## Weehom Twin Bed Frame with Headboard

# Weehom Twin Bed Frame with Headboard Instruction Manual

Model: Twin Bed Frame with Headboard

## INTRODUCTION

---

This manual provides detailed instructions for the assembly, operation, and maintenance of your Weehom Twin Bed Frame with Headboard. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

## SAFETY INFORMATION

---

For your safety and to prevent damage to the product, please observe the following:

- Use anti-slip foot pads to prevent slipping.
- Exercise caution around sharp edges and when handling heavy components during assembly.
- Always follow the instructions provided to ensure safe and proper assembly.
- Ensure all bolts and screws are securely tightened before use.
- Do not allow children to climb on the bed frame during assembly.

## PACKAGE CONTENTS

---

Please verify that all components are present before beginning assembly. If any parts are missing or damaged, contact customer support.

- Headboard sections
- Footboard section
- Side rails
- Center support bar(s)
- Support legs

- Metal slats
- Hardware pack (screws, bolts, washers, Allen wrench)

## SETUP AND ASSEMBLY INSTRUCTIONS

---

Assembly typically requires two adults and approximately 30 minutes. Do not fully tighten screws until all components are loosely assembled.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a soft, clean surface to prevent scratches. Refer to the parts list to identify each piece.
2. **Attach Headboard and Footboard:** Connect the headboard and footboard sections to the side rails using the provided bolts and Allen wrench. Ensure the decorative elements are facing the correct direction. Do not overtighten.
3. **Install Center Support:** Attach any center support bars and their corresponding legs to the frame as indicated in the diagram. These provide crucial stability.
4. **Insert Metal Slats:** Place the metal slats into the designated slots on the side rails. Ensure each slat is securely seated. Some slats may require a slight push to click into place.
5. **Secure All Connections:** Once all parts are in place and aligned, systematically tighten all bolts and screws using the Allen wrench. Ensure all connections are firm but do not overtighten to avoid stripping threads.
6. **Attach Foot Pads:** Apply the anti-slip foot pads to the bottom of each bed leg to protect your flooring and enhance stability.

## OPERATING INSTRUCTIONS

---

Your Weehom Twin Bed Frame is designed for ease of use and durability.

- **Mattress Placement:** Place your twin-sized mattress directly onto the metal slats. A box spring is not required for this platform bed design.
- **Under-Bed Storage:** Utilize the 11.2 inches of clearance beneath the bed for storage. This space is ideal for bins, boxes, or other items to keep your room tidy.
- **Weight Capacity:** The bed frame is designed to support a maximum weight of 450 lbs. Do not exceed this limit.

## MAINTENANCE

To ensure the longevity and appearance of your bed frame, follow these maintenance guidelines:

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Regular Inspection:** Periodically check all bolts and screws to ensure they remain tight. Retighten if necessary to maintain stability and prevent squeaks.
- **Avoid Excessive Moisture:** Keep the bed frame in a dry environment to prevent rust or damage to the powder-coated finish.

## TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking Noises:** Squeaking is often caused by loose connections. Retighten all bolts and screws. Ensure all slats are properly seated.

- **Missing Parts:** If you find any parts missing upon unpacking, please contact Weehom customer support immediately with your purchase details.
- **Assembly Difficulties:** If parts do not align, ensure all previous connections are only finger-tight. Loosen them, adjust the alignment, and then tighten securely. Sometimes, two people are needed to hold parts steady during assembly.
- **Mattress Sliding:** The headboard and footboard are designed to help keep the mattress in place. Ensure the mattress is correctly positioned within the frame.

## SPECIFICATIONS

Feature	Detail
Size	Twin
Product Dimensions	77.55"L x 39.17"W x 34.84"H
Special Feature	Squeak Resistant
Color	Purple
Finish Type	Powder Coated
Included Components	Headboard, Slat
Compatible Mattress Size	Twin
Brand	Weehom
Assembly Required	Yes
Under-Bed Clearance	11.2 Inches
Item Weight	31.8 pounds

## Product Size

Weight Capacity

**450 LBS**
