Vimmk Y208

Vimmk Wireless Oral Irrigator Model Y208 User Manual

Model: Y208

1. Introduction

Thank you for choosing the Vimmk Wireless Oral Irrigator Model Y208. This device is designed to provide effective oral hygiene by removing food debris and plaque from between teeth and below the gumline, promoting fresh breath and improved oral health. Please read this manual thoroughly before use to ensure proper operation and maintenance.

2. Safety Information

- Do not charge the device when wet.
- Keep the device out of reach of children.
- Do not use if you have heart conditions, general weakness, or other health disorders without consulting a medical professional.
- Handle with care.
- Always read the label, warnings, and instructions provided on the product packaging before use.

3. Package Contents

The Vimmk Wireless Oral Irrigator package includes the following items:

- 1 x Vimmk Portable Oral Irrigator
- 8 x Rotatable Nozzles (various types for different needs)
- 1 x USB Charging Cable (Adapter not included)
- 1 x User Manual

4. Product Features

- **Deep Oral Cleaning:** Equipped with a powerful yet quiet water pump (noise level below 55 decibels), offering a pulsation frequency of 1400-1800 times per minute and water pressure of 30-130 PSI. Effectively removes 99.99% of food residues and plaque.
- **5 Cleaning Modes:** Features Strong, Standard, Delicate, Pulsed, and Child modes to suit various oral cleaning needs.
- **8 Multifunctional Nozzles:** Includes interchangeable nozzles for standard cleaning, gum massage, orthodontic care, and tongue cleaning. The 360° rotating nozzles allow easy access to hard-to-reach areas.
- **300ml Removable Water Tank:** Provides ample water for uninterrupted oral cleaning. Features a gravity-fed water ball and two filling methods for convenience.
- **IPX7 Waterproof Design:** Ensures effective cleaning and allows for use in the shower.
- **Powerful Rechargeable Battery:** Integrated 1500 mAh battery fully recharges in 4-6 hours and lasts up to approximately 21 days.
- **USB Type-C Charging:** Compatible with various devices such as power banks, car chargers, and computers.

5. Setup

5.1 Attaching a Nozzle

1. Select the desired nozzle for your cleaning needs.
2. Insert the nozzle into the hole at the top of the irrigator until it clicks into place.
3. To remove, press the nozzle release button (usually located near the nozzle attachment point) and pull the nozzle out.

5.2 Filling the Water Tank

The Vimmk oral irrigator offers two methods for filling the 300ml water tank:

- **Method 1 (Top Fill):** Open the small cap on the top of the water tank and pour water directly into the reservoir.
- **Method 2 (Detachable Tank):** Twist and detach the entire water tank from the main body of the irrigator. Fill the tank under a faucet, then reattach it securely.

Image: Instructions for detaching and filling the 300ml water tank.

6. Operating Instructions

1. **Power On/Off:** Press the power button to turn the device on or off.
2. **Select Mode:** Press the 'M' button to cycle through the 5 cleaning modes: Strong, Standard, Delicate, Pulsed, and Child. The indicator lights will show the selected mode.
3. **Positioning:** Lean over a sink and place the nozzle tip into your mouth, aiming it at your gumline at a 90-degree angle. Close your lips slightly to prevent splashing, but allow water to flow into the sink.
4. **Cleaning:** Start with the lowest pressure setting if you are a new user or have sensitive gums. Guide the water jet along your gumline, pausing briefly between teeth. Ensure you clean both the front and back surfaces of your teeth.
5. **Duration:** Continue for approximately 1-2 minutes or until you have cleaned all areas of your mouth.
6. **After Use:** Turn off the device, empty any remaining water from the tank, and rinse the nozzle.

filling methods, and cleaning action on teeth.

7. Modes and Nozzles

7.1 Cleaning Modes

- **Strong:** For deep cleaning and stubborn plaque removal.
- **Standard:** For daily dental cleaning.
- **Delicate (Soft):** For sensitive teeth and new users.
- **Pulsed:** For gum protection and massage.
- **Child:** Customized gentle mode for children.

7.2 Nozzle Types

The device comes with 8 interchangeable nozzles designed for specific oral care needs:

- **Standard Jet Tips (4 included):** For general cleaning and removing food particles between teeth.
- **Periodontal Pocket Tip (1 included):** Designed for gentle cleaning of periodontal pockets.
- **Plaque Brush Tip (1 included):** For effective removal of plaque from hard-to-reach areas.
- **Orthodontic Tip (1 included):** Specifically designed for cleaning around braces and orthodontic appliances.
- **Tongue Scraper Tip (1 included):** For cleaning the tongue to remove bacteria and freshen breath.

8. Charging the Device

The Vimmk Oral Irrigator is equipped with a powerful 1500 mAh rechargeable battery.

1. Ensure the silicone cover over the charging port is securely sealed when not charging to maintain IPX7 waterproofing.
2. Connect the provided USB Type-C charging cable to the device's charging port.
3. Plug the other end of the USB cable into a compatible power source (e.g., power bank, computer, car charger, or a wall adapter - not included).
4. The charging indicator lights will illuminate to show the charging status. A full charge typically takes 4-6 hours.
5. Once fully charged, the device can operate for approximately 21 days with regular use.

9. Maintenance

9.1 Cleaning the Water Tank

To prevent bacterial growth and maintain hygiene, clean the water tank regularly:

1. Detach the water tank from the main unit.
2. Rinse the tank thoroughly with warm water.
3. For a deeper clean, you can use a mild soap or a denture cleaning tablet dissolved in water. Rinse thoroughly afterward to remove any residue.
4. Allow the tank to air dry completely before reattaching or storing.

9.2 Cleaning the Nozzles

Rinse nozzles after each use:

1. Remove the nozzle from the device.
2. Rinse the nozzle under running water.

3. For thorough cleaning, soak nozzles in a cup of white vinegar or a denture cleaning solution for 5-10 minutes once a week. Rinse well with water before next use.

9.3 Storage

When not in use, store the device in a cool, dry place. Ensure the water tank is empty and dry. It is suitable for travel due to its compact, wireless design.

Image: The oral irrigator and its accessories packed for travel, highlighting its portability.

10. Troubleshooting

If you encounter any issues with your Vimmk Oral Irrigator, please refer to the following common solutions:

- **No water flow:** Ensure the water tank is filled and securely attached. Check if the nozzle is properly inserted.
- **Weak water pressure:** Make sure the device is fully charged. Clean the nozzle for any blockages. Select a higher pressure mode.
- **Device not turning on:** Ensure the battery is charged. If the device is new, it might require an initial charge.

- **Leaking:** Check that the water tank is correctly attached and the charging port's silicone cover is sealed. Ensure the nozzle is firmly in place.

If the problem persists, please contact customer support for assistance.

11. Specifications

Model Number	Y208
Dimensions	25 x 7 x 7 cm
Weight	380 grams
Water Tank Volume	300 Milliliters
Power Source	Battery Powered (1 included)
Battery Capacity	1500 mAh
Charging Time	4-6 hours
Operating Time	Up to 21 days
Water Pressure	30-130 PSI
Pulsation Frequency	1400-1800 pulses/minute
Waterproof Rating	IPX7
Material	Plastic
Certifications	CE, FDA, FCC, RoHS

12. Warranty and Support

This Vimmk Oral Irrigator is certified by FDA, CE, FCC, RoHS, and other standards. If you require assistance with the use of your oral irrigator or have any questions, please do not hesitate to contact our customer support. We are committed to providing excellent after-sales service.
