Yaheetech Mesh Office Chair User Manual

Model: YT-0012922102 | Brand: Yaheetech

1. INTRODUCTION

Thank you for choosing the Yaheetech Mesh Office Chair. This manual provides essential information for the proper assembly, operation, maintenance, and troubleshooting of your new office chair. Please read this manual thoroughly before assembly and retain it for future reference.

2. SAFETY INFORMATION

WARNING:

- Do not exceed the maximum weight recommendation of 300 pounds (136 kg).
- Fold and store the chair safely to prevent injury.
- Ensure all screws and bolts are tightened securely before use.
- Keep small parts away from children during assembly.
- Use the chair on a flat, stable surface.

3. PACKAGE CONTENTS

Verify that all components are present and undamaged before beginning assembly.

- Office Chair x 1
- Instructions x 1
- Assembly Hardware (screws, hex wrench, etc.)

4. SETUP AND ASSEMBLY

Follow these steps to assemble your Yaheetech Mesh Office Chair. For a visual guide, please refer to the assembly video below.

Video: A step-by-step guide on how to install the Yaheetech Mesh Office Chair, demonstrating each part of the assembly process.

1. **Attach Casters to Base:** Insert the five casters (wheels) into the holes at the end of each leg of the chair base. Push firmly until they click into place.
2. **Insert Gas Lift:** Place the gas lift cylinder into the center hole of the assembled chair base. Ensure it is seated firmly.
3. **Assemble Backrest and Armrests:** Attach the armrests to the backrest using the provided screws and hex wrench. Ensure the orientation is correct as per the instructions.
4. **Attach Backrest/Armrest Assembly to Seat:** Secure the assembled backrest and armrests to the underside of the seat cushion using the designated screws.
5. **Attach Mechanism to Seat:** Fasten the control mechanism to the underside of the seat cushion. Pay attention to the front and back orientation of the mechanism, ensuring the adjustment levers face the rear.
6. **Connect Seat to Gas Lift:** Carefully place the assembled seat onto the gas lift cylinder. The chair is now ready for use.

Maximum Weight Capacity: 300 LB

Video: A demonstration of the Yaheetech Ergonomic Office Chair in full grey, highlighting its various adjustable features and ergonomic design.

- **Adjustable Seat Height:** Use the lever located on the right side beneath the seat to raise or lower the chair. Pull the lever up while seated to lower, or pull it up while standing to raise. Release the lever to lock the height.

Image: Close-up of the lever for adjusting seat height and tilt tension.

- **Adjustable Lumbar Support:** The chair features a moveable lumbar pillow with an adjustable range of 1.6 inches. Adjust it to fit the curve of your back for optimal support.

Image: Close-up view of the adjustable lumbar support mechanism on the chair's mesh backrest.

- **Flip-up Armrests:** The armrests can be flipped up by rotating them upwards, allowing the chair to be pushed closer to your desk or stored compactly.

Image: Close-up of the flip-up armrests, showing their rotational movement for space-saving.

- **Tilt Tension and Rocking Function:** The chair features a 120° tilt tension. Adjust the knob beneath the seat to control the resistance of the rocking motion. Pull the lever out to enable rocking, push it in to lock the upright position.

6. MAINTENANCE

Proper care will extend the life of your office chair.

- **Cleaning:** Wipe clean with a damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Regular Checks:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten if necessary.
- **Caster Care:** Keep casters free of hair and debris to ensure smooth rolling.
- **Mesh Care:** The breathable mesh back allows air circulation. Avoid sharp objects that could tear the mesh.

7. TROUBLESHOOTING

If you encounter issues with your chair, refer to the following common problems and solutions:

- **Chair Squeaks:** Apply a small amount of silicone lubricant to moving parts, especially where metal components meet. Check and tighten all assembly screws.
- **Chair Wobbles:** Ensure all screws are fully tightened. Verify that the gas lift is properly seated in the base and the mechanism.
- **Height Adjustment Not Working:** Check if the gas lift lever is fully engaged. If the issue persists, the gas lift cylinder may need replacement.
- **Casters Not Rolling Smoothly:** Remove any hair or debris wrapped around the caster wheels. Clean the wheels and axles.
