Kepwam W6-black

Kepwam Coffee Mug Warmer Instruction Manual

Model: W6-black

Brand: Kepwam

PRODUCT OVERVIEW

The Kepwam Coffee Mug Warmer is designed to keep your beverages at an optimal temperature, ensuring a warm drink for extended periods. It features multiple temperature settings, a customizable timer with an auto shut-off function, and a versatile heating plate suitable for various cup sizes and materials. This device can also function as a candle warmer, incorporating LED lights for visual indication.

SETUP

1. **Unpacking:** Carefully remove the mug warmer from its packaging. Ensure all components are present and undamaged.
2. **Placement:** Place the mug warmer on a flat, stable, and heat-resistant surface. Ensure it is away from water sources and out of reach of children.
3. **Power Connection:** Plug the power cord into a standard 127V (AC) electrical outlet. The device will enter standby mode.

OPERATING INSTRUCTIONS

Power On/Off

- Press the **Power Button** to turn the device on. The default temperature setting will activate.

- Press and hold the **Power Button** to turn the device off.

Temperature Settings

The warmer offers three adjustable temperature settings to suit your preference:

- Press the **Temp Button** to cycle through the settings:
 - **170°F (Red Light)**: High Gear, for very hot beverages.
 - **150°F (Purple Light)**: Mid Gear, for warm beverages.
 - **130°F (Blue Light)**: Low Gear, for mildly warm beverages.

Image: Visual representation of the three temperature settings (170°F, 150°F, 130°F) and their corresponding indicator light colors (Red, Purple, Blue).

Timer Settings & Auto Shut-off

- Press the **Timer Button** to set the automatic shut-off time from 2 to 9 hours.

- By default, the warmer will automatically turn off after 4 hours if no timer is set.

Candle Warmer with Night Light Function

- The warmer can also be used to melt scented candles.
- The LED lights indicate the current temperature setting and can serve as a night light.
- Long press the **Timer Button** to turn the LED night light on or off.

Candle Warmer with Light

Compatible Drinkware

- The 4.8-inch heating plate is designed to accommodate a wide range of cup sizes and various materials, including ceramic, glass, stainless steel, and more.
- For optimal heating, use flat-bottomed mugs that make full contact with the heating surface.

4.8in Larger Heating Plate

Heat a variety of foods and beverages.

Bread

Hot Drink

Rolled Oats

Candles

Sandwich

Carton Milk

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your mug warmer.

- **Cleaning:** The high-hardness microcrystal panel is waterproof and easy to clean. Unplug the device and allow it to cool completely before wiping the surface with a damp cloth. Do not immerse the device in water.
- **Heat Emission:** The device features heat emission holes for fast heat dissipation, contributing to a longer service life. Ensure these holes are not obstructed.
- **Stability:** The non-slip foot pads provide steady support. Keep them clean and free from debris to maintain stability.

TROUBLESHOOTING

If you encounter issues with your Kepwam Coffee Mug Warmer, refer to the following common problems and solutions:

- **Device Does Not Power On:**
 - Ensure the power cord is securely plugged into a working electrical outlet.
 - Check if the power outlet is functional by plugging in another device.
- **Beverage Not Heating:**
 - Verify that the device is powered on and the desired temperature setting is selected.
 - Ensure the mug has a flat bottom and is making full contact with the heating plate.
 - Thicker mugs or mugs with concave bottoms may not heat as effectively.
- **Automatic Shut-off Occurs Too Soon/Late:**
 - Check the timer setting. Adjust it by pressing the Timer Button to your desired duration (2-9 hours).
 - Remember the default auto shut-off is 4 hours if no specific timer is set.

Safety Precautions

- The heating plate becomes hot during operation. Avoid direct contact with the heating surface to prevent burns.
- Keep the device out of reach of small children and pets. Unplug the warmer when not in use or if left unsupervised.
- Do not place flammable materials or electrical cords on or near the heating plate.
- Do not immerse the device in water or other liquids.
