

Donewin WR08

Donewin Wireless Charging Bedside Lamp (Model WR08) - User Manual

INTRODUCTION

Thank you for purchasing the Donewin Wireless Charging Bedside Lamp, Model WR08. This product combines a versatile LED lamp with wireless charging and a USB charging port, designed for convenience and functionality in your bedroom or office. This manual provides essential information for safe operation, setup, and maintenance of your device. Please read it thoroughly before use and retain it for future reference.

SAFETY INSTRUCTIONS

- Ensure the lamp is placed on a stable, flat surface to prevent tipping.
- Do not expose the lamp to water or excessive humidity.
- Use only the provided power adapter and cable. Using incompatible accessories may damage the device or pose a safety risk.
- Keep the lamp away from heat sources and direct sunlight.
- Do not attempt to disassemble or repair the lamp yourself. Contact customer support for assistance.
- Avoid placing metal objects on the wireless charging pad, as this can interfere with charging or cause overheating.
- Unplug the lamp from the power outlet before cleaning or if it will not be used for an extended period.

PACKAGE CONTENTS

- Donewin LED Desk Lamp (Model WR08)
- Power Cable
- Power Head (Adapter)
- User Manual

PRODUCT OVERVIEW

The Donewin Wireless Charging Bedside Lamp features a modern design with integrated lighting and charging capabilities. Familiarize yourself with its main components:

Image 1: Front view of the Donewin Wireless Charging Bedside Lamp, Model WR08. The lamp features an oval-shaped light ring and a wooden base with a wireless charging pad. A smartphone is shown wirelessly charging on the base, and another is connected via a USB cable.

USB Charging Port

Image 2: Close-up view of the wooden base showing the USB charging port. Two USB cables are connected, indicating the lamp's ability to charge devices via its integrated port.

10W Fast Wireless Charging

Image 3: A hand placing a smartphone onto the wireless charging pad located on the wooden base of the lamp. A charging icon is visible, indicating active wireless charging.

SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Placement:** Place the lamp on a stable, flat surface, such as a bedside table or desk.
3. **Connect Power:** Insert the power cable into the lamp's power input port, then connect the power head (adapter) to a standard wall outlet.
4. **Initial Check:** The lamp is now ready for operation.

OPERATING INSTRUCTIONS

1. Light Control (Touch-Sensitive)

The lamp features intuitive touch controls for adjusting its lighting.

- **Turn On/Off:** Lightly touch any part of the lamp's frame or the designated touch area to turn the light on or off.

- **Adjust Brightness (Stepless Dimming):** Press and hold the touch area to smoothly adjust the brightness from 0% to 100%. Release when the desired brightness is achieved.
- **Change Color Temperature:** Briefly touch the control area to cycle through three color temperature modes: warm light (3000K), neutral light (4500K), and cool white light (6000K).

Image 4: A finger touching the frame of the lamp, illustrating the touch control functionality for adjusting light settings.

Image 5: A composite image demonstrating the three color temperature options (cool white, neutral, warm) and the stepless dimming capability of the lamp, ranging from 0% to 100% brightness.

2. Wireless Charging

The lamp's base includes a 10W fast wireless charging pad compatible with Qi-enabled devices.

- **Placement:** Place your Qi-enabled smartphone or device directly onto the center of the wooden base where the wireless charging symbol is located.
- **Charging Indicator:** Your device's screen will indicate that charging has begun.
- **Optimal Charging:** For best results, ensure your device is centered on the pad and remove any thick cases or metal objects that may interfere with charging.

10W Fast Wireless Charging

Image 6: A smartphone wirelessly charging on the lamp's base, with a visual indicator of 10W fast wireless charging.

3. USB Charging Port

A USB charging port is located on the side of the lamp's base for wired charging.

- **Connect Device:** Plug your device's USB charging cable into the USB port on the lamp's base.
- **Charging:** Your device will begin charging.

MAINTENANCE

- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth to wipe the lamp. Do not use abrasive cleaners or solvents.
- **Storage:** If storing the lamp for an extended period, unplug it and keep it in a dry, cool place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Lamp does not turn on.	Not plugged in; power outage; faulty connection.	Ensure power cable is securely connected to both the lamp and the wall outlet. Check the power source.
Wireless charging is not working or inconsistent.	Device not Qi-enabled; improper placement; thick phone case; metal objects on pad.	Verify your device supports Qi wireless charging. Re-center the device on the charging pad. Remove phone cases thicker than 5mm or any metal attachments.
USB charging is slow.	Device requires higher charging current; multiple devices charging simultaneously.	The USB port provides standard charging. For faster charging, use your device's original adapter. Charging multiple devices (wireless and USB) simultaneously may reduce charging speed.
Light flickers.	Unstable power supply; internal issue.	Ensure the lamp is connected to a stable power source. If flickering persists, discontinue use and contact customer support.
Touch control is unresponsive.	Temporary software glitch; dirty touch area.	Unplug the lamp for 30 seconds and plug it back in. Ensure the touch area is clean and dry.
