Model: GRH28538UK

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation of your Geepas GRH28538UK 2000W Convactor Heater. Please read these instructions carefully before use and retain them for future reference. The Geepas GRH28538UK Convactor Heater is designed to provide supplemental heating for various indoor spaces such as living rooms, bedrooms, and offices. Its portable design allows for flexible placement.

2. IMPORTANT SAFETY INSTRUCTIONS

WARNING: To reduce the risk of fire, electric shock, or injury, observe the following safety precautions:

- Always ensure the heater is placed on a firm, level surface.
- Do not cover the heater or obstruct its air inlets/outlets. Overheating may occur.
- Keep flammable materials (curtains, furniture, bedding) at least 1 meter (3 feet) away from the heater.
- Do not use the heater in bathrooms, laundry areas, or similar damp locations.
- Ensure the voltage indicated on the rating label matches your mains supply.
- Unplug the heater when not in use or before cleaning.
- Do not operate the heater with a damaged cord or plug.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- The heater is equipped with an overheat safety cut-off feature that automatically turns off the unit if it becomes too hot.

3. PRODUCT COMPONENTS
