E-YEEGER S30

E-YEEGER 4K Dash Cam S30 User Manual

Model: S30

1. INTRODUCTION

Thank you for choosing the E-YEEGER 4K Dash Cam S30. This device is designed to provide high-quality video recording of your journeys, enhancing safety and providing crucial evidence in case of incidents. This manual will guide you through the setup, operation, and maintenance of your dash cam.

2. PACKAGE CONTENTS

Please check the box for the following items:

- 1x E-YEEGER S30 Dash Cam (with pre-installed 32GB card)
- 1x Car Charger (11.5FT)
- 1x Easy Pry Tool
- 1x User Manual
- 1x Installation Guide
- 2x Electrostatic Stickers
- 1x Spare 3M Adhesive Pad

Your browser does not support the video tag.

Video Description: This video demonstrates the unboxing of the E-YEEGER S30 Dash Cam, showing all included accessories.

3. PRODUCT OVERVIEW

The E-YEEGER S30 Dash Cam features a compact and discreet design, integrating seamlessly into your vehicle's interior. It is equipped with a 4K UHD camera and a 1.09-inch screen for easy status checks.

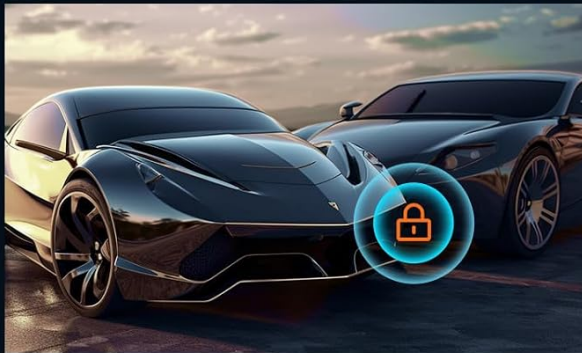

Ultra Clarity 3840*2160P

Image Description: A front view of the E-YEEGER S30 Dash Cam, highlighting its compact design and camera lens.

The dash cam includes a power input (Type-C port) and a slot for the pre-installed 32GB microSD card. The mount allows for adjustable viewing angles.

Parking In Security

G-Sensor

Lock crash videos without being overwritten

Loop Recording

Auto frees memory by overwriting unlocked videos

Time-lapse

The dash cam will record at 1fps per second under this mode

4. SETUP AND INSTALLATION

1. **Clean Windshield:** Ensure the area on your windshield where the dash cam will be mounted is clean and dry.
2. **Apply Electrostatic Sticker:** Place one of the electrostatic stickers on the desired mounting location on your windshield. This protects your windshield and allows for easier repositioning.
3. **Attach Adhesive Pad:** Peel the protective film from the spare 3M adhesive pad and attach it to the dash cam's mounting bracket.
4. **Mount Dash Cam:** Firmly press the dash cam (with the adhesive pad on its bracket) onto the electrostatic sticker on your windshield. Hold for a few seconds to ensure a secure bond.
5. **Connect Power:** Plug the Type-C end of the car charger into the dash cam's power port. Route the power cable along the edge of your windshield and dashboard using the easy pry tool to tuck it neatly. Plug the other end of the car charger into your vehicle's cigarette lighter socket.
6. **Adjust Angle:** Once mounted, adjust the camera lens to capture the desired view of the road ahead.

24H Parking Monitor

Need Hardwire Kit (not included in the package).
Please search asin: B0CHYV8WDC on Amazon.

Video Description: This video demonstrates the physical installation of the dash cam, including attaching the mount and connecting the power cable.

5. OPERATING INSTRUCTIONS

Power On/Off

The dash cam will automatically power on and begin recording when your vehicle's ignition is turned on (and power is supplied to the cigarette lighter socket). It will automatically power off when the ignition is turned off.

Recording

Once powered on, the dash cam will automatically start continuous loop recording. The 1.09-inch screen will display the recording status, time, and other relevant information.

Video Description: This video shows driving footage as seen through the dash cam, demonstrating its recording capability.

6. APP CONTROL

The E-YEEGER S30 Dash Cam can be controlled and managed via a dedicated mobile application, connecting through Wi-Fi.

1. **Download App:** Scan the QR code in the included Quick Installation Guide or search for the official E-YEEGER Dash Cam app on your smartphone's app store.
2. **Connect to Wi-Fi:**
 - Turn on the dash cam.
 - On your smartphone, go to Wi-Fi settings and connect to the dash cam's Wi-Fi network (SSID and password can be found in the app or manual).
3. **Access Footage:** Open the app. You can view live footage, browse recorded videos (loop, snapshot, locked files), and download them directly to your phone.
4. **Adjust Settings:** The app allows you to modify various camera settings, including:
 - Record Audio: Enable or disable audio recording.
 - Speaker Volume: Adjust playback volume.
 - Resolution: Set video resolution (e.g., 4K UHD 3840*2160P).
 - Video Length: Configure the duration of each recorded segment.
 - Timestamp: Enable or disable the date/time stamp on videos.
 - G-Sensor Sensitivity: Adjust the sensitivity for automatic emergency recording.
 - Parking Guard: Enable or disable parking monitoring (requires hardwire kit).
 - Time-Lapse: Activate time-lapse recording.

2.4G WiFi-APP Control

- **24-Hour Parking Monitor:** Provides continuous surveillance even when your vehicle is parked. An additional hardwire kit is required for this feature to function.

24H Parking Monitor

Need Hardwire Kit (not included in the package).
Please search asin: B0CHYV8WDC on Amazon.

Image Description: An image illustrating the 24-hour parking monitor feature, showing the dash cam connected to a hardwire kit for continuous power.

- **G-Sensor:** Automatically detects sudden shakes or collisions and locks the current video footage to prevent it from being overwritten, ensuring critical evidence is saved.
- **Loop Recording:** Automatically overwrites the oldest unlocked video files when the memory card is full, ensuring continuous recording without manual intervention.
- **Time-Lapse:** Records video at a low frame rate (e.g., 1 frame per second) to condense long periods of parking surveillance into shorter videos.

Hidden & Mini Design

Image Description: A composite image detailing the G-Sensor, Loop Recording, and Time-Lapse functions of the dash cam, showing how they contribute to parking security.

Video Description: This video highlights various features of the E-YEEGER 4K Dash Cam, including 4K recording, night vision, parking mode, G-sensor, time-lapse, and loop recording.

8. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Avoid using abrasive cleaners or solvents.
- **SD Card Management:**
 - Regularly format the microSD card (at least once a month) to ensure optimal performance and prevent data corruption. This can usually be done through the dash cam's settings menu or the mobile app.
 - Replace the microSD card periodically (e.g., every 6-12 months) as continuous overwriting can degrade its lifespan.
- **Firmware Updates:** Check the E-YEEGER website or app for any available firmware updates to ensure your dash cam has the latest features and bug fixes.

9. TROUBLESHOOTING

Problem	Possible Solution
Dash cam does not power on.	<ul style="list-style-type: none">• Check if the car charger is properly connected to both the dash cam and the vehicle's cigarette lighter socket.• Ensure the vehicle's ignition is on and the cigarette lighter socket is receiving power.• Try a different power source or car charger if available.
Video footage is blurry or unclear.	<ul style="list-style-type: none">• Clean the camera lens with a soft cloth.• Ensure the protective film has been removed from the lens.• Check if the dash cam is securely mounted and not vibrating.
App cannot connect to the dash cam Wi-Fi.	<ul style="list-style-type: none">• Ensure the dash cam is powered on.• Verify you are connecting to the correct Wi-Fi network (SSID) of the dash cam.• Re-enter the Wi-Fi password carefully.• Restart both the dash cam and your smartphone.
Recorded videos are not saving or are corrupted.	<ul style="list-style-type: none">• Format the microSD card using the dash cam's settings or the app.• Ensure the microSD card is a high-speed Class 10 or U3 card.• Replace the microSD card if the issue persists.
