Tenbaba TBB-Carplay-02

Tenbaba Motorcycle CarPlay Screen User Manual

Model: TBB-Carplay-02

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Tenbaba Motorcycle CarPlay Screen. This device integrates wireless Apple CarPlay and Android Auto functionalities into a 5-inch waterproof display, enhancing your motorcycle riding experience with navigation, communication, and entertainment features.

WHAT'S IN THE BOX

Please verify that all components are present before proceeding with installation.

- Motorcycle CarPlay Screen
- Waterproof Power Adapter
- Bracket Kit (includes bracket, spacers, screws)
- USB Power Cable
- Sun Visor
- Binding Straps
- Electrical Tape

SETUP AND INSTALLATION

Follow these steps to securely install your Tenbaba Motorcycle CarPlay Screen.

Mounting the Device

1. Attach the bracket to the back of the CarPlay screen using the provided screws.
2. Secure the bracket assembly to your motorcycle's handlebar. The adjustable bracket supports handlebar diameters from 22mm to 35mm. Use appropriate spacers for a snug fit.
3. Ensure the screen is firmly fixed and positioned for optimal viewing without obstructing your motorcycle controls.

Image: Adjustable bracket installation details.

Power Connection

The device offers two power options:

- **Direct 12V Connection:** Connect the waterproof power adapter to your motorcycle's ACC (Accessory) +12V and ground wires. This is the recommended method for stable power.
- **USB Connection:** Alternatively, use the USB power cable if your motorcycle has a compatible USB charging port.

Ensure all connections are secure and protected from the elements using the provided electrical tape.

OPERATING INSTRUCTIONS

Powering On/Off

Press and hold the power button located on the side of the device to turn it on or off.

Connecting Wireless CarPlay / Android Auto

1. Ensure Bluetooth is enabled on your smartphone.
2. On the CarPlay screen, navigate to the Bluetooth settings and search for available devices.
3. Pair your smartphone with the device (e.g., MT65C-BF4102).
4. Once paired via Bluetooth, the device will prompt you to connect via Wi-Fi for Wireless CarPlay or Android Auto functionality. Confirm the Wi-Fi connection on your phone.
5. The CarPlay or Android Auto interface will then appear on the screen, allowing access to navigation, music, calls, and messages.

Bluetooth Helmet / Earphone Connection

To transmit audio to your Bluetooth helmet or earphones:

1. First, ensure your phone is paired to the CarPlay screen via Bluetooth.
2. On the CarPlay screen, go to **Settings >>>> System settings >>>> Phone Audio >>>> ON**
3. Then, go to **Bluetooth Emit** on the CarPlay screen to search for and connect your Bluetooth helmet or earphones.

Voice Assistant

Utilize Siri or Google Assistant for hands-free control of navigation, music, calls, and messages. Activate the voice assistant through the screen interface or by using your phone's voice command trigger.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your device.

- **Cleaning:** Use a soft, damp cloth to clean the screen. Avoid abrasive cleaners or solvents.
- **Waterproof Design:** The device features an IP65 waterproof rating, protecting it from rain and dust. However, avoid submerging the device in water.
- **Temperature Range:** The device is designed to operate in temperatures ranging from -10°C to 70°C (14°F to 158°F). Avoid prolonged exposure to extreme temperatures outside this range.
- **Storage:** When not in use for extended periods, store the device in a cool, dry place.

TROUBLESHOOTING

If you encounter issues with your Tenbaba Motorcycle CarPlay Screen, refer to the following common problems and solutions:

| Problem | Possible Cause / Solution |
|---|---|
| Device does not power on. | Check power connections (12V or USB). Ensure wires are securely connected and not damaged. Verify motorcycle's power source is active. |
| Screen turns on and off constantly. | This may indicate an unstable power supply. Check wiring for loose connections or insufficient power. Ensure the 12V connection is stable. |
| Wireless CarPlay/Android Auto fails to connect. | Ensure Bluetooth is enabled on your phone and paired with the device. Confirm Wi-Fi is enabled on your phone for the CarPlay/Android Auto connection. Try restarting both your phone and the CarPlay screen. |
| No audio from helmet/earphones. | Verify your phone is paired to the CarPlay screen. Ensure 'Phone Audio' is set to ON in the screen's system settings. Confirm your Bluetooth helmet/earphones are paired directly to the CarPlay screen via 'Bluetooth Emit'. |
| Speaker volume is low. | Adjust the volume settings on the CarPlay screen and your connected phone. If using a Bluetooth helmet, adjust its internal volume. |
| Mount feels unstable or breaks. | Ensure all screws are tightened securely. Use appropriate spacers for your handlebar diameter. Avoid over-tightening, which can strip threads, or under-tightening, which can lead to instability. |
| Missing parts upon delivery. | Contact customer support immediately with your purchase details. Refer to the 'What's in the Box' section to confirm missing items. |

SPECIFICATIONS

- **Model Number:** TBB-Carplay-02
- **Screen Size:** 5 Inches (13 cm diagonal)
- **Display Type:** LCD
- **Waterproof Rating:** IP65
- **Operating Temperature:** -10°C to 70°C (14°F to 158°F)
