## 7. SAFETY INFORMATION

- Do not expose the power bank to extreme temperatures, direct sunlight, or fire.
- Avoid dropping, disassembling, or attempting to repair the device yourself.
- Keep out of reach of children.
- Do not use if the device is damaged or swollen.
- Use only certified charging cables and adapters.
- Dispose of the product responsibly according to local regulations.

## 8. MAINTENANCE

- Clean the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the device in a cool, dry place when not in use.
- For optimal battery life, fully charge the power bank at least once every three months if stored for extended periods.

## 9. TROUBLESHOOTING

### 9.1 Apple Watch Not Charging Immediately

**Issue:** Apple Watch does not begin charging immediately after being placed on the magnetic pad.

**Solution:** Press the power button on the portable charger. Wait for 5-16 seconds for the wireless charging function to activate. This delay is normal for the Apple Watch charging module.

### 9.2 Device Not Charging

**Issue:** Connected device is not charging.

**Solution:**

- Ensure the power bank is sufficiently charged. Check the digital display.
- Verify that the cable is securely connected to both the power bank and your device.
- Try using a different cable or port on the power bank.
- Restart the power bank by pressing the power button.

### 9.3 Slow Charging

**Issue:** Devices are charging slowly.

**Solution:**

- Ensure you are using the built-in PD 20W cable or a compatible fast-charging cable with the Type-C port.
- Charging multiple devices simultaneously may reduce the charging speed for individual devices.
- Check if your device supports fast charging.
