reiga 52-Inch Flush Mount Ceiling Fan with Light and Remote

MODEL: 52YFT-7084BG

1. Important Safety Instructions

Please read and understand all instructions before beginning installation. Failure to follow these instructions may result in electric shock, fire, or personal injury.

- **Electrical Safety:** Always disconnect power at the main circuit breaker before installing, cleaning, or servicing the fan. Ensure all electrical connections comply with local codes and ordinances.
- **Installation:** This fan is designed for indoor use only. Mount the fan to a ceiling outlet box marked "Acceptable for Fan Support of 35 lbs (15.9 kg) or less." Consult a qualified electrician if you are unsure about the installation process.
- **Blade Clearance:** Ensure there is adequate clearance between the fan blades and any obstructions.
- **Light Source:** Do not attempt to replace the integrated LED light module. Contact customer support for service.

2. Product Overview

The reiga 52-inch flush mount ceiling fan offers a modern and minimalist design with three solid black blades and an integrated LED light. It features a quiet DC motor for efficient and silent air delivery, suitable for various indoor spaces.

3. Package Contents

Verify that all components are present before beginning installation:

- Ceiling Fan Unit (Motor Housing with Blades)
- Integrated LED Light Kit
- Mounting Hardware
- Remote Control
- Instruction Manual

4. Setup & Installation

Professional installation by a qualified electrician is highly recommended.

1. **Preparation:** Ensure power is disconnected at the circuit breaker. Clear the installation area.
2. **Mounting Bracket:** Securely attach the mounting bracket to the ceiling outlet box.

3. **Wiring:** Utilize the pre-installed wire clips for simplified wire connections. Follow the detailed wiring diagrams provided in the included instruction manual.
4. **Fan Assembly:** Attach the fan motor housing and blades to the mounting bracket. The flush mount design is ideal for ceiling heights between 7-10 feet.
5. **Light Kit Installation:** Connect and secure the integrated LED light module.

5. Operating Instructions

The reiga ceiling fan is operated using the included remote control.

- **Power On/Off:** Press the power button to turn the fan and light on or off.
- **Fan Speed:** Select from 6 forward speeds using the dedicated speed buttons (1-6). The quiet DC motor ensures minimal noise even at higher settings.
- **Reversible Airflow:** Use the reverse button on the remote to change the blade direction. This allows for downward airflow in summer for cooling and upward airflow in winter to circulate warm air.
- **Light Control:** The integrated 20-watt LED light is dimmable, allowing adjustment from 100% to 0% brightness. It also offers multiple color temperatures (e.g., warm white, natural white, cool white) for customizable ambiance.
- **Timer Function:** Set the fan to automatically turn off after 1, 3, or 6 hours using the timer

buttons.

6. Maintenance

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:** Use a soft, damp cloth to clean the fan blades and motor housing. Do not use abrasive cleaners or solvents.
- **Blade Inspection:** Periodically check that all blade screws are tight.
- **Dust Removal:** Dust the fan regularly to prevent buildup, which can affect performance and balance.

7. Troubleshooting

If you experience issues with your ceiling fan, refer to the following common solutions:

- **Fan Not Operating:** Check the circuit breaker and ensure all wiring connections are secure. Verify remote control batteries are functional.
- **Fan Wobbles:** Ensure all blade screws are tightened. Check that the mounting bracket is securely installed.

- **Light Not Working:** Confirm power supply. If the LED module is faulty, contact customer support for assistance.
- **Remote Not Responding:** Replace remote batteries. Ensure there are no obstructions between the remote and the fan receiver.
