the included Assembly Guide.

1. **Prepare Workspace:** Clear a spacious area and lay out all components on a soft, clean surface to prevent scratches.
2. **Follow Assembly Guide:** Refer to the step-by-step instructions and diagrams in the Assembly Guide. Ensure all screws and connectors are securely fastened.
3. **Install Power Strip:** The power strip can be installed on either the front or back side of the nightstand, as per your preference. Ensure the power cord is routed safely.
4. **Attach LED Light Strip:** Peel the adhesive backing from the LED light strip and attach it to the underside of the top shelf or desired location within the open cubby. Ensure the strip is connected to a USB port on the power strip.
5. **Insert Fabric Drawers:** Once the frame is assembled, unfold and insert the fabric drawers into their respective slots.
6. **Adjust Feet:** Use the adjustable feet at the bottom of the nightstand to level the unit on uneven

surfaces and protect your flooring.

5. OPERATING INSTRUCTIONS

5.1 Using the Charging Station

The nightstand features a built-in power strip for convenient charging of your electronic devices.

- Plug the nightstand's main power cord into a standard wall outlet.
- Connect your devices to the 2 AC outlets (120V/12A) or the 2 USB ports (5V/3A).
- Note that one USB port is typically used to power the LED light strip, leaving one USB port available for other devices.
- Always unplug the nightstand from the wall outlet when not in use or during electrical storms.

5.2 Controlling the LED Light

The LED light strip is controlled by the included remote control.

- **Power On/Off:** Press the power button on the remote to turn the LED lights on or off.
- **Color Selection:** Use the color buttons on the remote to choose from 20 RGB static colors.
- **Dynamic Modes:** Select from 21 dynamic modes (e.g., flash, fade, strobe) to create different lighting effects.
- **Speed Adjustment:** Increase or decrease the speed of dynamic modes using the speed control buttons.
- **Brightness Adjustment:** Adjust the brightness of the lights using the brightness control buttons (8 settings available).
- Ensure the remote control has a working battery and is pointed generally towards the nightstand for optimal signal reception.

6. MAINTENANCE

Regular maintenance will help prolong the life and appearance of your nightstand.

- **Cleaning:** Wipe the engineered wood and metal surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners. For fabric drawers, spot clean with a mild detergent and allow to air dry.

- **Dusting:** Regularly dust all surfaces to prevent buildup.
- **Electrical Components:** Keep the charging station and LED light strip dry. Do not immerse in water.
- **Fasteners:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.

7. TROUBLESHOOTING

If you encounter any issues with your Seventable Nightstand, please refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|-----------------------------------|---|--|
| LED lights do not turn on. | Nightstand not plugged in; LED strip not connected to USB; Remote battery dead; Remote signal obstructed. | Ensure the nightstand is plugged into a live outlet. Verify the LED strip is securely plugged into a USB port. Replace remote battery. Ensure no obstructions between remote and LED receiver. |
| LED lights reset to default mode. | Temporary signal interference or power fluctuation. | Simply use the remote control to select your desired color and mode again. |
| Charging station not working. | Nightstand not plugged in; Device not properly connected; Outlet/USB port malfunction. | Check if the nightstand's power cord is securely plugged into a working wall outlet. Ensure devices are properly connected to the outlets/USB ports. Try a different outlet or USB port. |
| Nightstand is wobbly. | Uneven floor; Loose assembly screws. | Adjust the four leveling feet at the bottom of the nightstand until it is stable. Check and tighten all assembly screws. |
