INNOFOVO Smart Watch User Manual

Model: 366fa65e-fe12-4e3e-9e1a-f7e9a8c2a552

Introduction

Thank you for choosing the INNOFOVO Smart Watch. This manual provides essential information for setting up, operating, and maintaining your new device. This smart watch is designed to enhance your daily life with features such as call answering, message notifications, comprehensive health monitoring, and various sports modes. Please read this manual carefully to ensure optimal performance and longevity of your smart watch.

The INNOFOVO Smart Watch, featuring a rose gold finish and multiple interchangeable bands.

What's in the Box

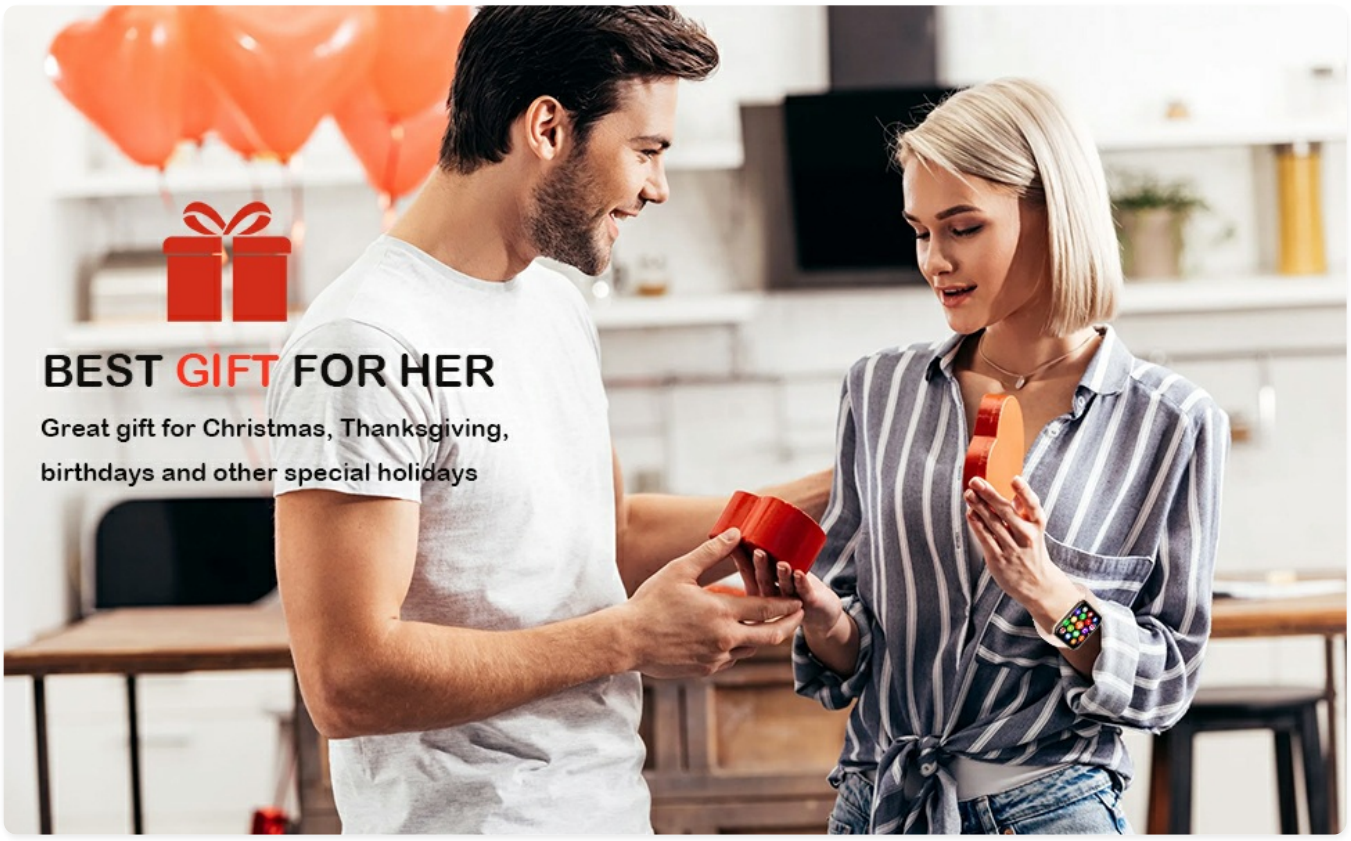

- 1 x Smart Watch
- 2 x Smart Watch Bands (Rose Gold Stainless Steel, Pink Silicone)
- 1 x Smart Watch Charger
- 1 x Instruction Manual

Setup Guide

1. App Download and Initial Setup

To unlock the full potential of your INNOFOVO Smart Watch, download the "Fitcloudpro" app on your smartphone. This app is compatible with iOS 7.1 and above, and Android 4.4 and above.

1. Turn on the Bluetooth function on your phone.
2. Open "Google Play" (for Android) or the "App Store" (for iOS).
3. Search for "Fitcloudpro" and download the app. You can also scan the QR code below for direct access:

Scan this QR code to download the Fitcloudpro App. Ensure Bluetooth is enabled on your phone.

Alternatively, visit: http://fitcloud.hetangsmart.com/qrcode/

4. Open the app and follow the on-screen prompts to register or use without an account. Fill in your basic information and set your daily exercise goal.
5. When prompted, click "Allow" for all permission requests to ensure full functionality.

2. Connecting the Smart Watch to Your Phone

After installing the app, connect your smart watch to your phone via Bluetooth:

1. In the "Fitcloudpro" app, navigate to the "Device" section and click "Bind Device".
2. The app will search for nearby devices. Find "I52" in the list and click "Connect".
3. Put the watch close to the phone and agree to the connection request on your watch.
4. Once connected, your watch is paired for data synchronization.

This video demonstrates the process of connecting your smartwatch to your mobile phone.

3. Enabling Call Function (Bluetooth Audio)

To use the call answering/making function directly from your watch, you need to connect the watch's audio Bluetooth:

1. Firstly, swipe down on the smart watch screen to access the quick settings. Turn on the "Audio mode" icon (usually located in the lower left corner).
2. Secondly, open your phone's Bluetooth settings.
3. Find "I52 Audio" in the list of available devices and click to connect.
4. Select "Allow" and click "Pair" when prompted for Bluetooth pairing request.
5. Once connected, you can make and receive calls directly from your watch.

***Tip:** If you prefer not to play your phone's sound on the watch, you can turn off the "Media audio" permission for "I52 Audio" in your phone's Bluetooth settings.*

Operating Your Smart Watch

Making/Answering Calls & Message Notifications

Once connected, you can manage calls and notifications directly from your wrist. All message notifications (Facebook, WhatsApp, Instagram, Email, etc.) will be displayed and vibrate to alert you. The built-in AI voice assistant can help with tasks like setting alarms or playing music.

The smartwatch supports Bluetooth calls, message reminders, and AI voice control for convenient communication.

24/7 Health Monitoring

The smart watch continuously monitors your health metrics, providing valuable insights into your well-being. It supports heart rate, blood pressure, and blood oxygen monitoring. It also automatically tracks your sleep patterns, recording deep sleep, light sleep, and awake time. Additional features include drink water reminders, sedentary reminders, and women's health tracking.

The smartwatch provides continuous health monitoring, including heart rate, blood pressure, and sleep tracking.

This video highlights the various benefits and features of the INNOFOVO smart watch.

Multiple Sports Modes & Activity Tracking

The watch offers 19 sports modes, including walking, climbing, running, yoga, basketball, and more. It accurately records your exercise data such as steps, calories burned, and distance, serving as a comprehensive fitness partner. Daily activity tracking helps you monitor your physical health.

The smartwatch supports 19 sports modes and provides all-day activity tracking for steps, calories, and distance.

Customizable Watch Dials

Personalize your smart watch with over 200 watch faces available in the "Fitcloudpro" app. You can also upload your favorite photos to create custom watch faces, making your device uniquely yours.

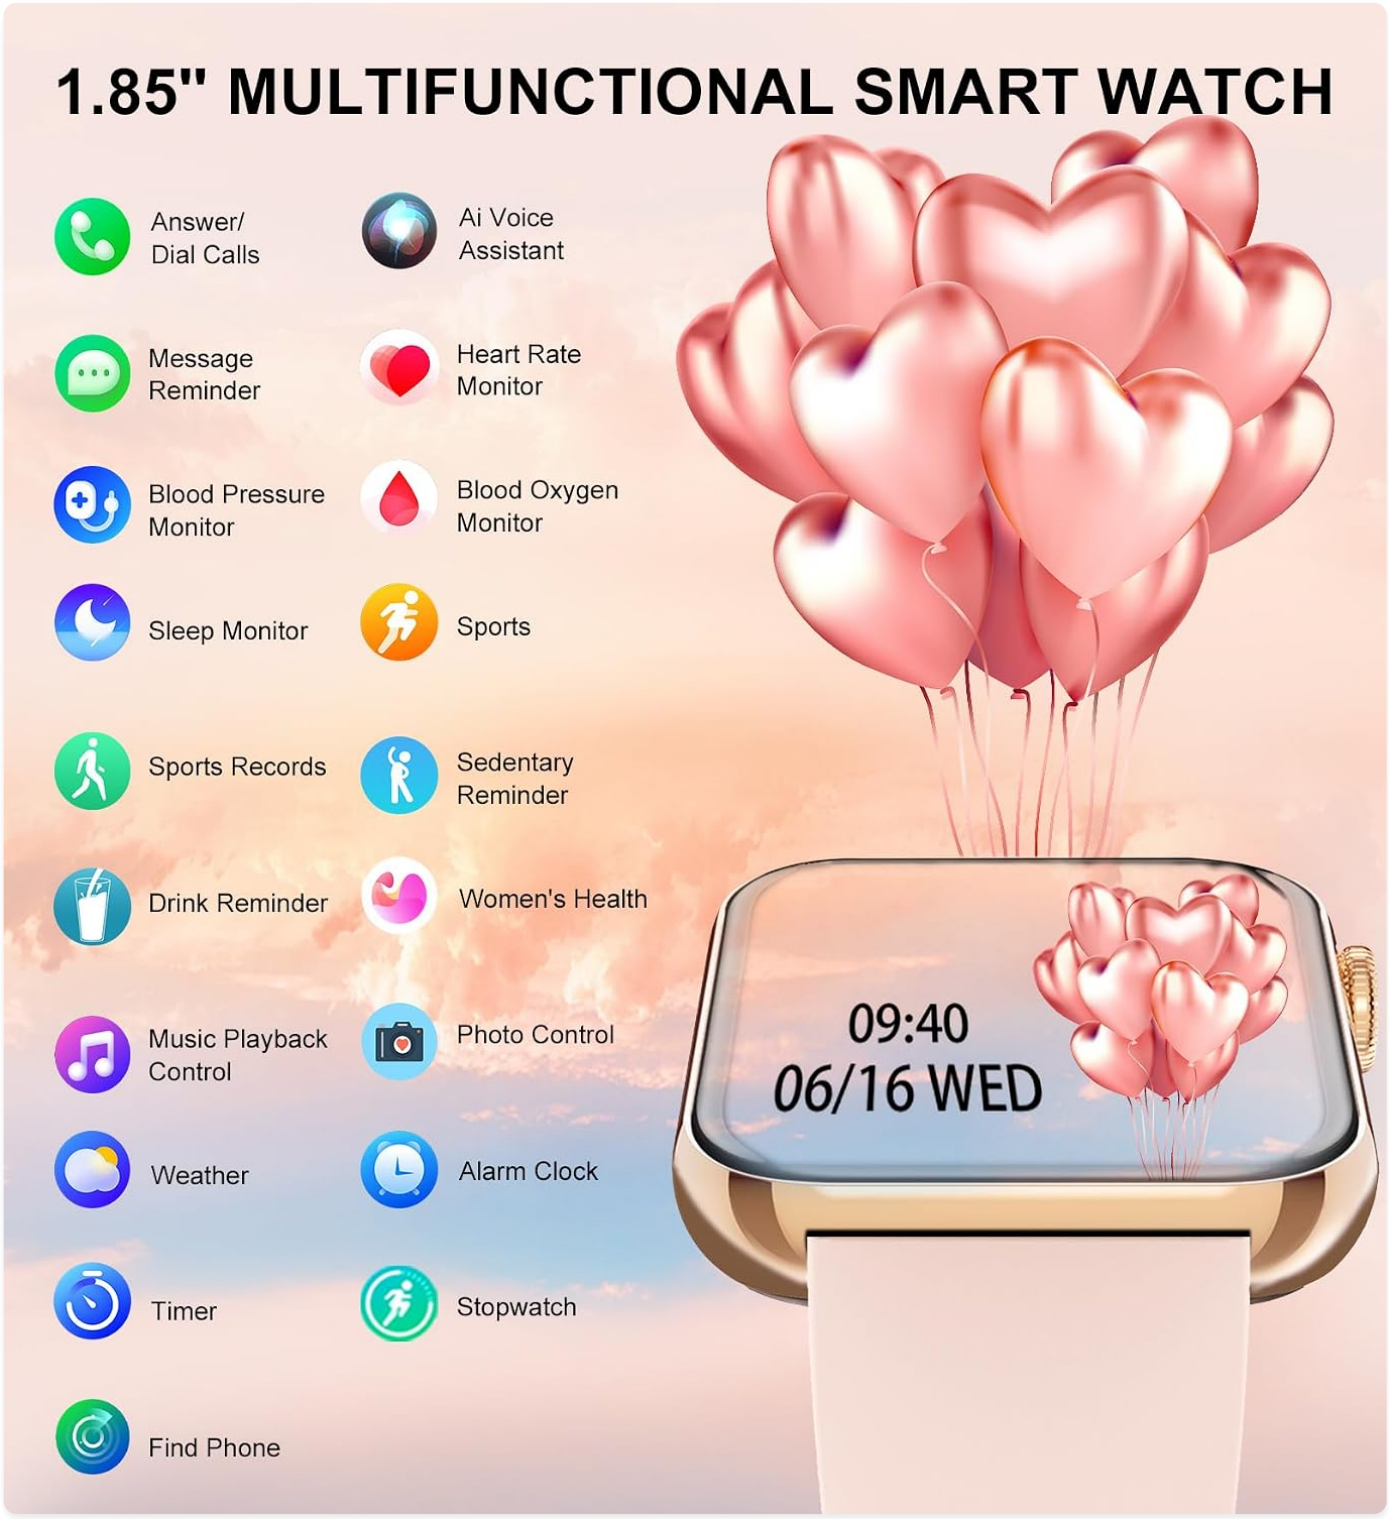

Choose from over 200 exquisite dials or customize your watch face with personal photos.

This video demonstrates the steps to personalize your watch face.

Other Multifunctional Features

Beyond core functions, the smart watch includes practical features such as weather updates, music control, camera control, alarm clock, stopwatch, calculator, timer, and a "find phone" function. It also supports "Raise to Wake" and brightness adjustment for convenience.

The 1.85-inch HD screen displays various multifunctional features, including health tracking, communication, and utility tools.

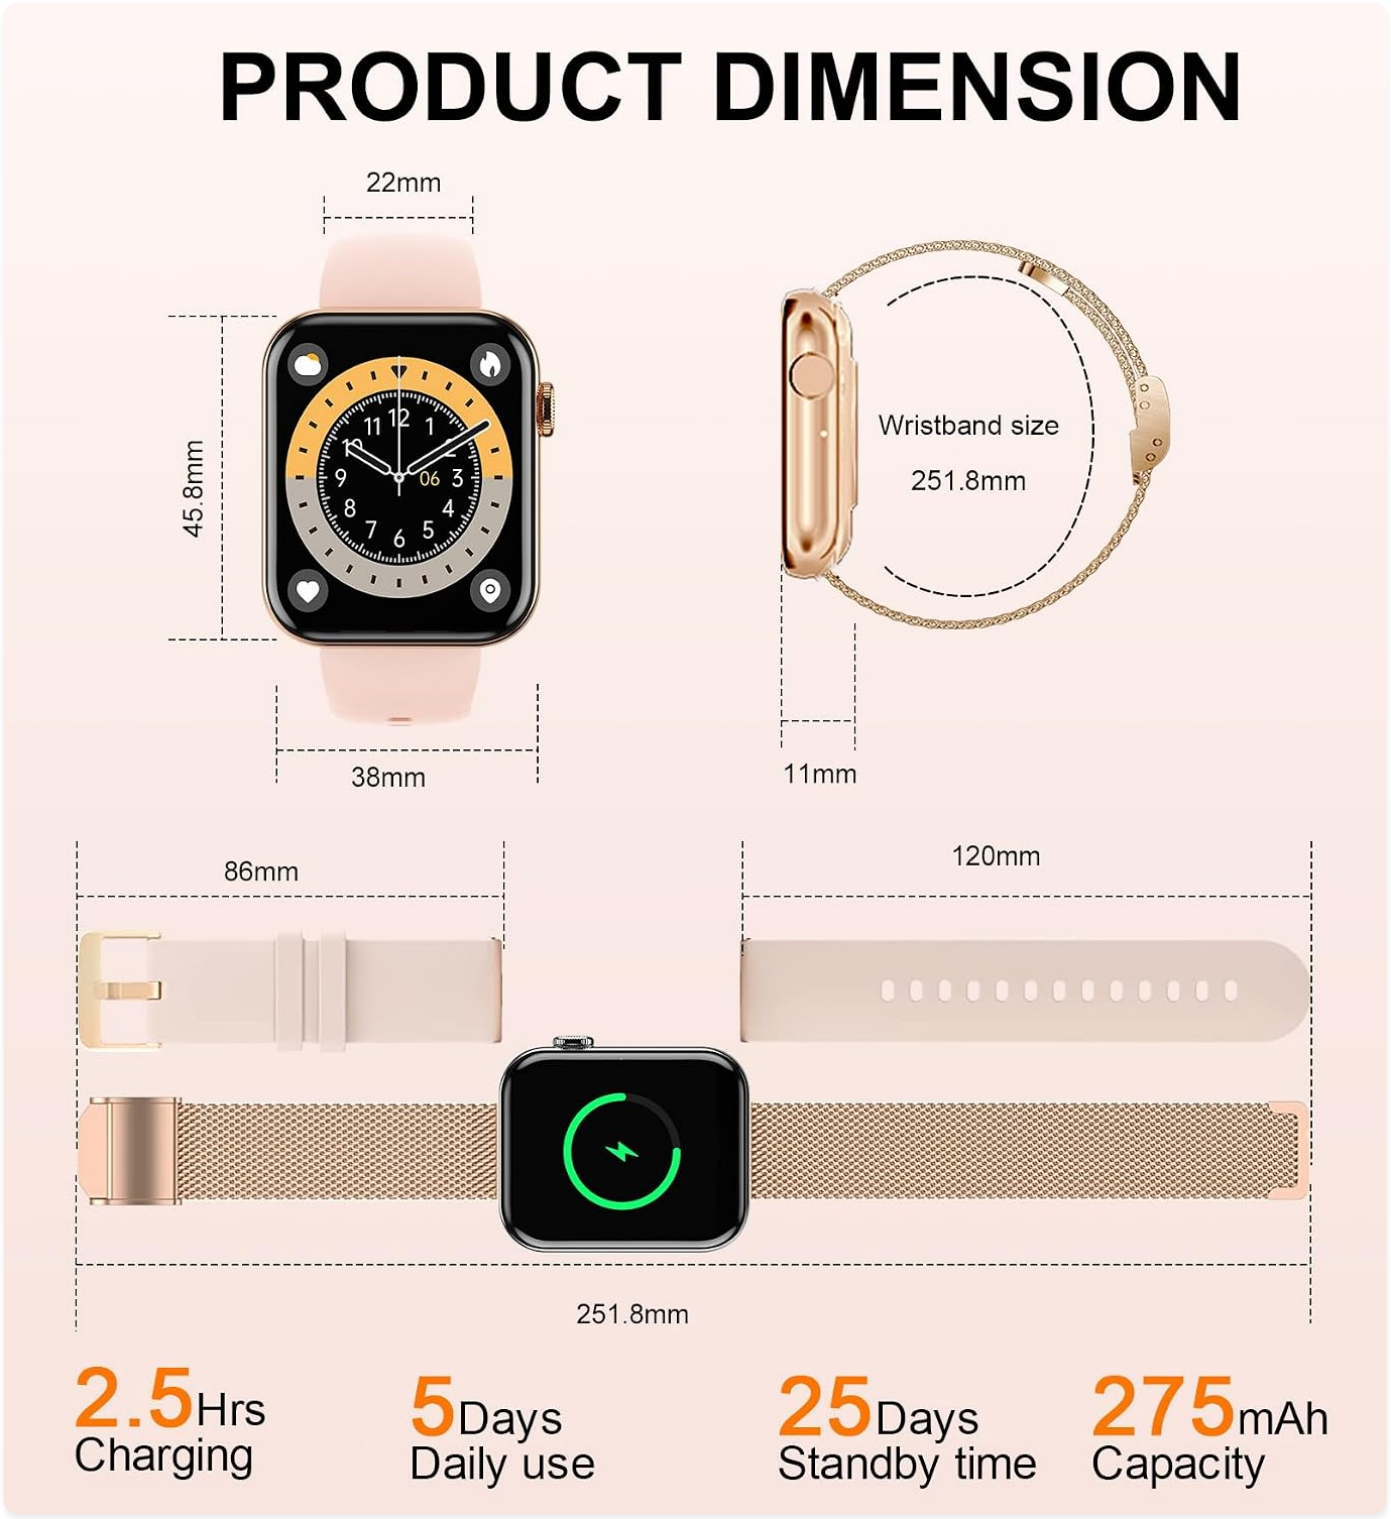

Maintenance

Battery Life

The INNOFOVO Smart Watch is equipped with a 275mAh large-capacity battery. A full charge takes approximately 2 hours, providing an average battery life of 3-7 days with typical usage and up to 25 days of standby time. Actual battery life may vary based on individual usage patterns and feature activation.

Waterproof Rating

The smart watch has an IP67 waterproof rating. This means it can withstand daily activities such as hand washing and sweating during exercise. **Important:** It is not suitable for use in hot baths, saunas, or diving, and prolonged submersion should be avoided.

Product dimensions and battery specifications: 2.5 hours charging for 5 days daily use or 25 days standby time.

Troubleshooting

If you encounter any issues with your INNOFOVO Smart Watch, please consider the following common solutions:

- **Connection Issues:** Ensure Bluetooth is enabled on both your phone and the watch. Verify that the "I52" and "I52 Audio" Bluetooth connections are active in your phone's settings. Restart both your phone and the watch.
- **App Synchronization:** Make sure the "Fitcloudpro" app is running in the background and has all necessary permissions enabled.
- **Battery Drain:** Frequent use of call functions, continuous health monitoring, and high screen brightness can reduce battery life. Adjust settings as needed.
- **Inaccurate Readings:** Ensure the watch is worn snugly on your wrist, but not too tight, for accurate health monitoring.

For further assistance, please refer to the "Fitcloudpro" app's help section or contact INNOFOVO customer support.

Specifications

Feature	Detail
