6. MAINTENANCE

Proper maintenance will extend the life and appearance of your kitchen cabinet:

- **Cleaning:** Wipe the cabinet surfaces (facades and body) with a soft cloth dampened with water and a mild detergent. Dry immediately with a clean, dry cloth.
- **Avoid:** Do not use abrasive cleaners, harsh chemicals, or rough sponges, as these can damage the laminated finish and ABS edges.
- **Handles:** The matte handles are designed to be stain-resistant and can be cleaned with a damp cloth.
- **Fasteners:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if any looseness is detected.
- **Moisture:** While the ABS edges provide moisture resistance, avoid prolonged exposure to excessive moisture or spills. Wipe up any liquids promptly.

7. TROUBLESHOOTING

If you encounter any issues with your AKORD Oliwia S80 Kitchen Cabinet, refer to the following common solutions:

- **Doors not aligning or closing properly:** Check the hinge adjustments. Most hinges allow for minor adjustments to align doors horizontally, vertically, and in depth. Refer to your hinge manufacturer's instructions if specific adjustments are unclear.
- **Cabinet feels unstable or wobbly:** Ensure the cabinet is placed on a completely level surface. Check and re-tighten all assembly fasteners. If necessary, use shims under the cabinet legs to level it.
- **Difficulty opening/closing doors:** Inspect for any obstructions inside the cabinet or along the door edges. Check hinge screws for tightness.
- **Scratches or minor damage:** For minor scratches, furniture repair pens or touch-up kits matching the cabinet's color may be used.

If problems persist, please contact AKORD customer support for further assistance.
