WiMiUS P63

WiMiUS P63 Projector User Manual

Model: P63

Brand: WiMiUS

1. INTRODUCTION

Thank you for choosing the WiMiUS P63 Projector. This portable projector is designed to deliver an immersive viewing experience with its advanced features and user-friendly interface. It integrates a built-in Android TV system, offering access to a vast library of streaming applications without the need for external devices. Key features include innovative electric focus, automatic keystone correction, native 1080P resolution with 4K support, and ultra-fast WiFi 6 and Bluetooth 5.2 connectivity.

This manual provides comprehensive instructions to help you set up, operate, and maintain your WiMiUS P63 Projector, ensuring optimal performance and longevity. Please read this manual thoroughly before using the product and retain it for future reference.

2. SETUP GUIDE

2.1 Unboxing and Package Contents

Carefully remove all components from the packaging. Ensure all items listed below are present:

- WiMiUS P63 Projector
- Adjustable Tripod
- Remote Control
- HDMI Cable
- USB Cable
- AV Cable
- 3.5 mm Audio Cable

- Power Adapter
- User Manual (this document)

2.2 Placement and Power Connection

1. **Choose a Location:** Place the projector on a stable, flat surface. For optimal viewing, position it directly in front of a flat wall or projection screen. The projector supports screen sizes from 50 to 300 inches.
2. **Connect Power:** Insert the power adapter into the projector's power input port, then plug the other end into a standard electrical outlet.
3. **Initial Power On:** Press the power button on the projector or the remote control to turn on the device.

Image 2.1: The projector can create a large screen experience, adjustable from 50 to 300 inches, suitable for various room sizes.

3. OPERATING INSTRUCTIONS

3.1 Electric Focus

The WiMiUS P63 features an innovative electric focus system, allowing for quick and precise image clarity adjustment. This eliminates the need for manual lens rotation.

- Use the "F+" and "F-" buttons on the remote control or the projector panel to adjust the focus.
- The image will become clear within approximately 3 seconds.

One-Touch Electric Focus

Get a clear picture within 3 seconds via remote control

Image 3.1: Adjusting the projector's focus using the electric focus buttons on the remote control for a sharp image.

3.2 Auto Keystone Correction

The projector is equipped with advanced 4-point trapezoid correction and auto vertical keystone correction to ensure a perfectly rectangular image, even when the projector is not perfectly aligned with the screen.

- The projector will automatically correct vertical distortion.
- For 4-point correction, navigate to the settings menu to manually adjust each corner for precise image alignment.

Auto Vertical Keystone Correction

Image 3.2: The projector's auto keystone correction feature automatically adjusts the image to be rectangular.

3.3 Android TV System

The built-in Android TV system provides direct access to over 7,000 applications, including popular streaming services like Netflix, Prime Video, Disney+, and Hulu, eliminating the need for an external TV stick.

- 1. Navigate the Interface:** Use the remote control to browse the Android TV home screen.
- 2. Connect to Wi-Fi:** Go to Settings > Network & Internet to connect to your home Wi-Fi network. The projector supports the latest WiFi 6 technology for faster and more stable connections.
- 3. Download Apps:** Access the App Store to download and install your favorite streaming applications.

Android TV & 7000+ Apps

Enjoy massive streaming videos without a Fire Stick

Image 3.3: The integrated Android TV system allows direct access to numerous streaming applications.

3.4 Connectivity Options

The P63 projector offers multiple connectivity options for various devices:

- **HDMI:** Connect gaming consoles, laptops, Blu-ray players, or other HDMI-enabled devices using the two HDMI ports.
- **USB:** Use the two USB ports to play media directly from USB drives.
- **AV:** Connect older devices using the AV port.
- **Headphone/Audio Out:** Connect external speakers or headphones via the 3.5mm audio jack.
- **Bluetooth 5.2:** Pair with Bluetooth-enabled headphones, speakers, or other audio equipment for enhanced sound.

Bluetooth 5.2 Connection

Enjoy ultimate 3D surround sound

Image 3.4: Seamlessly connect to external audio devices using Bluetooth 5.2 for an enhanced audio experience.

Ultra-Fast WiFi6 Technology

Image 3.5: The projector supports ultra-fast WiFi 6 technology for smooth streaming and compatibility with various operating systems.

3.5 Screen Mirroring

The projector supports wireless screen mirroring from compatible smartphones, tablets, and computers (Windows, iOS, Android) via Wi-Fi.

1. Ensure your device and the projector are connected to the same Wi-Fi network.
2. Select the screen mirroring option on the projector's interface.
3. Follow the on-screen instructions to connect your device.

4. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your projector.

- **Lens Cleaning:** Use a soft, lint-free cloth specifically designed for optical lenses to gently wipe the projector lens. Avoid abrasive materials or harsh chemicals.
- **Ventilation:** Ensure the projector's ventilation ports are clear of dust and obstructions. Do not block the air vents during operation, as this can lead to overheating.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures. Use the original packaging or a protective case if available.
- **Dust Removal:** Periodically use a can of compressed air to gently blow dust out of the ventilation areas.

5. TROUBLESHOOTING

If you encounter issues with your WiMiUS P63 Projector, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No Picture / Blurry Image	Power cable not connected. Incorrect input source selected. Out of focus. Keystone not adjusted.	Ensure power cable is securely connected. Press the "Source" button on the remote to select the correct input (HDMI, USB, AV). Use the "F+" / "F-" buttons for electric focus. Check auto keystone correction or manually adjust 4-point keystone in settings.
No Sound	Volume too low or muted. External audio device not connected properly. Incorrect audio output selected.	Increase volume using the remote. Check if muted. Ensure external speakers/headphones are properly connected or paired via Bluetooth. Verify audio output settings in the projector's menu.
Wi-Fi/Bluetooth Connectivity Issues	Incorrect password. Out of range. Interference.	Double-check Wi-Fi password. Move projector closer to the router/Bluetooth device. Reduce interference from other electronic devices. Restart the projector and your network device.
Remote Control Not Working	Dead batteries. Obstruction between remote and projector.	Replace batteries. Ensure no objects are blocking the IR receiver on the projector.
